## Mid-West In Grip Of Record Snow—Cold Wave Sweeps District

### BULLETIN: ROGERS PASSES THROUGH CHICAGO SAFELY

(Special To The News)  
TOLEDO, O., Jan. 10.—Just passed through Chicago. It's not a boast, it's an achievement. That's a big city. It's growing by leaps and bounds. The snow was so deep today the crooks could only hit a tall man. To try to diminish crime they laid off 500 cops. Chicago has no tax money. All their influential men are engaged in tax exempt occupations. What they got to do is to tax murder.

Yours,  
WILL ROGERS.

### PA NEW OBSERVES

A touch of winter arrived this morning which is a welcome change from the extreme warm weather of the past week. Sidewalks were quite slippery in spots but in most cases the roads were fairly free from the skirt of ice which formed.

Although the Shenango river continues to rise, the Neshannock creek seems to have fallen a little over night. The Shenango is near the highest point reached last fall, when continued rains sent the water up to the 11.6 foot mark. It is now at the 11.2 stage. Those familiar with the river do not believe it will go much higher, as it rises very slowly if any after it reaches its present stage, due to the fact that the Shenango overflows its banks in the lowlands between here and Sharon and spreads out over a wide territory.

The temperature has dropped 36 degrees in the last two days, records show. The maximum two days ago was 58, while this morning, the minimum was 22 degrees. This is quite a sudden change.

Several of the trees erected for community Christmas celebrations are still standing. It is time to take them down. Pa New notes that the one used for the celebration on the public square has been taken down, but that several others about the city are still in place.

Change in weather conditions came just about in time to check serious floods in this part of the country, according to reports reaching Pa New. Although local streams were high they were not at flood stage, but several rivers over in Ohio were reported as near the danger mark last night.

Waters of the Shenango river were at a high stage this morning, the highest Pa New has seen it for a great while. The Neshannock was also higher.

West Washington street between Beaver and Shenango streets was shut off to traffic today because workmen were renewing old gas lines. The pavement has been torn up in different places, where new pipes were necessary.

Much criticism is directed against the railroad because of the number of grade crossing accidents, but motorists themselves are to blame in most cases. Pa New believes after witnessing an accident at the Pennsylvania R. R. crossing at the foot of the Croton hill. A freight train was approaching the crossing and the watchman rang his bell vigorously, lowering the gates at the same time. Twice he had to raise the gates to prevent motorists from smashing.

### Daily Weather Report

Weather statistics for the 24-hour period ending at nine o'clock this morning are as follows:  
Maximum temperature, 38.  
Minimum temperature, 22.  
Precipitation, 13 inches, traces of snow.  
River stage 11.2 feet.

### Blizzard Will Miss This Area Says Forecaster

Record Snowfall In Midwest—Three Deaths Are Reported

**BELIEVE BLIZZARD IS NOW BLOWN OUT**

Cold Wave Is General In Greater Part Of Country Now

(International News Service)  
CHICAGO, Jan. 10.—Continued snowfall and another drop in temperature were predicted today as the middle west gained momentary relief from the blizzard which has held most of the country in its paralyzing grip for the last twenty-four hours.

After bringing record snowfalls to many sections of the west, the blizzard today was moving east and south. Eight inches of snowfall was common in many of the central states with huge drifts delaying or halting railroad and bus traffic.

**Three Deaths.**  
Three deaths, attributed to the blizzard, occurred in Illinois. Although another snowfall and colder temperature is predicted for today, the storm has virtually spent its fury in this section, in the opinion of C. A. Donnel, government weather forecaster.

With the exception of Indiana and Lower Michigan and points further east, the blizzard has practically blown itself out, he said.

Special efforts were made during the night to clear secondary roads in the dairy districts surrounding Chicago to allow farmers to bring in milk, thus preventing a repetition of the milk famine which threatened during the record blizzard of December.

**Blizzard Not Coming Here.**  
PITTSBURGH, Jan. 10.—This district will miss the heavy snow which has accompanied the blizzard in the west the past two days, but will witness a drop in temperature to 15 degrees by tomorrow, according to Forecaster V. S. Brotzman here.

The cold wave sent advance notice to this district early this morning when the mercury started to drop and the light rain changed to semi-sleet.

### GROCERY MERCHANT VICTIM OF ATTACK

(International News Service)  
HUNTINGDON, Pa., Jan. 10.—State police today reported Appleby's condition as critical. He was operated upon to effect the removal of the bullet from his left side and blood transfusions have been resorted to in an effort to save his life.

Attaches at the Huntingdon hospital today reported Appleby's condition as critical. He was operated upon to effect the removal of the bullet from his left side and blood transfusions have been resorted to in an effort to save his life.

Shot In Side  
Appleby was walking to his home in Mount Union when a stranger accosted him and demanded that Appleby return to his store and open the safe.

When Appleby replied that he did not have a safe in the store, the bandit whipped out a pistol and fired pointblank at Appleby who crumpled to the ground, a bullet in his side.

Two suspects who were arrested by police following the shooting have been released.

### "DISTURBANCE" IS HEADED TOWARD FLORIDA COAST

(International News Service)  
NEW YORK, Jan. 10.—The weather bureau today warned of a "disturbance" heading slowly toward the Florida coast from the Bahamas.

The warning declared the disturbance to be of moderate force and centered about 300 miles east north of Nassau. The center of the disturbance had moved only about 10 miles in the past 24 hours, according to estimates here.

### More Of Attorneys Present Ideas About Today's Needs At County Court House

Interest in the possibilities of some improvement in the present court house conditions seems to have been rejuvenated among the attorneys of the Lawrence County Bar association since the appearance of several articles bearing upon the matter.

For many years there has been the feeling among the lawyers that while conditions were far from what they should be, that there seemed little possibility of any improvement. However, recent statements of the county commissioners seem to indicate the possibility of something being done and following these statements, the opinions of the lawyers have been asked. Several of these opinions appeared yesterday. More of them are seen below.

**Time To Build.**  
"This would seem to be a good time to think of building a new court house," said Attorney George W. Muse. "President Hoover's urgent request that municipalities and counties and states do as much building as possible, in order to provide employment and promote prosperity, seems to have some relevancy here."

"There is no question as to the inadequacy of the court house. It has been a known fact for years, with the conditions growing worse every year. Wouldn't this be a good time to build and thus provide employment for men out of work, purchase materials and help in the national prosperity movement?"

"As for where the new court house should be located, that is not of such vital importance. My own opinion is that a city-county building would be the answer, but I am willing to submit my own personal opinions in the matter if the greater number believe that a court house should be erected upon the present site. The important thing is, we need more court house space and to halt sole the (Continued On Page Two)

### Council Agrees On Contract For Street Lighting

Action Taken At Session Today On Measure Pending For Some Time

### POWER COMPANY TO TAKE CURB LIGHTS

Council convened in city hall today and approved a contract between the city and Penn-Ohio Power company for street lights. The contract dates from January 1 and will be effective for five years.

The contract will not be signed until another contract is signed by the city and Penn-Ohio Power company. The latter contract will call for the sale of the municipal curblight system to the company for \$25,000. The purchase price has been agreed upon. The contract for electric light shows that the city will receive increased candlepower for less money than was expended during 1929. Approximately \$75,000 was expended during 1929 and Councilman Burns today stated that under present provisions the approximate annual cost for five years will be \$72,000.

The contract calls for the elimination of lights for 100 and 400 candlepower. Lights of 250 candlepower and 600 candlepower will be increased in number. The minimum number of lights will be 1300. Five years ago there were approximately 900 lights.

The municipal curblight systems which are to be sold to the power company are located in Washington street, Long avenue, Cherry street, Liberty street, a part of South Mill street. The Mahoning avenue viaduct light system is also included as part of the system.

### GAS MAIN LEAK HELD AS CAUSE

Blast Shakes Two Homes To Pieces As Eight Occupants Are In Act Of Retiring

(International News Service)  
EASTON, Pa., Jan. 10.—Three persons were killed and five more hurt seriously last night and a fourth was reported missing today following a thunderous explosion of illuminating gas here that ripped two homes from their foundations.

The blast occurred as the eight occupants of the dwellings were retiring. It shook the entire south side of the city.

**Gas Main Leak.**  
A leak in a gas main is said to have been responsible for the blast. The known dead are: Mrs. Wesley Harr, 40; John Hawk, 55; and Robert Harr, 7, son of Mrs. Harr.

The explosion took place in the double brick dwelling of Mrs. Harr. Donald Harr, 4, another son, Mrs. Cora Welch, 43, and her children, Helen 15, and Francis, 11, and Wesley Harr, the father and husband were injured.

Earl Godown, an employee of the local gas company, is reported missing.

Delegates Occupy Spotlight Of Ship In Trip Across Atlantic

By GEORGE H. HOLMES  
International News Service Staff

ABROAD S. S. GEORGE WASHINGTON, Jan. 10.—Foggy weather but calm seas prevailed today as this liner plowed toward Europe, bearing the American delegation to the Five-Power Naval Disarmament Conference at London.

The entire delegation spent its first day at sea quietly, finding its "seas legs" and settling itself for the voyage before attempting any actual work.

**Plant Conferences.**  
Later on, Secretary of State Henry L. Stimson plans to hold daily conferences, in order that the delegation may arrive in London fully primed to undertake the work in hand.

The four chief delegates, Secretary Stimson, Secretary of the Navy Francis Adams, and Senators David A. Reed of Pennsylvania and Joseph T. Robinson of Arkansas, have been assigned to the same big table in the dining room. They naturally are the center of the eyes of curious passengers at each meal.

Hopes are expressed that fair weather will continue, in order that the shipboard conferences can get under way without interference or interruption.

All members of the delegation, including the array of technical experts, secretaries and stenographers, seem to be enjoying the voyage to the fullest extent.

### Cumberland Suspect Not Mrs. Irene Schroeder State Police Report

Another clue blew up in Cumberland, Md., Thursday night when it was established that a woman and man held in the jail there were not Irene Schroeder and one of her companions, sought in connection with the murder of Corporal Brady Paul and the wounding of Private Ernest Moore of the State Highway Patrol on December 27.

The arrest was made by Cumberland authorities and the State Police barracks at Greensburg notified. A trooper was immediately dispatched to the Maryland town, but after an investigation reported that the woman and man had established beyond doubt the fact that they were not the persons wanted.

The fact that so many suspects are being picked up in many cities indicates that the search is continuing with the same vigor. One feature that may lead to the capture of the bandits is the size of the reward money.

**Reward Is \$2,000.**  
The total of the reward money is now \$3200.00, and this amount is one that will prove attractive to some of (Continued On Page Two)

### Toledo Woman Shot To Death

Woman Sleeping In Home Killed, Husband Wounded, Gun Wielder Wounds Himself

(International News Service)  
TOLEDO, O., Jan. 10.—While a five-year-old boy lay asleep in an adjoining room, one woman was killed and two men were critically injured in a shooting here today.

The woman is Mrs. Mabel Follett, 32, her husband, Kenneth R. Follett, 33, is reported dying as is Fred Stall, said by police to be the gun-wielder.

The shooting took place in the Follett bedroom, according to early reports by police, while the couple's five-year-old boy Kenneth, Jr., lay asleep in an adjoining bedroom.

Follett, police say, ran out of his home, with a wound in the right temple. Before losing consciousness, he gasped out the brief statement that Stall had entered their bedroom, shot and killed Mrs. Follett as she lay in bed, then turned the gun on Follett and himself.

Collision Of Three Autos Results Fatally To Man, Two Suffer Injuries

(International News Service)  
NEW KENSINGTON, Pa., Jan. 10. One man is dead and two others are in the hospital, one perhaps fatally injured, as the result of a triple collision of automobiles on the Freeport road near Cheswick, across the Allegheny river from here, today.

Benjamin Gately of Corlies Station, Pittsburgh, received a fractured skull and internal injuries, and Herbert Sutton of Cheswick was less seriously injured.

One of the three cars, speeding toward Pittsburgh, crashed into the Sutton car, which was stopped along the road while the owner cleaned the windshield. The impact sent the Pittsburgh bound car into the path of the third car, headed toward New Kensington.

**Will Bury Bok At Singing Tower**  
LAKE WALES, Fla., Jan. 10.—In fulfillment of a wish, Edward W. B. author, editor and philanthropist will be buried here today at a foot of his beloved "singing tower" after simple services.

The body will be laid in a crypt prepared for him at the base of the tower. The tower containing a carillon with 71 bells erected in a bird sanctuary was dedicated a year ago by former President Coolidge.

The noted Philadelphia died here Thursday after an acute heart attack. He was 67.

### President Hoover Accedes To Wishes Of House Leaders

Will Send Reports Of Law Enforcement Commission To Congress

### ANNOUNCEMENT IS MADE THIS MORNING

Report On Monday Will Go Into Four Phases Of Enforcement

By GEORGE E. DUNNO  
International News Service Staff Correspondent

WASHINGTON, Jan. 10.—President Hoover today bowed to the wishes of the house leaders and made it known that on Monday he will send to congress the several preliminary reports of his law enforcement commission on the question of prohibition enforcement.

With this gesture, the president abandoned his hope of having a joint-select committee consider the ways and means of tightening up enforcement of the dry laws.

### West Side Home Badly Damaged

Fire Occurs At Rebecca Street Home During Absence Of Family Last Evening

Fire which is believed to have originated from a defective chimney caused damage estimated at approximately \$1,300 at the home of J. W. Grim, 1113 Rebecca street, at 9:30 last night.

Mr. Grim and family were not at home when the fire broke out, and it had gained considerable headway before being discovered by neighbors. Flames were breaking out through the roof by that time and when the firemen arrived on the scene the entire upper portion of the home was ablaze.

Firemen had a difficult time getting to the house because of the bad condition of the road. It was necessary to lay 1,000 feet of hose by the No. 6 truck, while the booster tank of truck B from central station was also used.

Damage to the home was estimated at \$1,000, while \$300 damage was done to the contents. No insurance was carried on the household goods by Mr. Grim, whose loss is a total one. The home was owned by C. W. Fenton and was covered by insurance.

Honors come as the years advance, money, influence, fame, all as they come by effort and work in the playing of life's little game. And some of them come in the closing days when the curtain is ready to fall, and to some of course as they struggle along, the honors come not at all. But there is an honor too, sometimes comes when a fellow is only beginning, a time in a road in a primary grade, when a chap has his little prize, and this is an honor most highly prized, it's something that should be noted, when the teacher tells him that he is more than the row that is being promoted. Now there is an honor that's worth a lot, and it comes through hard work, not play when the teacher informs him he's going up, it's cool, thirty-one today.

## Gold Teeth May Prove Identity Of Slain Woman

Woman Found Murdered, Three Gold Teeth May Prove Clue For Officials

### VICTIM APPARENTLY OF WEALTHY FAMILY

(International News Service) PHILADELPHIA, Jan. 10. — On three gold teeth in the mouth of the nude body of a woman, found bound and wrapped in a burlap bag in the rear of an unoccupied house here by a negro ragpicker, police pinned their hopes today of identifying the body. Every dentist in Philadelphia will be visited if necessary by detectives who hope thus to pick up a clue that may unravel the mystery.

**Apparently Wealthy**  
The woman apparently came from a wealthy home, police say. Her hands wore no signs of toil and the expensive dental bridgework likewise indicated she was a woman of refinement of about 35 or 40 years of age. She was murdered, of this, the police are certain. The battered skull and other marks on the torso evidently were inflicted by a crazed man with a hatchet, physicians believe.

Dr. William Wadsworth, coroner's physician, will perform a postmortem some time today to determine more fully the exact cause and time of death.

At first the theory was advanced that the slain woman was Mrs. H. A. Buckley, wife of a prominent Lancaster and Reading merchant, who disappeared last month from a sanitarium near Easton.

Relatives of the missing Reading woman living near Allentown, however, visited the morgue here and declared the body was not that of Mrs. Buckley.

## Strife Continues Among Police In Detroit, Michigan

Accusations Fly Thick And Fast Over Shooting Of Inspector Garvin

(International News Service) DETROIT, Jan. 10.—Alleged strife among members of Detroit's police department today grew more apparent with the statement made a subordinate of Inspector Bert C. McPherson that McPherson directed him to arrange for the shooting of Inspector Henry J. Garvin.

Accusations fired at Inspector McPherson were promptly met by McPherson, who is head of the police Blackhand squad. He denied the allegations. He piled one astounding story upon another by saying Garvin had told him to accuse McPherson in the hope of undermining the Black Hand squad director.

## MORE ATTORNEYS PRESENT IDEAS ABOUT COURT HOUSE

(Continued From Page One)  
present building any more is only adding expenses."

**Others For New Court House.**  
Attorney Thomas W. Dickey has no special preference as to location, but is of the firm opinion that a new court house should be built. "When I was district attorney," said he, "the grand juries regularly brought in recommendations for a new court house, and just as regularly the recommendations were ignored. This has continued over the years. It seems to me that with the number of grand juries that have made such recommendations, four every year, with an average of 20 on each jury, that the idea of the inadequacy of the present court house has been well broadcast over the county. Business men, mill men, professional men, farmers, all of them have been part of grand juries that made such recommendations, and I believe we should take steps now to provide adequate quarters."

Attorney William J. Moffatt voiced similar opinions. "It seems unnecessary to say that the court house is inadequate," said Mr. Moffatt, "for it has been all too apparent for many years. We need a new court house, and as far as I am concerned, the location is something we can decide when we make up our minds to build a court house."

**"By All Means."**  
"By all means, we should build a decent court house," said Attorney H. A. Wilkison. "The present court house is a disgrace. Not only is it inadequate, but it is actually unsanitary. There are times when the smell of disinfectant permeates every corner of the court house and this is needed because of the condition up there. We certainly need a court house in keeping with the demands of the county and I am heartily in favor of building one. We can talk about the location later."

Attorney Wilbur J. Baer is of the opinion that the time for talking about the conditions of the court house is past, and that action is needed. "Let's have a court house that will be what the county needs, instead of the present antiquated building," he said.

to the wishes of the House leaders as to the methods by which the proposals would be considered.

Further, he promised to place the various administrative officials of the government at the disposal of the several House committees which will take up various phases of the prohibition enforcement problem.

**Relinquishes Fight**  
The White House announcement came hard on the heels of a statement by speaker of the House Longworth that House leaders were opposed to formation of a joint committee which would take away preliminary functions from already established committees of the House.

The refusal of Longworth and his assistants to permit House members of any joint committee to report directly to the House itself in the opinion of the president, only would entail further delay and for this reason he relinquished his fight for creation of such a body.

### Four Subjects

The report of the law enforcement commission, which goes to Congress Monday, will deal with four subjects:

Relief of court docket congestion. Transfer of prohibition enforcement activities of the government to the Department of Justice. Improvement of border patrols and solution of the port of entry problem. Codification of the 25 federal statutes under which prohibition is now being enforced.

Most of the windows on the East side of the City Hall were broken. Several window panes in the Wanamaker store nearby also were shattered.

The fact that the fire was discovered before the first explosion occurred prevented greater casualties. As soon as the flames were discovered a cordon of police and firemen were thrown about the building and pedestrians were thus some distance away when the blasts began.

## STAR LORE THE EINSTEIN THEORY

By Arthur DeV. Carpenter

School boys, grown-ups, persons educated and uneducated, often ask the writer to give them some idea of Einstein's theory of Relativity. The best definition of the theory we have ever seen was made by Bolton: "General Relativity is the theory of the statement of general physical laws in forms common to all observers." The mathematical formulas derived shall be "universally true for all conditions of space and matter and motion." That is, they would hold true whether observed from the center of the Sun; far out in outer space; or from a swiftly moving planet. Live with above definition till you comprehend it. (Continued.) The remains have been removed to Beaver where burial will be made. The funeral arrangements have not yet been completed.

### Funeral of Nellie Sherrard.

Simple, impressive services marked the last earthly tribute of respect paid to the memory of Miss Nellie Sherrard Thursday afternoon with Rev. G. M. Landis, pastor of the First Baptist church of which she was a member, in charge. He was assisted by Rev. H. G. Woodrow.

Rev. Landis spoke very feelingly of the devout Christian life led by Miss Sherrard and of her calm, serene personality and how much her presence would be missed, as she was an attendant at every service of the church as long as her health permitted.

The members of the Lawrence County W. C. T. U. attended in a body as well as the reportorial staff of The New Castle News.

Two favorite songs of Miss Sherrard were sung, "Unanswered Yet," by Mrs. Paul Weller and Mrs. Harry Cook, and "Tell Me The Old Story" by a quartet, D. F. Williams, John Owens, Mrs. Weller and Mrs. Cook. Pall bearers were J. F. Rentz, J. P. Caldwell, G. W. Conway, Paul D. Weller, C. L. Hughes and Harry Caven. Interment was made in the Greenwood cemetery.

### Alexander Young Funeral.

Funeral services for Alexander Young, East Brook, R. D. 9, were held from the home of his brother, Jesse Young, Thursday afternoon at 2 p. m. with Rev. St. Clair of the East Brook United Presbyterian church in charge, assisted by Rev. S. Y. Sankey of the Slippery Rock United Presbyterian church.

Pall bearers were John, Norman, George, Everett, Frank and Raymond Young. Interment was made in the East Brook cemetery.

### Joseph Cuno's Funeral.

Funeral services of the late Joseph Cuno were held this morning at 9:30 o'clock in St. Vitus church with a large group of sorrowing friends and relatives in attendance. Solemn high mass was said with Rev. Fr. N. DeMita as the celebrant, Rev. Fr. Galliano as deacon and Rev. Fr. Ipollito as sub-deacon. The pallbearers were Joseph Alexander, Chauncey Davis, Thomas McMahon, George Chip, Robert Letera and George Perotta. Burial was made in St. Vitus cemetery.

### WOULD PAVE STREET.

Councilman Stanley Treser today during councilmanic session at city hall introduced an ordinance which provides for the paving of Furnace street between Moravia Street and the B. & P. railroad. Council approval was given and the ordinance was sent to committee and reported out favorably and sent to the printer pending final passage.

SPECIAL NOTICE

All checks, money orders, drafts, communications, etc., should be addressed to The News Co., New Castle, Pa., and not to any individual.

The House and Senate, calm about other things, become wildly excited when a pint of whisky, or the shooting of a bootlegger, is mentioned.

Many believe sincerely that drinking or not drinking whisky is the most important issue in the affairs of the United States.

Others think that great engineering problems, development of national industry and prosperity are more important.

The law, for reasons known to Providence, seems to be on the side of those that defy prohibition.

Vermont passed a law compelling buyers of liquor to tell who sold it.

Vermont's Supreme Court says that the "disclosure law" is unconstitutional.

Hundreds had been sent to jail for violating the law.

Prohibition would be made ten times more effective if the law held the buyer of liquor as guilty as the seller is guilty. But high court decisions say it is a crime to sell liquor, no crime to buy it.

There is a difference between the seller and the buyer defying law and Constitution.

The seller makes money, the buyer ruins his constitution. Nevertheless, the law should put them in the same class.

At this writing, (5 p. m. Tuesday) the royal marriage in Rome was part of history. The happy young couple had been blessed, and married and anarchists, whatever their plans may have been, had been disappointed.

Probably, if any of them saw the young couple, a youth and a girl that never hurt anybody, they are glad of it.

Three kings saw the wedding, and the populace of Rome, always romantic, enjoyed it intensely.

What Mussolini thought will make another interesting chapter.

In the next century there will be no more kings, perhaps.

But there will be other Mussolinis. The people must have leaders, born or self-made.

The United States army of simpletons, that buy stocks when gentlemen ring the doorbell and tell them "now or never," or when other gentlemen call them on the telephone, are interested in this.

One get-rich-quick concern on trial in a federal court is said to have spent \$400,000 in one year, for telephone messages to fools.

You may imagine how much the geese at the other end of the telephone must have lost to justify a \$400,000 telephone bill in one year.

How prosperous this nation would be if citizens could be persuaded not to invest unless they know, or have the advice of some honest and experienced man, preferably a respected banker who has been in business for some time.

There is always one investment that does not disappoint you, the savings bank. It does not call you up on the telephone, but it does return your money when you want it.

Young Senator La Follette gets his seat on the Senate Finance Committee. Conservative senators, representing organized money and corporations that are the real government of the United States don't want him, but let him in to avoid a troublesome fight.

His admission was reasonable. Young La Follette does not represent the really big powers in the United States. But his ideas, and, especially, his archaic notion that the people of the United States, is shared by at least 90,000,000 out of 120,000,000 Americans.

The 90,000,000 haven't learned to use the ballot yet, but may learn some day.

Cyrus H. K. Curtis, in his interesting newspaper, starts a series of articles called "The Magistrate Racket" in New York City.

The interesting statements reveal judges on the bench dealing with criminals from the gutter, gangsters, thieves, bootleggers.

The charge is made one confessed thief was set free in court, and as a formality the money he had stolen was returned to the victim by the judge's orders.

Interesting incidents in our civilization.

Somebody is always attacking "nature's sweet restorer." A German has invented a spherical alarm clock, manufactured by the Black Forest clock makers, to whom we owe the cuckoo clock.

This new alarm clock makes a loud noise, and, at the same time, turns on an electric light, located in the clock.

The way to see the silver lining of a cloud is to stand in the sunshine far from the fellow who is under it.

"As mean as a dog," people say. But you never saw a dog shake hands with somebody and then bite him in the back.

Americanism: Buying things you don't need because a slick guy flatters you by promising to take your future earnings.

What the world needs most today is a device that will shut off all radios in the neighborhood when you shut off yours.

The political bee stings where it will. Mud is the oldest known remedy for bee stings. That accounts for the mud thrown around in political campaigns.

The law, for reasons known to Providence, seems to be on the side of those that defy prohibition.

Vermont passed a law compelling buyers of liquor to tell who sold it.

Vermont's Supreme Court says that the "disclosure law" is unconstitutional.

Hundreds had been sent to jail for violating the law.

Prohibition would be made ten times more effective if the law held the buyer of liquor as guilty as the seller is guilty. But high court decisions say it is a crime to sell liquor, no crime to buy it.

There is a difference between the seller and the buyer defying law and Constitution.

The seller makes money, the buyer ruins his constitution. Nevertheless, the law should put them in the same class.

At this writing, (5 p. m. Tuesday) the royal marriage in Rome was part of history. The happy young couple had been blessed, and married and anarchists, whatever their plans may have been, had been disappointed.

Probably, if any of them saw the young couple, a youth and a girl that never hurt anybody, they are glad of it.

Three kings saw the wedding, and the populace of Rome, always romantic, enjoyed it intensely.

What Mussolini thought will make another interesting chapter.

In the next century there will be no more kings, perhaps.

But there will be other Mussolinis. The people must have leaders, born or self-made.

The United States army of simpletons, that buy stocks when gentlemen ring the doorbell and tell them "now or never," or when other gentlemen call them on the telephone, are interested in this.

One get-rich-quick concern on trial in a federal court is said to have spent \$400,000 in one year, for telephone messages to fools.

You may imagine how much the geese at the other end of the telephone must have lost to justify a \$400,000 telephone bill in one year.

How prosperous this nation would be if citizens could be persuaded not to invest unless they know, or have the advice of some honest and experienced man, preferably a respected banker who has been in business for some time.

There is always one investment that does not disappoint you, the savings bank. It does not call you up on the telephone, but it does return your money when you want it.

Young Senator La Follette gets his seat on the Senate Finance Committee. Conservative senators, representing organized money and corporations that are the real government of the United States don't want him, but let him in to avoid a troublesome fight.

His admission was reasonable. Young La Follette does not represent the really big powers in the United States. But his ideas, and, especially, his archaic notion that the people of the United States, is shared by at least 90,000,000 out of 120,000,000 Americans.

The 90,000,000 haven't learned to use the ballot yet, but may learn some day.

Cyrus H. K. Curtis, in his interesting newspaper, starts a series of articles called "The Magistrate Racket" in New York City.

The interesting statements reveal judges on the bench dealing with criminals from the gutter, gangsters, thieves, bootleggers.

The charge is made one confessed thief was set free in court, and as a formality the money he had stolen was returned to the victim by the judge's orders.

Interesting incidents in our civilization.

Somebody is always attacking "nature's sweet restorer." A German has invented a spherical alarm clock, manufactured by the Black Forest clock makers, to whom we owe the cuckoo clock.

This new alarm clock makes a loud noise, and, at the same time, turns on an electric light, located in the clock.

## Chinese Stand On Courts Seen As Political Gesture

Modified Statement As To Foreign Courts, Indicating Desire To Negotiate, Accepted As In Accord With Treaties

Efforts to create an impression at home is the explanation given for the Chinese government's recent abolition of foreign courts. It is recognized that, under the republic, it is logical to expect the Chinese to control their own affairs, but Americans, as well as Europeans, feel that the native courts of China must be reformed and that a more stable government must be established before extraterritorial rights are relinquished.

"The United States government very properly recognized the right of the Chinese as an independent people to throw off the shackles of extraterritoriality when it addressed to the Chinese its note of last August, expressing the readiness of this government to participate in negotiations to find a method for gradual relinquishment of these rights by the nations which have them," says the CHARLESTON EVENING POST, adding that "if the powers agree with the Chinese in principle, it is hard to see why they will not do anything more than try to bring about the immediate enactment of laws in China which will be more in accord with western ideas of jurisprudence than those now existing."

"America ought to take the leadership," advises the MILWAUKEE JOURNAL, "by informing the Chinese that we shall be glad to give them every aid in setting up the kinds of courts that will be satisfactory; and that nobody will be more disappointed if, after a fair trial, it is found that China is not yet in condition to mete out even-handed justice." The MANCHESTER UNION is convinced that "when China does guarantee equitable justice to Americans, Washington will not hesitate to accede to the abolition of foreign rights on Chinese soil." The Union states, as the rights on which Americans should insist: "That they will not be subjected to military interference or exaction; that they will not be dispossessed of their property without just cause; and that they will not be subjected to unnecessary embarrassment in securing justice."

"The foreign minister of the Nanking government, Dr. Wang," says the ATLANTA JOURNAL, "intimates that there will be no hurry in enforcing the new order, and that there need be 'no difference of opinion' between the powers and China regarding the principles involved." This avowal might better have preceded the forthright repudiation of an old and treaty-based custom. If there is to be no difference of opinion, then there is no need to present their views. And until that is done, they probably will insist that the rights hitherto accorded their nationals in China shall not be abridged."

The KALAMAZOO GAZETTE holds that "our country's past record as a friend of China lends strong support to a belief that Washington officialdom is sincere when it declares its willingness to help the Chinese revise their legal code in such a way that the special privileges now exercised by foreigners can be abandoned."

The CHICAGO DAILY NEWS interprets the original drastic proclamation "purely in a Pickwickian or Chinese sense," and advises that "the powers cannot object to this face-saving expedient if it tends to promote Chinese stability and unification without imperiling any substantial foreign right."

The ST. LOUIS GLOBE-DEMOCRAT is "much of the mind" that this decree is designed mainly for psychological effect upon the Chinese, with no expectation that it can be applied to the main treaty ports.

The NEW YORK EVENING POST sees "face-saving motives" and the PITTSBURGH POST-GAZETTE concludes that "it may be just the Chinese way of bringing up the subject again for possible modification."

"If China ever is to enjoy the fruits of independent statehood" in the judgment of the HOUSTON CHRONICLE, "she will have to see to the removal of foreign tribunals from her soil. The step is taken judiciously, strengthening of the forces which are welding the nation into one body politic."

The KANSAS CITY JOURNAL-POST, however, contends that "logical as is the demand of China, it is impractical." The SALT LAKE DESERET NEWS argues that the step "means abrogation of certain clauses in treaties—a step which, in view of their other troubles, Chinese statesmen ought to think twice before taking."

The ASBURY PARK PRESS, conceding that action may be possible in the future, points out that "our present arrangements with China regarding extraterritorial rights still has about four years to run."

"The Nationalist government," states the PORTLAND OREGON JOURNAL, "may continue to hold the power and eventually stabilize China, in that event all is well in the matter of extraterritoriality. If the present gov-

ernment fails, however, there likely to be a good many national and international problems in connection with Chinese affairs. It might have been better to leave the extraterritoriality question undisturbed until the new-born government grew a little older." The LEXINGTON LEADER points out that "conditions in China which is in a state of civil war and confusion, and which is certainly in no position to guarantee protection to foreigners and to offer them justice, forbid this country to consent to the relinquishment of treaty rights of much importance to Americans in China. All the governments concerned, however, should act promptly in meeting the reasonable wishes of China."

"Political and commercial chaos" contends the INDIANAPOLIS STAR, "would result in the present disordered state of affairs. If native courts attempted to apply their archaic practices to modern legal problems. The present system can only be eliminated by China's success in instituting the necessary judicial reforms."

"What becomes of our old clothes?" The question has been asked many times, but never satisfactorily answered. Now comes the information that the United States does a flourishing business in supplying old clothes for New Turks, a business that centers in Stamboul.

In that city alone, about 3,000,000 pieces of second-hand clothes are received annually in 400 work rooms, where they are repaired and rehabilitated by 1,900 workers, and then shipped to peasants and townspeople throughout Asiatic Turkey.

The most expensive costume, after it has been refurbished, sells for about \$2, and the cheapest for about twenty-five cents.

Often an Anatolian villager dandy sports a frayed American dinner jacket that he has purchased for the equivalent of thirty-five cents. Many too, are the government officials, recruited by the new regime to don frock coats on state occasions, who, because of their puny salaries, must patronize the old clothes men.

Just Folks By EDGAR A. GUEST

PREFERENCE He had been fooled so many times By a man who begged for dimes. He vowed to give no more. Cried he: "I'll never heed again False cries of hunger and pain. As I have done before. I care not who the man may be. Henceforth he'll get no help from me."

And so one day upon the street A shivering youth he chanced to meet. Whose cheeks were ashy gray. "I'm hungry, sir," the youngster cried. "For all I care," the man replied. "This hungry you will stay! I have no coin with you to share. And left the cold boy shivering there."

But strangely as he walked along He wondered: was he right or wrong? Was that an honest plea? He wished there could be ways to tell The needy from the ne'er-do-well. Life then would easier be. Why trust this though his peace destroy? He failed to feed a hungry boy.

"Henceforth," said he, "when I can I'll give unto the beggar man. And keep my peace of mind. Deceived and cheated day by day I'd rather walk away. To think I'd left behind a man Who stopped me in his hour of need." (Copyright, 1930, Edgar A. Guest.)

IF YOU WANT TO PROVE— That you are small, let some small man make you angry. That you are unselfish do something for some one who can pay only in gratitude. That you are a friend, defend your friend behind his back. That you are big, try forgiving the fellow who did you a dirty turn. That you are not jealous, try congratulating the man who got the job you wanted. That you are religious, argue the matter with your life, not your words. That you are good natured, try laughing when everybody else is fighting.

## Jameson Hospital Staff Names New Officers For Year

Dr. R. A. Wallace Again Heads  
Staff; Unusual Cases Are  
Discussed

Unusual interest was attached to the annual meeting of the staff of the Jameson Memorial hospital, held in the hospital rooms last evening. The attendance was exceptionally good.

Election of officers resulted in Dr. R. A. Wallace being renominated to serve during the coming year. Dr. W. D. Cleland was renominated vice president, and Dr. J. O. Woods, secretary and treasurer.

Dr. Cleland presided in the absence of Dr. Wallace who was unable to attend because of illness.

Following the business session, a round-table discussion was held of unusual cases which were treated during the past year. Dr. H. E. Zerner and Dr. C. C. Dickey presenting two unusual surgical cases which had occurred. Medical discussion of these was led by Dr. Elijah Kaplan. Dr. Samuel Perry also presented an unusual medical case.

At the conclusion of the meeting, a buffet luncheon was served.

## Americans Seek Divorce In Paris

Several Divorce Actions Are  
Filed In Seine Tribunals  
By Americans

(International News Service)  
PARIS, Jan. 10.—A number of divorce actions were filed in the Seine tribunals by Americans today.

Mrs. Charles Alexander Munn of Philadelphia, the former Mary Paul, filed suit for divorce charging her husband with desertion. She was married at Radnor, Pa., on June 21, 1909.

Mrs. Jacob Shores, born Eugenie Jugie, who was married at Bridgeport, Conn., on January 23, 1927, also filed a divorce action charging desertion.

A third American action was filed by Mrs. Edward Dodelin, the former Yvonne Lievre, who was married in Paris on March 8, 1924. She gave her husband's address as 338 Point street, Camden, N. J. She also charged desertion.

## Mosquito Doomed In Bay State As Action Is Taken

State-Wide Campaign Under  
Way To Rid Massachu-  
setts Of Pesky  
Mosquito

By GENE KOWSKIE  
International News Service Staff  
Correspondent

BOSTON, Jan. 10.—The mosquito is doomed in Massachusetts. In order that the Bay State does not acquire a reputation for the pernicious pest, such as New Jersey held some time ago, lines have been drawn up for a state-wide and concerted campaign to rid the state of the insect.

Already the chambers of commerce of 21 cities and towns, the New England Council, local health boards, and improvement organizations have been co-ordinated in the battle.

Plans called for a conference here of delegates from the various organizations to formulate plans for the "warfare" and for the Mosquito Control Association.

**Breeding Places**  
According to a report from the state Reclamation Board the most prolific breeding place for mosquitoes was upon state owned land particularly in the Province Lands along Cape Cod and elsewhere on the Massachusetts Coast. That section was taken over by the state several years ago to insure the permanence of the harbor at the tip of Provincetown.

Robert W. Wales, entomologist employed by the reclamation board reported that the coastline gave itself admirably as a breeding place in stagnant pools of the marsh lands.

The marsh in mostly above water except at exceptionally high tides, when it overflowed, about once a month. Sand bars and dunes keep the water from going out again, and the stagnant pools remain until the water evaporates.

The mosquito has become worse as a pest in the state for two reasons, it was reported. One was that due to the increase in population more breeding places in dunes have been provided.

Discontinuance of the practice of cutting marsh grass for hay, was given as the second reason, and the cause of the increase in breeding along the cape.

**In Old Days**  
In the old days when the farmers depended on this salt water marsh grass as forage for horses, they maintained a series of ditches which drained the land so they could drive on with their teams. Salt is without value at present and the ditches have been allowed to fill up.

Churchill was convinced that a big step toward extermination of the mosquito along the Cape would be through the construction of inexpensive ditches which would allow the water to drain off.

## Wed 78 Years, Pair Opposed To Divorces

COLUMBUS, Ga., Jan. 10.—Expressing opposition to companionate marriages, divorce, bobbed-haired, short skirts, prohibition and petting parties Mr. and Mrs. A. O. Blackmar, believed to be the oldest married couple in the world, today observed their seventy-eighth wedding anniversary.

The husband, who has lived an even century, and the wife, who is two years his junior, look forward to several years more companionship.

Mr. Blackmar said that to be happily married a young man must "be judicious in his selection of a wife know the young lady well and form a correct judgment of her and then, after marriage, keep in the narrow path prescribed in vows taken at the altar."

Mrs. Blackmar advised the young women about to be married to be "influenced only in her choice of a husband by her love and respect for him." A marriage for money or position in the doesn't bring happiness. A woman must regard, love and respect her husband.

"Brass Tacks" On The Sunday School Lesson

### The Golden Text

"This is my beloved Son, in whom I am well pleased."—Matthew 3:17.

By DR. ALVIN E. BELL

The ministry of John the Baptist is the dawning of the Gospel. He was the last of the Old Testament prophets and the first of the New Testament evangelists. He foretold Christ's coming and announced his presence. His disciples became Jesus' first disciples. He modestly referred to himself as "the voice of one crying in the wilderness," but Christ referred to him as the "greatest among them born of women." He prepared the way for the coming King, heralded his arrival and anointed him for his office.

**The Significance of Christ's Baptism.**  
"Then cometh Jesus from Galilee to the Jordan unto John, to be baptized of him." But why should Jesus be baptized? Certainly not as a sign of repentance as in the case of all others baptized of John. For he confessed no sin, but rather claimed to do always the will of his Father. His baptism was the sign of his complete identification with a sinful race whose salvation he had come to earth to effect. Even as he thus identifies himself with our sin, his Father's voice from heaven as he says:

"This is my beloved Son, in whom I am well pleased."

Immediately following this opening of heaven with its word of testimony comes the opening of hell and the testing of Satan.

**The Tempter's Three Assaults**  
The first of Satan's temptations was physical—"If thou art the Son of God, command that these stones become bread." It was the temptation to indulge the lusts of the flesh in a manner not in accord with the will and word of God. In answer he wielded the "sword of the spirit, which is the word of God" as he said, "It is written, Man shall not live by bread alone, but by every word that proceedeth out of the mouth of God."

The second temptation was to substitute a thrill for the throes of the cross—"If thou art the Son of God cast thyself down." Make a spectacle that will dazzle the crowds in the temple into acclaiming you their Messiah. Why endure the cross to have the world follow you when this short cut to the throne is suggested. The Cross is beneath your dignity. Thus runs the temptation to "the pride of life."

The third temptation was the temptation to compromise with known evil that good may be achieved. "All these things will I give thee if thou wilt fall down and worship me." Let us compromise. Surrender for a moment for the sake of lasting good. The end justifies the means. Do evil that good may come. Thus the same tempter assaults the citadel of our souls. Our only sufficient weapon is faith in and faithful use of that same word with which Christ routed and defeated Satan. We must learn with him that, "It is written; it is written again."

(The International Uniform Lesson for January 12 is Matt. 3:13-17, the subject being, "The Baptism and Temptation of Jesus," and the Golden Text, Matt. 3:17, "This is my beloved Son, in whom I am well pleased.")

## ILLS OF FOUR YEARS ENDED BY NEW KONJOLA

New And Different Medicine  
Quickly Relieves Stub-  
born Case.

MRS. MCCOY

"Konjola is a marvelous medicine," said Mrs. McCoy, 153 Vine street, Irwin, Pa., near Pittsburgh. "I spent a good portion of the past four years in bed because of stomach ailments. Rightful pains from gases in my stomach, followed every meal. I bloated until my breathing was difficult and dizzy spells were frequent. My nerves were badly shattered and sleep was next to impossible. No medicine, and I tried many, did me any good."

"I was skeptical about Konjola, but I had been taking it only a short time when I realized that I had at last found the right remedy. My stomach began to clear up from the very beginning. In a short time I began to eat regularly of sustaining foods and felt no discomfort what ever. Constipation disappeared and my nerves soon became strong and healthy. I am up and about my work each day because of the merits of this great medicine."

Konjola is sold in New Castle at Love & Megown drug store and by all the best druggists in all towns throughout this entire section.

## Water, Water Everywhere But Not A Drop For 90-Year-Old Bill

By DAVID P. SENTNER,

International News Service Staff Correspondent

NEW YORK, Jan. 10.—Water may be all right for geographical reasons, washing windows and for the glory of bridge-builders, but 90-year-old William P. Draper, Civil War veteran, has no thirst for it.

Bill Draper hasn't taken a drink of water for forty years and he isn't going to start in now.

Having been in the navy during the Civil War and having stuck to the sea for some years after it, Bill knows something about water.

"If you want to live long, lay off drinking water," suggests Bill. "Anybody knows water will rust pipes and it will do the same to the pipes of your anatomy. I drink tea, coffee, beer and sometimes a highball. I feel like a kitten and I guess I'm good for at least ten years more."

Draper served under Porter and Farragut in the mortar fleet. He met Abraham Lincoln when the President visited the fleet.

Bill volunteered when the United States entered the World War but his services were declined because of his 77 years.

Those block-heads thought a hale and hearty lad like me was old at 77," he explained. "Can you beat it?"

Bill learned to drive an automobile ten years ago and the next year took his first aeroplane ride. He said he was disappointed because the pilot

## Device To Tell Your Thoughts Will Broadcast

(International News Service)  
LOS ANGELES, Cal., Jan. 10.—The age old question, "What is thought?" may be solved by an elaborate device recently installed in the University of Southern California psychology laboratory.

If experiments with the apparatus are successful, thought may be revealed as an electrical discharge, similar to the electrical connection that takes place when the telephone operator plugs lines in together on her switchboard.

Hearing Yourself Think  
Hearing oneself think may become a literal actuality, and the behaviorist theory of the nature of thought, that the muscles of the speech organs, the vocal chords, the lips, and the

throat, move when we form words in our thinking, may be proved.

Professor Milton Mettessell now is endeavoring to photograph the electrical manifestations of the nerve currents that discharge themselves into muscles, causing the muscles to move. He does this by placing electrodes on the skin outside the muscle, which pick up the electrical manifestations or the nerve currents.

The professor says that when a nerve current discharges, it sets up an electrical field, and the apparatus detects that field and amplifies its manifestations and changes them into either light waves, for photographing, or into radio or sound waves, for hearing.

### Broadcast Tests

Some of the tests will be broadcast over the university radio station, KEJK, on January 13, from 9:30 to 10 p. m. Pacific Coast time. At that time, the radio audience will be able to hear nerve currents at work in the human body. If the experiments with the speech muscles are successful, listeners may be able to hear the subject think.

"The movement of the speech muscles, of course, is microscopic," says Professor Mettessell, "and can only be observed through amplification. If

our experiments on thinking and silent reading are successful, the behaviorist theory of thought will be proven."

## Pair Are Blown From Bed By Bomb

WEIRTON, W. Va., Jan. 10.—Police are without clues to the dynamiting early today of a confectionery store operated by George Varlas, 32. The front of the building was blown out. Roy Snodgrass, owner of the structure, estimated the damage at \$15,000.

Varlas and his wife, sleeping upstairs, were thrown from their beds but escaped injury.

Police said they believed business jealousies might have been the motive for the dynamiting.

## OH, THESE WOMEN!

By LEOLA ALLARD

I asked the girls in trouble who are thinking of jumping off a cliff to write me before they did it. The letters are many and difficult.

A New York girl of 18 writes that her sister, a college student, tricks her because she is unable to find a job. She's so despondent that she believes her "dear sister" is right when she says: "You'd be better off dead."

Now see here Josephine, you stiffen your spine. A girl who has a sister who will strike her for not being able to find a job and who will say "My dear sister is right," should have her head examined. The next time your sister strikes you call the Human Society and tell them the story. Or go and see them. They will protect you and put an end to sister's good time. They have the authority to direct you.

Don't let a selfish, cruel unnatural sister drive you to suicide. In a very short time you will be sailing along happily and what will matter will not

be that you had trouble, but how you took it. We all have to wait till our "breaks" come Josephine and you will get yours. That's sure.

Sister is the one who is headed for trouble. She can't sew thistles and reap American Beauty roses. Not a chance. If sister doesn't know that she's a psychopatic. If your mother and father are kind why let sister worry you?

Sister is a Pill proper. I'd a heap rather be you Josephine, than be Sister.

You are not acting bright. But your letter shows that you are. Stiffen that spine and ignore sister. Tell her you will call the Humane Society and have her thrown in jail the next time she touches you. Bullies are always cowards. A little backbone would not only surprise your family, it would give them a new respect for you. And that part is up to you. You may say

Sister is "dear" but what I think she is can't be printed.

Now put on a smile and go out and get a good job. You're looking too hurt and unhappy. That's why you don't land. Put sister out of your mind or give her the surprise of her life. Good luck my dear. Copyright, 1930, Premier Syndicate Inc.

#### Wedding Plans Of Young Couple Spoiled As Auto Crashes Into Culvert

(International News Service) WASHINGTON, Pa., Jan. 10.—Julia Vallani, 22 and Henry Ballard, 24, both of New Eagle, today are planning to get married after one unsuccessful attempt to culminate their romance.

Their original plans were frustrated when their automobile struck a culvert along the highway near Bentleyville when they were driving to Uniontown where the ceremony was to have been held.

After receiving treatment at the hospital for minor injuries, the couple returned to their homes to recover before proceeding with the marital plans.

Within three minutes after a radio appeal had been made for volunteers for a blood transfusion at Edinburg, Scotland, recently, 15 people appeared at the hospital ready to make the sacrifice.

## Forty Rescued On Freighter

Freighter Goes Aground On  
Rocks Of Block Island;  
Coast Guards Go To  
Rescue

(International News Service)  
NEWPORT, R. I., Jan. 10.—Officers and crew of 40 men of the 12,250-ton freighter steamship Edward Luckenbach of the Luckenbach Lines of New Jersey were rescued by coast guardsmen today after the big freighter had piled up hard and fast on the treacherous rocks at the northeast end of Block Island.

Coast guardsmen reported that it was doubtful that the steamship could be saved as it was resting in the graveyard of many a staunch craft.

**Goes Ashore in Fog.**  
The Edward Luckenbach went ashore during the heavy fog that blanketed the north Atlantic seaboard as the result of continued warm weather. There were two fathoms of water at the bow and four fathoms aft.

The Edward Luckenbach was enroute with a general cargo from New York for Boston.

S. O. S. distress calls were sent out by the commander of the Edward

Luckenbach. The coast guard cutter Henley rushed out of the coast guard base at New London, Conn., to the rescue while surf boats put out from the two Block Island coast guard stations.

## Name Weingartner On Commission

(International News Service)  
HARRISBURG, Jan. 10.—Senator George T. Weingartner of New Castle today was named as a member of the commission to study the laws relating to townships, succeeding the late Senator John E. Kunkle of Westmoreland. The appointment was made by president pro tem of the senate Augustus F. Daix.

Senator Weingartner has served four terms in the senate and two in the house. During the last session of the legislature he was active in legislation affecting townships.

At a recent meeting of the township commission in Pittsburgh, Senator John H. McClure of Delaware county was elected to succeed Senator Kunkle as chairman.

## Divorce Refused Pittsburgh Woman

(International News Service)  
PITTSBURGH, Jan. 10.—Because he believes it to be contrary to public policy for husband and wife to enter into an agreement whereby the husband shall pay the wife a stated sum of money until either obtained divorce or died, Judge Joseph M. Swearingin has refused a divorce to Helen L. O'Neil, Pittsburgh, from Robert Day O'Neil.

That agreement was made between

the two when they separated in 1921, when Mrs. O'Neil lived here and he lived in Coraopolis, a suburb. Under its terms O'Neil was to pay his wife \$225 a month.

The couple were married in Spokane, Wash., in 1910. O'Neil, a graduate of the Stevens school of technology, wanted to retire at the age of 45 and felt that having the family Mrs. O'Neil desired would interfere with his own comfort. Mrs. O'Neil testified.

## London Society Find Wedding Service Long

(International News Service)  
LONDON, Jan. 10.—Are church weddings too long?

Society circles in London are earnestly discussing this point and the consensus of opinion is that, although every bride wants her wedding ceremony to be a great show, yet it would be well if the actual service were somewhat shortened.

The discussion has arisen out of an incident occurring at the wedding of Eileen Bennett, the tennis star, with Pearnley Whittingstall, the artist. After the service had proceeded 35 minutes, Miss Japp, one of the bridesmaids who had been standing all the time, collapsed in the middle of an address being given by the bridegroom's father and had to be carried out.

**FIRST WOMAN CHAIRMAN**  
For the first time a woman has been chosen as chairman of the Labor party executive committee, England. Miss Susan Lawrence, M. P., has that honor. She is parliamentary secretary to the ministry of health. In 1927 the Conservative party elected Lady Bridgeman as its chairman.

India's business depression is reported to be giving way to industrial activity.

## Champion Cornhusker To Get \$1,100 Prize

Oklahoman, Who Won Title In  
'Good Old Days' Boosts  
Winner's Share

WASHINGTON, Jan. 10.—If Secretary of Agriculture Hyde has his way the National Corn Husking contest, which is growing in popularity each year, soon will be on a par with prize fighting, at least so far as the size of the winner's end of the prize money is concerned.

The secretary of agricultural has succeeded in getting \$1,000 added to the prize which goes with the winning of the National Corn Husking contest,

and before he goes out of office he hopes to boost the prize still more. This cabinet member has done some little corn husking himself in the days gone by and has seen many husking contests, and he considers it a real art and an exhibition of skill and physical strength.

Secretary Hyde succeeded in getting this extra thousand dollars for the corn husking championship in an unexpected manner. He was one of a group of men at the Gridiron club dinner and the conversation, as might be expected, drifted to agriculture and then to agriculturists. Carl Williams of Oklahoma of the Federal Farm board, said something about the fun he used to have at corn husking bees in the good old days on the farm.

He evidently struck a happy chord. Soon every one was giving experiences in this sport. But it remained for Lee Phillips of Oklahoma, a millionaire oil operator, to give a really personal

touch to the discussion by claiming, with much pride and in a voice heard by all and which discouraged any further questioning, that when he was in his twenties he won the Iowa corn-husking championship, which carried with it a crisp \$10 bill besides a lot of glory.

Mr. Phillips added, with even greater pride and even louder tones, as he rubbed his now softened hands, that to win that championship he husked 110 bushels of corn in eight hours. When he had concluded and the applause and looks of wonderment died down, Secretary Hyde remarked that Phillips should do something, now that he could afford it, to promote bigger and better corn husking by injecting some real interest in the annual contest. He caught this oil man in just the right mood, because when he suggested that Phillips contribute annually \$1,000 to the cham-

pionship prize the latter quickly consented.

In the future the national championship prize will be \$1,100 instead of merely \$100, as it now is the case.

## Baltimore Host Rides Horse Into Ballroom

BALTIMORE, Md., Jan. 10.—Golden Eagle, a handsome Irish hunter, the prime favorite of a score of hunters in Van Deuzer Burton's stables, made the hit of the evening at a Christmas party at the Burton home, near the Harford Hunt club, when his master rode him into the ballroom.

The guests were all men and women who have chased the elusive fox

over the Harford hills. The host was the only man who wore hunter's costume, including the scarlet coat. Toward midnight, as the orchestra played a dreamy waltz, Mr. Burton rode into the ballroom on Golden Eagle. The hunter stepped proudly to the center of the room and received the plaudits of the company. Mr. Burton's home was formerly occupied by Foxhall Keene.

## National Defense Champions Irked Over Abandonment

House Committee Recommends Abandoning National Defense Act Plan

**MOST SWEEPING IN MANY YEARS**

"Should Use Caution In Weakening Strength," Says Rep. Wainwright

By WILLIAM S. NEAL  
International News Service Staff Correspondent  
WASHINGTON, Jan. 10.—Champions of a strong national defense were aroused today by suggestions of the House appropriation committee to abandon the national defense act plan of maintaining reserves for an army of 1,000,000 men and whittling down the regular army to reduce military expenditures.

These proposals, laid before Congress for consideration without definite recommendation by the committee, are declared to be the most sweeping proposed since President Hoover announced his program for reorganizing of the army to achieve economy.

**Would Require Revision**  
They would require revision of the national defense act of 1920 upon which the present national defense system is modeled. The plan calls for a regular army of but 125,000 men, but maintenance of a large reserve and war supplies and ammunition for a million men.

"This plan would change the whole national defense policy and ought not to be acted upon without serious consideration," said Rep. J. Mayhew Wainwright (R.) of New York, member of the military affairs committee and an ex-secretary of war.

"Our plans are based entirely upon the placing of an army on the field on short notice. We should be cautious before we do anything to weaken our national defense."

**Fight Is Urged**  
Representative Melvin J. Maas (R.) of Minnesota, members of the "soldiers' block," predicted the American Legion and all other similar organizations would urge a fight against the suggestions.

"Our national defense plan is based upon our minimum requirements and any reduction at all would destroy the whole plan," said Maas. "We might as well wipe out the army altogether."

"The idea of cutting the regular army is even worse. We barely have enough in the army now to train the civilian components, such as the national guard, reserve corps and for training camps. I believe the American Legion and all other patriotic organizations would be opposed to the plans."

With the appropriations committee suggesting economy and the army supply bill for next year, totaling over \$455,000,000 larger than last year, the House faced a real fight over the question of army expenditures.

**Great Organization**  
The national guard, officers' reserve corps and the R. O. T. C. are the objects of attack of a small group of House members.

Representative Collins (D.) of Mississippi, minority leader on the appropriations committee, has charged these groups have developed into a great political organization with the object of getting appropriations and maintaining a big military machine.

"We have around 700,000 people getting pay and pay in these organizations," he told International News Service. "Their appropriations are getting so large and their influence so great that a member of Congress hardly dares vote against them because they will be knifed politically. We now have the biggest army we ever had."

At the same time another group is assailing the committee because it slashed \$2,000,000 off the budget bureau's recommendations for army housing.

## Local Volley Ball Players Defeated

Five matches were lost to the Youngstown Cubs, one of Ohio's fastest volleyball ball teams, by the New Castle Y players when they opposed them at the local floor Wednesday.

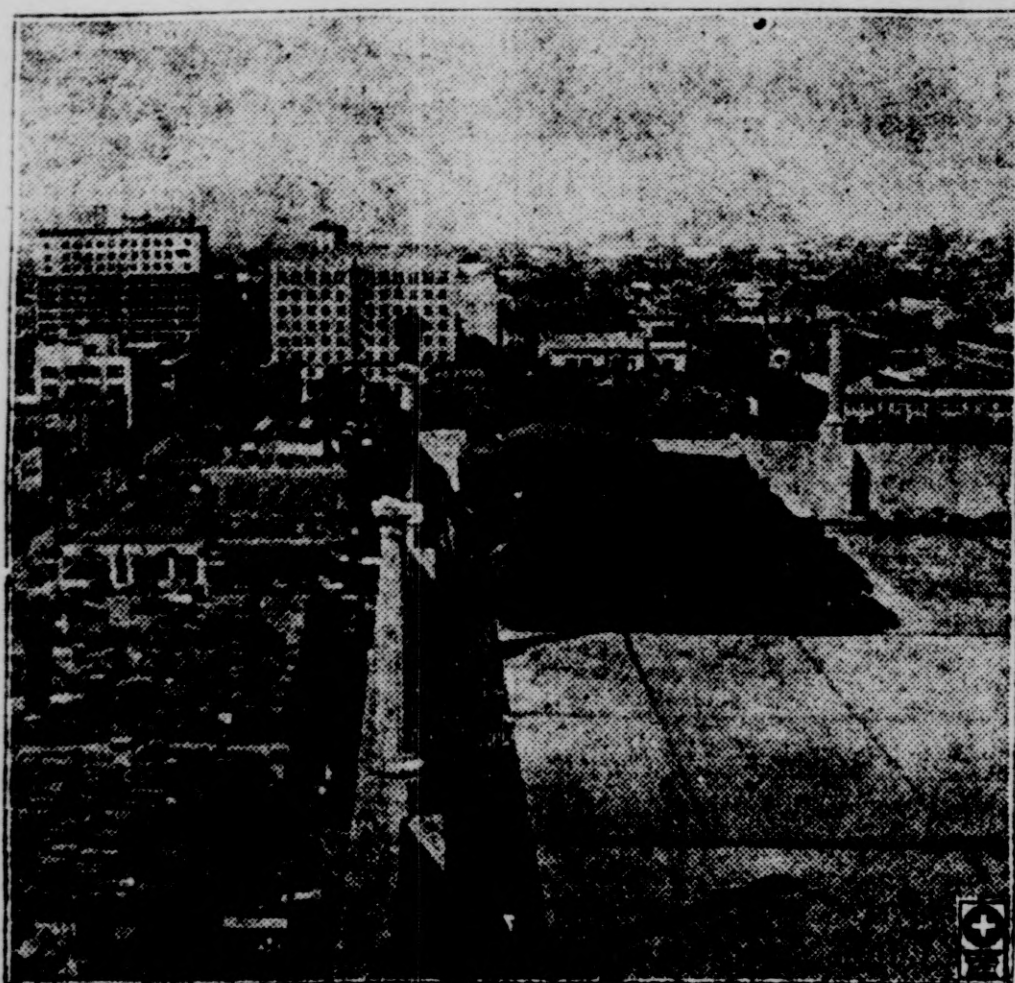

The Cubs were too fast for the locals and the lead in each contest was always maintained by the Ohio crew. The scores for the matches were 15-10, 15-13, 15-8, 15-11 and 15-10.

**PARKING sometimes comes high.** Out in Los Angeles automobiles are parked on the top of a thirteen story building. ## Soviets Fail In Fight Against All Religions

Religious Bootleggers Continue To Outwit Hand Of The Law

**REITERATION OF NO GOD EXCITES PEOPLE**

DENVER, Jan. 10.—In Russia vodka flows freely and legally but they have another kind of bootlegger there. He is a bootlegger of religion according to Dr. Paul Monroe director of the International Institute of Columbus university a recent visitor here.

Dr. Monroe said he had visited Russia three times, once under the rule of the Czar and twice under the Soviet regime.

"From what I gather the Soviets are not succeeding in their attempt to drive religion from the country," Dr. Monroe said. "Their consistent reiteration that there is no God seems to create a doubt in the minds of the children that the statement is true."

He described an experiment conducted in Moscow among school children who filled ardently word-purposes of probing their minds to discover if they believed in a supreme being.

"The answers of approximately 50 per cent of them indicated that the children believe in God," said Dr. Monroe.

"Bootlegging of religion" he explained, "has developed—the parents instructing their children in the belief of their forebears. And the churches are still crowded but mostly by older persons."

Dr. Monroe explained that the churches have not been outlawed only religious instruction.

Dr. Monroe believes the "proletariat" is much better off under the Soviet regime than under the old government.

**Go to Theatres.**  
"The urban dweller may now go to theatres, to hospitals and various places denied him under the czar," he said. "The peasants enjoy better food mainly because the class nobles to whom they sold their butter, eggs and fowl have banished."

"But the new rule in Russia is still an experiment. My belief is that if it collapses it will be because of an economic collapse. There is little chance of this occurring from an upheaval from within because the opponents of the Soviets have no money to arms, no army."

The Soviets on the other hand are organized. They have the army and the brainy leaders.

## More Dead Bandits Need Of Nation Says Maj. Adams

Rifle Shot Is Best Preventive Of Crime Says Police Head

(International News Service)  
READING, Pa., Jan. 10.—"A rifle shot is the best preventive of a crime," in the estimation of Major Lynn G. Adams, superintendent of the Pennsylvania State police.

Major Adams made his assertion while addressing the Reading Company club here last night.

"What we need in this country is more dead bandits," he said.

"Who will say that a rifle shot is not the best preventive for crime? 'I am afraid we are growing pretty soft in this country,' he went on to explain.

"Hardened criminals have been released because someone has discovered they have dandruff, corns, or took a pledge before they committed a crime," sarcastically remarked the veteran trooper.

"Let's have more confidence in our judges and let's not interfere," he pleaded.

"We are having men shot every day and would have a lot more," he said in reference to the State police, "if the troopers were not quicker and truer with their guns."

## Two More Prisoners Are Put To Death In California Today

Folsom Prison Executes Two Prisoners Today For 1927 Rioting

By GILBERT GORDON  
International News Service Special Correspondent

FOLSOM PRISON, Cal., Jan. 10.—Folsom's gallows swiftly took another double toll today as two more 1927 Thanksgiving Day rioters paid the extreme penalty.

One after the other, Walter E. Burke and James Gregg were plunged through the trap within the dungeon-like walls where their defiant shouts of mutiny once echoed.

Last Friday Tony Brown and Roy Stokes were executed.

Burke dropped at 9:04 a. m. and was pronounced dead at 9:17 a. m.

Then Gregg took his place on the trap, which was sprung at 9:31 a. m. He was dead at 9:43 a. m.

Within 45 minutes the grim business on Folsom's "knock-down" scaffold was finished.

## BIG FISH CATCH MADE IN HURRY

BOSTON, Jan. 10.—Boston's waterfront had one of the most remarkable examples of fishermen's luck to

discuss today that ever came to this port as the auxiliary schooner Betulia unloaded a cargo of 40,000 pounds of mackerel. The fish was caught within a period of two hours and after an absence of only three and a half hours from port, scarcely out of the harbor.

The catch was quickly sold for \$1,500.

## Electric Watch Dog Is Invented

PARIS, Jan. 10.—An electric dog that jumps, barks fiercely and even tries to bite—theoretically—when a

burglar throws the beam of a flashlight in its face, has just been perfected by a Paris engineer.

The invention works on the principle of electric cells, which set up a current when a ray of light reaches them. This in turn starts the motor that gives the dog a flesh-and-blood appearance. But all the burglar has to do—if he is

not frightened away immediately—is to shut off his flashlight. The motor then quits.

## LOST JEWELS

## Leading Circumstances That Caused Most of the 24,000 Home Accident Fatalities Last Year

THERE were 24,000 accident fatalities in American homes during the year 1928, as shown by "Accident Facts" recently published by the National Safety Council. The accompanying sketch suggests five main circumstances which resulted in most of these deaths. The causes are listed according to their importance, from left to right. 9,600 deaths resulted from various kinds of falls in and about American homes. There were 6,240 deaths from burns, scalds and explosions. There

were 4,320 fatalities from asphyxiation and suffocation, the third picture illustrating one of the important causes in this group—death from carbon monoxide gas in closed garages. The fourth drawing suggests the poison toll, with 1,920 deaths, mainly from eating poisoned food and drinking poisons in medicinal form. The fifth sketch calls attention to the fact that there were 480 fatalities during 1928 from cuts, bruises and scratches.

# Half Of States Aiding Federal Dry Enforcers

In Three However Responsibility Is Placed On Federal Men Alone

## CO-OPERATION ONLY ENFORCEMENT MEANS

Federal Government Cannot Police Nation To Enforce Dry Laws

By ROBERT S. THORNBURGH International News Service Staff Correspondent WASHINGTON, Jan. 10.—

A more satisfactory degree of cooperation by state and municipal governments in enforcement of the prohibition law was indicated today by reports to the treasury department from dry administrators.

In more than fifty per cent of the states the cooperation with the federal government was characterized as excellent and in all but a half dozen states there was some degree of effort put forth by the local governments to assist in enforcement of the law.

No State Laws In three important states, New York, Maryland and Wisconsin, there are no state prohibition and virtually all enforcement rests on the activities of the federal government. There is some cooperation, however, in Northern New York, where county prosecutors have charged prohibition violators with maintaining nuisances. The federal authorities have a considerable number of agents concerned in these states but owing to adverse public opinion and the impossibility of providing an adequate force to do actual policing, serious difficulties have been encountered in meeting the organized activities of the rum trust.

Officials admitted that in a considerable number of states where there are state laws modeled after the Volstead Act, or even more severe in penalties and extensions in scope, real cooperation was lacking.

Force Inadequate It is utterly impossible for the federal government to police the United States and handle all violations with 3,000 men," one official said.

"That force could not even meet the situation in New York City alone. It would require a force of prohibition agents more than equal to all the state and municipal police, sheriffs, constables and other peace officers in the United States to really enforce prohibition clear down to the smallest violator.

"If such a force were provided, and it would take many millions of dollars annually, there necessarily would have to be a tremendous expansion of the federal judiciary to take care of all the cases that would be made."

With the present federal force, which is attempting to concentrate on large conspiracies to manufacture, transport and sell liquor in wholesale lots, so many cases have been made in the last few years the courts are more than 18 months behind.

An effort to clear up this congestion has been ordered by Attorney General Mitchell. It was considered likely that in many of the old cases in which witnesses have scattered and in which there is little probability of conviction, nolle prosequi orders will be authorized by the justice department.

Gamblers Arrested By City Officers

When Lieutenant Hillers and Officers Ritty, McMullen and Letera inspected the home of Henrietta Marshall, 112 South Cochran Way, last night, they found a gambling game under way.

Henrietta, Sarah Green and six other visitors, all colored, were arrested and brought into police court, where Mrs. Marshall was charged with being the keeper of a disorderly house. She was assessed a fine of \$15. Mrs. Green was assessed a fine of \$5 and the male visitors put up forfeits of \$10 each for their appearance. They failed to appear and their forfeits were declared the property of the city.

Testimony Written Out In Murder Case Covers 211 Pages

Notes of testimony in the case of Steve Garlich, who was convicted of murder in the second degree in connection with the shooting of George Markota of Carbon, have been filed by Court Stenographer Hazel Ryhal. The notes cover 211 pages of single spaced typewritten manuscript. Application for a new trial has been made by the defendant, on the grounds that the verdict was against the weight of the evidence. Arguments will be heard after the court has examined the notes of testimony. The case was tried before Judge Chambers.

District Attorney Secures Process

Mrs. Mary Stefano arrested Wednesday night by the city police, when a small quantity of liquor was found in her place, was turned over to the Lawrence county authorities as a result of a process issued by the district attorney, charging her with breaking her parole, she having been before the court on a previous occasion on a liquor charge.

PEDDLER ASSESSED FINE BY MAYOR

Fred Drotleff was arrested last night in a local restaurant while attempting to sell cushion covers. He had a license, which, however, expired December 31, 1929. This morning he appeared before Mayor William H. Gillespie on a charge of peddling without a license and was assessed a fine of \$5, with the alternative of five days in jail.

# Fruit Growers' Lecture Meeting Ends Thursday

Lawrence County Fruit Growers' Meeting At Y. M. C. A. Interesting One

At four o'clock Thursday afternoon the two-day meeting of the horticultural school, under the auspices of the Lawrence County Agricultural Association and the Fruit Growers' Association, ended.

The meetings, which took place in the local Y. M. C. A. building, were well attended and proved to be of great interest to the members. Some most interesting lectures were given by fruit specialists, entomologists and pathologists from State College on varied subjects.

Thursday morning the meeting opened with a lecture by J. O. Pepper, State College extension entomologist. His subject was "How to Know Orchard Insects", and illustrated lecture.

R. S. Kirby, extension pathologist, spoke from 10 o'clock until noon on "Orchard Diseases and Their Control". This was also an illustrated lecture.

From 1:30 to 2:30 p. m. R. S. Kirby talked on the topic of how to test lime sulphur and hunting apple scab spores.

The last speaker was J. O. Pepper, on the subject, "Orchard Insects and Their Control." Question Box was conducted after Mr. Pepper's lecture.

# Pennsy Officials Inspect Division

General Superintendent Makes Trip Over Lines With Local Superintendent

Lines of the Erie and Ashtabula division of the Pennsylvania railroad were inspected Thursday by General Superintendent P. L. Grove of the Lake Grand division, with offices at Cleveland. Accompanying him were Superintendent H. T. Frushour and other officials of the division.

The Lake Grand division area comprises the Akron and Cleveland

# division territory, as well as the E. and A.

Yesterday's trip was said to be of little significance, the trip being a part of Mr. Grove's yearly program of inspection.

# CAUSES TROUBLE; ARRESTED BY POLICE

John O'Rourke was arrested by police officers answering a call last night to 4 North Beaver street, to investigate a complaint made by Mrs. Picato. It appears that he had formerly roomed at the Picato home, but because of drinking had been ordered out. Since that time he has been returning and causing trouble.

When he appeared before the mayor this morning he made such a plea for leniency that he was given another chance and will find it best to keep away from the city police station.

## Altimeter Will Now Determine Plane's Height

(International News Service)  
AKRON, O., Jan. 10.—Research which may develop an "acoustic altimeter" for the recording of accurate distances from an airship to the earth's surface has been undertaken by Leo P. Delsasso of the physics department of the University of California at Los Angeles, officials of the Goodyear Zeppelin Corp. have revealed here.

Development of such an altimeter it is pointed out, is probably one of the greatest problems facing airship and airplane operations today. For absolute safety in flying, an altimeter is demanded that will actually indicate the altitude of a flying machine with relation to the ground over which it is flying and not, as is now the case, indicating its altitude with relation to the sea level.

Financed by Guggenheim  
Delsasso's research is being financed by the Daniel Guggenheim fund for the promotion of aeronautics.

"The first phase of his research includes the finding of a sound that is not prevalent in the various makes and designs of airplanes," an aeronautical authority stated here. He has apparently been successful in this. His instrument will be built with velocity as the basic principle rather than air pressure. The latter is the basic principle of the present altimeter.

"It is expected that the instrument will operate somewhat similar to the sounding instruments now used on ocean vessels.

"The chief difficulty in adapting such an instrument to an airship, however, was because of the multiplicity of sound and noise made by an aircraft. It was necessary to find a tone with a pitch entirely different from anything thrown out by the airship or by any passing vessel."

To accomplish this, it was said Delsasso took the entire tone range or sound "spectrum" as a basis for this work, then eliminated from the "spectrum" such sounds as were found in the engine of a dirigible and recorded by a delicate and sensitive instrument. Delsasso found that a relatively shrill note will be more suitable for his work.

The second phase of Delsasso's research is to find a source of sound of such a pitch as can be satisfactorily filtered through the engine noise and of sufficient intensity to actuate a recording device.

The third phase will include the construction of the instrument itself, providing satisfactory results are obtained in the other phases of the investigation.

## Bert Acosta Enters Not Guilty Plea In Court At Mineola

(International News Service)  
MINEOLA, N. Y., Jan. 10.—Bert Acosta, trans-Atlantic flier, appeared before County Judge Louis J. Smith today and pleaded not guilty to a charge of abandonment preferred by his wife. Acosta's bail of \$3,000 was continued pending trial of the case. Acosta told reporters prior to the arraignment that if his wife would obtain a divorce he would remarry. He did not indicate who he would marry.

## Business Session Of New Castle P. H. C.

The regular business session of New Castle Circle No. 5, Protected Home Circle, was held on Wednesday night. A membership campaign was organized at this time and will close on March 5 with a banquet given by the losing team to the winning team. A pleasant rivalry is promised until the close of the campaign with President Mildred Rodgers and Vice President Helen Hurst as captains of the teams. On March 19 the impression inner circle degree will be conferred upon a large class of candidates. At this time the famous inner circle staff of Sharon will exemplify the work. A pleasant surprise was in store for the circle at its recent meeting when supreme auditor and deputy Dr. R. G. Baird of Sharon entered the circle chamber. Accountant George W. Mused added remarks and with brief talks from the members, an interesting program followed the evening session.

Telling stories rivalling those of Captain Kidd for glamor and adventure, Ernie Longbrake, Ogden, Utah, airplane pilot, above, has returned from a flight to Mexico with Al Jennings, now a film actor, where they sought buried gold, bullion worth \$11,000,000. Longbrake says the treasure was located and part of it removed when the party was driven away by Yaqui Indians, armed with modern rifles.

## Bandit Is Shot; Another Wounded

Policeman Is Also Shot In Revolver Duels On Chicago Streets

(International News Service)  
CHICAGO, Jan. 10.—One bandit slain, another seriously wounded and a policeman shot was the toll today of two revolver duels.

Brandishing a revolver, Robert Joyce leaped on a moving automobile. A policeman, Charles Binder, gave chase and Joyce emptied his gun at him, wounding Binder in the arm. The bandit commandeered a taxicab but his flight ended when two detectives dragged him from the cab, weak from two bullet wounds.

An unidentified negro was slain as he and a companion attempted to hold up Frank Armstrong.

Crown Prince Humbert And  
His Bride, Princess Marie  
Jose Have Little  
Privacy

ARE KEPT BUSY  
WITH FUNCTIONS

By GUGLIELMO EMANUEL  
International News Service Staff  
Correspondent  
ROME, Jan. 10.—Another day of pageantry, festivals and official functions connected with their marriage gave Crown Prince Humbert and his bride, Princess Marie Jose, little privacy today.

This morning they reviewed a procession of school children who were thus given an opportunity to get a glimpse of the new princess of Piedmont who is destined to be Italy's future queen.

To Review Parade.  
This afternoon they were to review a parade of civil authorities from all over Italy. This procession will be marked by floats and costumes depicting the histories of the various Italian states. Marie Jose will participate with her family this evening when Princess Astrid and the Princes Leopold and Charles depart for Brussels. Later the crown prince and his bride will attend a gala performance of the opera staged in their honor.

Related Honeymoon.  
Sometime tomorrow they will start on their honeymoon. It is expected they either will go to the royal hunting lodge at San Rossore for a few days or go directly to the royal chateau of Rocca di Careggi, Humbert's birthplace and his father's principal gift to the newlyweds.

Last night King Victor Emmanuel and Queen Helena gave an elaborate dinner in honor of the young couple in the ballroom of the Quirinal palace.

Another brilliant reception was held in the city hall later.

Disbarment Of

## Mayor Summons Local Conference

Will Discuss Conditions With  
Groups And Plan For  
Activity

VARIOUS GROUPS AT  
DIFFERENT PERIODS

Mayor William H. Gillespie today conferred with councilmanic colleagues, the outcome of which will be a call by the mayor to manufacturers, contractors and money interests here to convene with the mayor in the near future for the purpose of aiding local business and labor conditions.

Following the regular meeting of council the city chief executives invited the colleagues to his office where he suggested the meeting. The colleagues pronounced the suggestion one worthy of support and said the mayor had their unanimous consent to proceed.

The manufacturers, contractors and money interests will not be called simultaneously but at three different meetings.

They will be given a questionnaire at the session and anything that can aid local business and labor conditions will be discussed.

The mayor is interested vitally in the welfare and prosperity of the city and hopes the meeting will prove an aid.

Students Organize  
For Game Tonight

Student Cheering Section To Be  
Largest Ever; Yells Are  
Rehearsed

If the sideline cheering of a student body means anything in winning a basketball game, New Castle's cohorts should show the Zelenople W. P. I. A. L. combination under heavily when they oppose them here at 8:15 o'clock tonight.

Cheering was never so vociferous as it was this morning when the students met for another pre-game cheering practice. They promise to turn out to support their team when game time comes around tonight.

Ralph Brice, cheer leader, was in charge, with several others assisting. William L. Klee, assistant coach, introduced the players, who on Wednesday night took Washington high for a 38-13 ride. Each player was introduced individually.

William Long, student manager of the team, and Art Alexander, member of the team, offered a few remarks mentioning the victory over Washington high.

Players on the platform were Frances Wario, Russell Hannon, Art Alexander, George Winter, Ralph McAuley, Nick Uram, Allen McKissick, Merle McIntosh, Luther Rowe and Richard Thomas.

Auto Accidents  
Reported Here

Quite A Number Of Machines  
Are Damaged In The Accidents Reported

Sam Domenick of New Castle R. D. No. 7 reported that he was enroute north on Mill street at Grove street Thursday as a truck of Bloom, Rosenblum and Klein company, going west on Grove street, drove out onto Mill street, without making the required main thoroughfare stop. Mr. Domenick drove onto Grove street to avoid a collision, but his machine was sideswiped and damaged by the truck.

Joe Arenth of 562 Sampson street, reported Thursday that he was enroute south on North Liberty street with the truck of the Merchant's Delivery service, probably two hundred feet south of Mahoning avenue intersection, when a car bearing Pennsylvania license 420CG came abreast of his machine and following him, started to go around his machine. There was another truck in front of his machine and as Mr. Arenth went to go around it, license No. 420CG came abreast of his machine and the cars were in a collision. Some damage was done.

Mont Richards reported that he was going west on the West Washington street bridge, when another car stopped in front of him, causing him to stop also. A car bearing Pennsylvania license 865DG struck the rear of his machine, damaging it to a considerable extent.

Steve Dude of 32 South Beaver street, reported that he was driving the car of Michael Budowski of 101 West Long avenue, south on North Mercer street at Moody avenue, when his machine was in a collision with another car.

Gottfried Ulrich of 228 East Laurel avenue, reported that he was driving south on North Mill street and about to make a left hand turn into Sycamore Way, when his machine was in a collision with that driven by Charles Ventrella of R. D. No. 3. Some damage was done.

West Virginia Man  
Must Face Trial In  
Killing Of Three

Walter Crabtree Held For Court  
On Charge Of Slaying  
Three Persons

(International News Service)  
MARTINSBURG, W. Va., Jan. 10.—Walter Crabtree of Romney, Iowa here, will go on trial January 27 charged with first degree murder, following his indictment here by the grand jury late yesterday.

Crabtree is charged with the slaying of Justice of the Peace H. Carter Inskeep, Jailer Ben Miller and Edward Woolford, last December 18 when he went through his home town seeking to "get even" with those responsible for his arrest on a liquor charge.

Taking his shotgun with him that morning, Crabtree fatally shot the three men, according to the indictment, and wounded two women and a 6-year-old girl before he was finally apprehended.

Judge A. G. Hughes of Kingwood W. Va., will preside at the Crabtree trial, replacing G. K. Kump who usually presides over circuit court here, but who is a witness in the Crabtree case. The judge was in the home of one of the victims at the time of the shooting.

Local Plant Is  
Included In Merger

Although no mention was made of the holdings of the Standard Steel Car Co. in this city, when the recent merger between that company and Pullman company, was recently announced, it is learned that the local property is included in the merger.

This may result in some use being made of the local plant, although no definite statement is available from officials of the merged concern at this time.

STRAIGHT 8

THIS IS THE NEW STRAIGHT 8  
THAT STARTLED THE INDUSTRY

PRICED UNDER \$1000

Weeks ago, leading newspapers were informed of a mysterious new eight-cylinder car which was performing incredible feats in the steep mountains of Pennsylvania.

Out of curiosity, and sensing a news story, automobile editors hurried to the mountains to investigate. There they saw feats of performance that set them to writing columns of praise about a new car whose very name was still a secret.

Now is revealed the name of that mysterious car—the car they proclaimed a sensation. It is the new Chrysler-built De Soto Straight Eight—priced at less than \$1000.

"Another chapter in the history of the automobile industry..." "Never such excellent performance by an automobile in its price class..." "Of an entirely different style..." "The only car that stood up with it was one that sold for approximately \$1500 more..." These are typical quotations from what the prominent automobile editors have been writing under their own signatures.

On the basis of overwhelming dollar value, the new De Soto Straight Eight is as outstanding in the eight-cylinder field as its famous companion car, the De Soto Six, is outstanding in the field of sixes. Every comparison unalterably verifies this fact.

Sea Level Varies;  
Waters Tilt North

Pacific Ocean Found To Be  
Slightly Higher Than  
Atlantic

(International News Service)  
WASHINGTON, Jan. 10.—Waters of the ocean are tilted and sea level is not the same the world over.

As a result of the phenomenon geodesists of the United States and Canada, now engaged in surveying the two countries, are faced with the need of selecting a single level on which to base standard elevations.

Mean sea level is higher for the United States along the Pacific coast than on the Atlantic, and along the individual coasts there is a definite tilt northward.

Level lines run across the Isthmus of Panama, along the canal, place the plane on the Pacific side 69 feet higher than on the Atlantic, says Dr. William Bowie of the U. S. coast and geodetic survey.

There has been no satisfactory explanation of the phenomenon. It is believed that the variations are due to such meteorological conditions as prevailing directions of winds differences in barometric pressure with latitude and differences in salinity and density of ocean waters.

An arbitrary sea level, common to the United States and Canada, may be selected by officials of the two surveys.

State Fights For  
Tree Ownership

(International News Service)  
HARTFORD, Conn., Jan. 10.—That the state has no control over trees that line its roadsides, if the trees grow on land the state does not own, is the proposition laid down by Judge L. P. Waldo Marvin, of superior court, and which has been appealed to the supreme court by the state itself. A law passed by a recent legislature giving the state control over such trees was declared unconstitutional.

Meanwhile a state road in South Manchester has lost a group of fine trees the state wanted to save. A resident of that town wanted to establish a gasoline station and to do it was forced to remove the trees to locate a driveway. The highway de-

partment promptly banned such a step and the South Manchester man went to the superior court where he was told the state had no right to interfere. Promptly the man had the trees cut down. Investigating, the highway department found that notice of the appeal, had not been served on the owner of the trees.

BREAD FOR ENERGY

EVERY movement of the body requires energy, from the hardest work to the slightest flick of an eyelash. Bread, being more than half starch and one-tenth protein, furnishes a high percentage of energy. The body holds in reserve a supply which may be drawn upon throughout the day and night. Even in sleep energy is required.

Bread occupies an important place in the diet of the normal individual, and properly baked bread, made with milk, is a wholesome, nutritious and inexpensive food.

## City To Proceed To Have Streets Put In Shape

To Take Action To Get Improvement On Streets Abandoned By Car Co.

Council today approved a suggestion by Solicitor White and instructed the city's legal adviser to file a bill of equity against the Pennsylvania-Ohio Electric Railway company which will request the company to restore streets where tracks have been abandoned to their original condition or remove the rails.

White said that sometime ago R. N. Graham, manager of railways, had tentatively agreed upon the company paying the city \$10,000 for restoration. White said this has not been done and that the company should either repair the routes formerly used by street cars or remove the rails.

The lines which have been abandoned are Hamilton, North Beaver and Grant streets.

## Prepare Plans For Improving State Routes

Council convened at the city building today and during their councilmanic session agreed to recommend

what the city desires in the way of improvement of city streets which connect with state highways.

The routes would cause the improvement of Butler avenue, Grant street and Croton avenue.

The state has allotted approximately \$75,000 to the city for the work which is to be started this spring.

It may not be necessary to widen any of the thoroughfares, it was explained in city council.

The state does not demand it, a councilman said and showed that the state wants a 28 foot cartway. The streets affected, it was said have 30 feet cartways.

## Nine Sentenced In "Rum" Conspiracy

Nine Men Convicted In McKeesport "Rum" Conspiracy Given Sentences Today

(International News Service) PITTSBURGH, Jan. 10.—Nine men convicted here in federal court in connection with the "McKeesport rum conspiracy" were sentenced here today after Federal Judge R. M. Gibson refused their motion for a new trial.

The sentences are: John F. Brennan, 18 months to penitentiary; Charles L. Bergstedt, one year and one day; Albert Rasp, six months, county jail; Leo Vennebusch, one year and one day; Harry Uskovitz, 18 months, penitentiary; Ben Frank, one year and one day; Martin Firestone, one year and one day; Adolph Mark-

ovitz, four month, county jail and Meyer Markovitz, two years parole.

Nathan Friedman convicted boot-legger was granted a new trial and the court postponed action for two weeks on the application of justice of the peace Charles E. Reinhard, of Versailles township. Reinhard was among the number convicted.

During the trial, held here several weeks ago, sensational evidence was produced linking numerous prominent politicians and former police in the charges of bribery and receiving pay for protecting the rum interests of alleged "ring."

## Mutilated Body Of Woman Is Found In Philadelphia Home

Body Found By Negro Ragpicker May Be That Of Missing Allentown Matron

(International News Service) PHILADELPHIA, Jan. 10.—The mutilated body of an attractive woman of 35 found wrapped in a canvas bag in the rear of a home on Poplar street here late yesterday, may be that of a prominent Allentown matron who disappeared mysteriously a month ago, police announced today.

Comparison of the body with a picture sent here by Allentown police led to the report. Pictures of the slain woman bear a marked resemblance to the Allentown matron's photograph. Police are making further checks in the attempt to establish the identity of the body.

The gruesome find was discovered by Alfred Holmes, a negro ragpicker. He opened what he thought was an abandoned bag and then ran screaming for aid when he found it was the body of a woman.

The unclothed remains were wrapped in newspapers and tightly bound up in the sack.

## Salvation Army Worker To Marry

Lieutenant Stationed Here Goes To New York To Be Married Next Friday

Lieutenant Eva Braun, who has been assigned to the local Salvation Army corps for several weeks to assist Ensign V. Thomsen, officer in charge, held her farewell service last night, leaving today for New York, where she will be with her parents, Brigadier and Mrs. F. Braun, who are located at the Brooklyn Corps headquarters until her marriage on Friday evening of next week.

Lieutenant Braun made many friends while here and they will be interested in learning that she is to be married on that evening at the Brooklyn Salvation Army headquarters to Captain H. G. Barber, of Rome, N. Y. Colonel Welty of the Social Service Department will officiate. Captain Barber is the son of Commandant and Mrs. F. G. Barber of Scranton, Pa.

## Peace Treaty In Senate Is Blocked By Midwest Revolt

Ratification Of Peace Treaty Fails At Last Minute When Revolt Occurs

(International News Service) WASHINGTON, Jan. 10.—A last minute mid-western revolt against the Republican peace treaty in the senate today blocked its ratification at a party caucus.

The rebels charged the Republican committee on committees had violated the senate's traditional seniority rule in negotiating a treaty, awarding new assignments to the various committees of the senate. The peace treaty gave control of the powerful senate finance committee to the Democratic-Insurgent coalition by awarding two vacancies to Senator Robert M. LaFollette, Jr., youthful Wisconsin Insurgent and Senator John Thomas, Idaho Independent.

The only affirmative action taken by the caucus was to elect Senator Charles L. McNary of Oregon as assistant Republican floor leader.

## Pay Damage For Blasting At Dam

City Settles For Damage Caused When City Started Dam Removal

Council met today and decided to pay several persons small amounts totalling about \$150.00, the result of the blasting at Rosea dam, Neshannock creek, last July. They had signed an agreement whereby they accepted the amounts in settlement of all damages.

It is said John Powell, a contractor, was given permission to remove the dam under the supervision of the city engineer.

A local corporation would not permit a dynamite explosion by one of their employees except through the city engineer.

The latter instructed the employee to proceed and in the blast some small damage was caused.

It was a question as to whether the contractor or city was responsible on account of the city engineer's act.

Some of the council construed him as an agent of the city but Solicitor Robert White held the contractor liable.

However, the damage was done and the city engineer's action was one of good intent and the city effected a compromise with the different parties.

## Damages For Auto Accident Claimed

Albert J. Gunther of Pittsburgh, has filed a suit at the prothonotary's office against John Kocjan of Midland, Pa., for \$5,718 damages as the result of an automobile accident on the New Castle-Beaver road near Willow Grove. Gunther claims that Kocjan in passing a car ahead of him went off the concrete and in getting back on struck the Gunther car which was coming in an opposite direction. It is claimed that Kocjan was driving at a high and dangerous rate of speed. Gunther was severely injured and both machines were badly damaged.

## Railroad Company Sued For \$50,000

(International News Service) PITTSBURGH, Jan. 10.—John B. Smith, a rigger, of Homestead, near here, has filed suit against the Allegheny and South Side Railroad company for \$50,000 for the loss of his high leg.

Smith states in his bill of complaints that in August, 1929 he was knocked down by a locomotive of the company without warning. His leg was crushed so badly that it had to be amputated, he avers.

The railroad is operated by the A. M. Byers company.

## In Prison 9 Years, Is Proven Innocent

(International News Service) GRENOBLE, France, Jan. 10.—Condemned more than nine years ago to serve a long prison sentence for attempted murder, a man has just been proven innocent through the discovery of a letter.

In January 1920, M. Poulat was driving his cattle along a narrow country road when he received the

charge of the shotgun in his face. M. Garon, a former mayor of Merlas, was arrested. Although he denied his guilt strenuously, he admitted that the gun belonged to him. The court found him guilty.

A paper has now been discovered in a barn saying, "I Joseph Granat, declare that I took the gun from M. Garon's barn and shot M. Poulat by accident." Granat committed suicide some months later.

Poulat has demanded the annulment of his conviction.

## William Tell Act Brings Jail Term

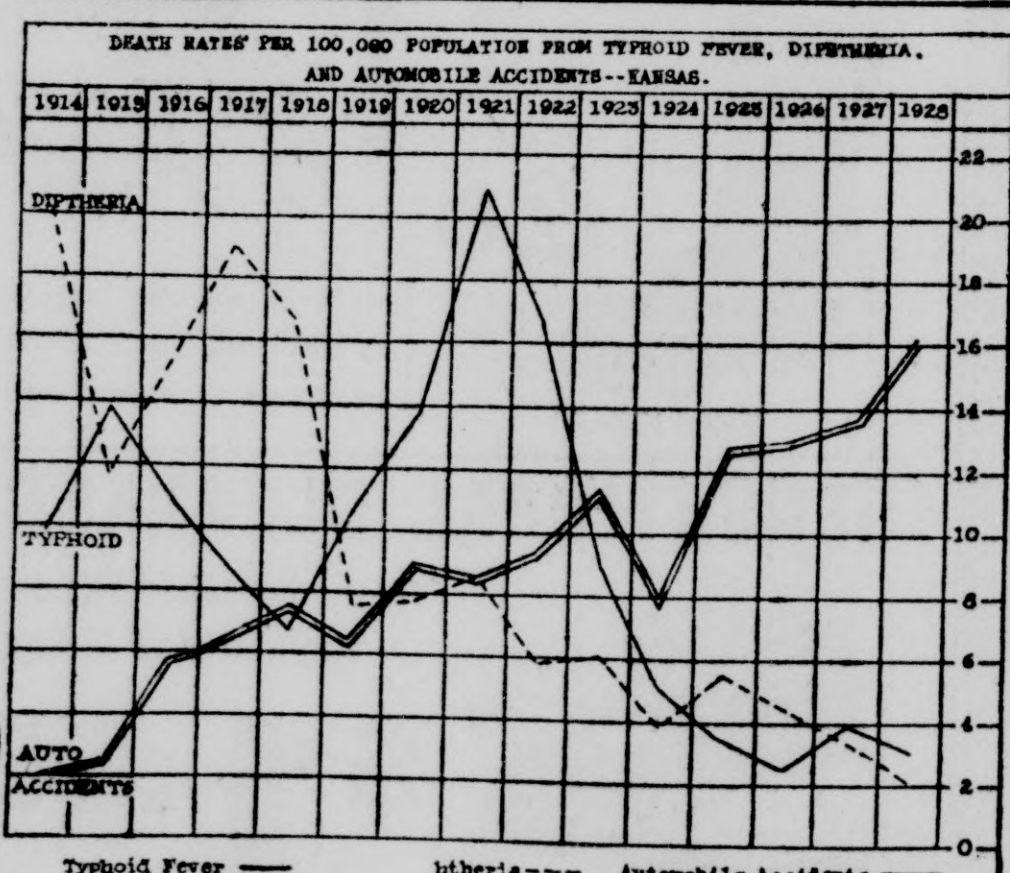

(International News Service) BOSTON, Mass., Jan. 10.—That it doesn't pay to do a Wm. Tell act in these days of high powered civilization and shooting a pipe out of a fellow's mouth with a "gat" instead of an apple off the human roof tree with a bow and arrow, is the conviction of Guovanni Vennal of Boston North End.

Vennal was sentenced to three months for the stunt, although he claimed that Pasquale Papasatero, the other actor in the little drama of real life, threatened him with a knife. They wanted to give Vennal more time as a "dangerous man" but the court couldn't see it.

The defendant, according to the testimony, fired four shots, but the only damage done was Papasatero's broken pipe.

England's summer this year was the sunniest in 18 years.

## Accidents vs. Disease

THE accompanying chart is a 15-year study of auto fatality records and disease deaths in Kansas. It is probably a pretty correct picture of the general trend in most states, says the National Safety Council. It brings out very clearly the remarkable strides which have been made in medicine in the control of two leading diseases, typhoid and diphtheria. Aside from a peak year in 1917 diphtheria has shown a constant decline in its mortality rates. Typhoid experienced an upward trend between 1918 and 1921. Since that time it has shown a very marked decline. The auto accident problem on the other hand is quite a different story. Beginning with the death rate of two per 100,000 population back in 1914 the rise has been gradual with a peak death rate of 16 per 100,000 population in 1928. There was a small decline in 1924 but otherwise the line has shown a decided upward trend.

## U. S. Hopes For Cheap Way To Get Beryllium

(International News Service) WASHINGTON, Jan. 10.—The commercial application of beryllium, a metal which has been the object of recent widespread interest, is definitely limited until such time as the cost of extraction, now almost prohibitive, can be reduced, according to the United States Bureau of Mines.

Beryllium is quoted in this country at \$200.00 per pound and shipments are made chiefly from small stocks manufactured in 1927 or earlier. As in all metallurgical operations, the production of the metal on a laboratory or semi-commercial scale is much more costly than it would be in large lots. The metal could be manufactured at greatly reduced cost with the market absorbing appreciable tonnages annually.

**Rare Element**  
Beryllium, or glucinum, as it is also called, is often listed as a rare element, though it probably is more abundant in the earth's crust than many of the minor metals that are ordinarily considered rather common according to the Bureau of Mines. It is not a new metal, for it has been known for more than a hundred years but even yet it has not been put to work commercially except to an extremely limited extent. Since beryllium is very light and exceptionally hard and strong, many believe that it is destined to share with magnesium and aluminum in the fast-growing demands for light metals to be used in the construction of aircraft.

The mineral beryl, which seldom contains more than about 5 per cent of the element, is the only recognized ore of beryllium. It is a common accessory in pegmatite veins and is also found in clay state and mica schist, but hitherto only the gem varieties, including emerald and aquamarine, have been actively sought.

**Produced As By-Product**  
In several localities, however, ordinary beryl is produced as a by-product in mining mica and feldspar, and often beryl has accumulated on the dumps because no buyer could be found. Only within the last two or three years has there been an active demand for the mineral, even in ton lots, and as yet requests for carload shipments are extremely rare. Considerable interest has been awakened, nevertheless, in the possibility of opening deposits that will yield beryl in substantial quantity.

Beryllium is very light, having about the same specific gravity as magnesium, and is almost as hard as quartz. It will scratch glass and takes a high polish.

Considerable research has been carried on in this country and abroad toward the development of uses for beryllium, but the use of the metal is still in the experimental stage.

The National Advisory Committee for Aeronautics is planning to arrange for tests of beryllium for use in airplane construction.

Beryllium has been used in this country and abroad in X-ray apparatus. Another use which may grow considerably is for electrodes in connection with neon signs.

## Old Syrian Manuscripts May Give New Light On Early Christian Era

By PIERRE JOHN HUSS, International News Service Staff Correspondent  
CHICAGO, Jan. 10.—Folks who don't care for legends and fairy tales but crave to know exactly what happened from the fourth to the tenth century may have their curiosity satisfied to a large extent. That is if they care to remain patient for another 10 or 14 years.

Through good luck and the ignorance of a Parisian antiquities dealer or Professor Martin Strenging of the University of Chicago, Oriental Languages department, chanced into possession of two of the most valuable and largest Syrian manuscripts ever discovered. Convinced after a careful scrutiny that the contents will throw aside the veil of mystery that has cloaked that early period he brought the two hand inscribed volumes here generously protected by cotton, paper, tin and wood.

**Photostatic Copies.**  
Photostatic copies will be made of each page and these will be sent to all the well known Syrian scholars of the world. As soon as every line has been translated, publishing will begin but at the best Professor Sprengling does not see his task complete before a dozen years.

The largest of the two volumes—incidentally the biggest Syrian manuscript in existence—measures 25 by 18 inches, weighs over 50 pounds and contains 622 pages that total 100,000 written lines. Entitled "Collection of Selected Discourses of All Kinds on Holy Fathers" it is believed to have occupied one scribe's entire lifetime. The shorter manuscript contains

liturgical data, acts, songs, prayers and Bible readings for every day of the year, 35,000 lines in all. Both documents were traced to the south of Turkey where a native of Iraq sold them at large after receiving them from a monk at Beirut.

**On Goat Parchment.**  
The volumes are on goat or antelope parchment and show marks that indicate that at times they were hidden in caves or cellars. The edges are waterlogged but the inscribed parts are in perfect condition.

After a preliminary perusal of the contents Prof. Sprengling stated that over half of the two volumes apparently contained masses of material never before published about that period.

"The man whose work covers far over half of the first book—Jacob of Edessa who lived around 650 to 750 A. D.—was one of the most learned men of his day," Professor Sprengling stated. Nothing in the book is

later than 850 while some of the material is older than 400.

**Is Noble Volume.**  
"The liturgical manuscript is also a noble volume and reveals much about the Near Eastern churches when they were young and when the west was still barbaric and in the Dark Ages. Some of the sermons take up discussions of the day and explain what is merely hazily touched on by Scriptures."

Prof. Sprengling is director of the Oriental Institute's Peshitta Project, an organized attempt to arrive at an authoritative version of the Syrian Bible through source materials and exegesis. This effort is believed to be the best way of tracing the growth of Eastern Christianity from the beginning of the Christian era through the medieval times. Fragmentary portions of Syrian Bible manuscripts secured from the Archbishop of Syria and Lebanon are already held by the University. Other important Syrian manuscripts are now in the collections at London, Paris and the Vatican.

## Scotland Lane Is Camp Site Selected

Preparations Are Under Way For Sons Of Union Veterans Encampment

Announcement was made today by Frank W. Hill, chairman of the military committee of the G. A. R. encampment to be held here next June of the personnel of his committee, which will have charge of one of the major attractions of the big state meeting here of the G. A. R. and affiliated organizations.

Members of the committee as announced are: Ivor Davis of the American Legion; John D. Kennedy, Officers Reserve Corps; Captain Ray Walters, Troop F, 103rd Pennsylvania cavalry; Orville Porter, Veterans of Foreign Wars; W. W. Stevenson, Fourth Regiment, Sons of Union Veterans Reserve; Captain W. D. Park, Company K, Sons of Union Veterans Reserve; Dr. W. F. Jackson, major, Den-

tal Reserves, Legion of Honor; Dr. H. C. Harper, major, Spanish-American War Veterans; and H. K. Bell.

The chairman and some members of the committee have already inspected all available camp sites in the vicinity and have decided to recommend the use of the Scotland Lane school grounds and adjacent property.

It will make one of the finest possible camping places for several hundred men and also provide a drill field, which is essential.

The committee will meet Monday with the representatives of the state organizations of the Sons of Union Veterans Reserve for the purpose of inspecting the camp site selected and making final plans for the big encampment of 700 or 800 uniformed members of the Reserve, who will be in camp here for about a week during the G. A. R. encampment.

While the general standard of food purity in London is improving, 67,350 samples of milk tested in 12 months, 5,542, or 8.2 per cent, were adulterated or not up to standard, as compared with 6.9 per cent in the previous year.

## Girl Sentenced To Eighteen Months In Correction House

Girl Who Has Been Living As Boy For 19 Years Finally Decides To Be Like Girls

(International News Service)  
BEDFORD, Pa., Jan. 10.—Laura A. Deane, 19, who has always been inclined to a boy's life, has decided that she wants to be feminine, after all. About one month ago, Miss Deane, or, as she preferred then to be called, "Johnny" Deane, was arrested here, charged with receiving stolen goods. At the time of her arrest she was under federal parole after pleading no defense to a charge of counterfeiting activities.

The second arrest automatically broke her parole and yesterday in Pittsburgh, Judge R. M. Gibson, in United States court, sentenced the girl to 18 months in the federal house of correction for women at Rutledge, Pa.

The Deane girl told the court that she had finally tired of the life of a boy and wished to be placed somewhere so that she could learn to be feminine.

Her 19 years of life have been spent on a farm in the mountains near here, and her training and choice of occupation has led her to tasks worthy of a man—and until now she preferred it, she said.

## Young People Elect Officers

The B. Y. P. U. of the Emanuel Baptist church, held their regular monthly business and social meeting in the church parlors last evening at which time officers were elected for the next six months. Mrs. Floyd A. Childs was chosen as president, with Helen Jones, vice president; Helen Lewis, secretary, Anna May Jones as

treasurer, and Mrs. Eugene Houk as pianist. After the business session a social hour was enjoyed and a lunch was served by Mrs. John McNeill, Mrs. Brinley Hughes and Mrs. David Clement.

## Mother Lies Dead, Daughter Sings In Baltimore Opera

Miss Merran Reader, New Brighton On Way Home To Attend Mother's Funeral

(International News Service)  
NEW BRIGHTON, Pa., Jan. 10.—Miss Merran Reader came home today to attend the funeral services for her mother, Mrs. Jennie N. Reader, after singing last night in Baltimore, Md., where she is a member of the German Grand Opera company.

In a moment of consciousness before her death, Mrs. Reader had asked that her daughter go on with her singing so the singer carried on at the performance last night.

Mrs. Reader was the wife of Frank E. Reader, president judge of Beaver county courts.

## Revivals To End At Bethel Church

Revivals, which have been in progress at the Bethel A. M. E. church for some time, will be brought to a close with the service this evening. Rev. C. D. Henderson, the evangelist, will discuss the subject, "The Way of Heaven". Special music will also be rendered by the combined choirs of the Union and Bethel churches.

## FIGURES IN YOUNG GUARD VICTORY

As the smoke of battle rolls away two members of the "Young Guard" of insurgent Republicans find themselves members of the senate finance committee. Residents of Capitol hill, mindful of the assertion of Senator Reed Smoot, of Utah, upper right, that he felt he ought to resign the chairmanship of the committee if foes of the administration were placed on it, look for exciting days to come as Senators Robert M. La Follette, of Wisconsin, left, and John Thomas, of Idaho, lower right, take their places on the important committee.

## Pasadena Land Sold For 15 Cents In 1859

After 25 Years Buyer Resold It At Profit Of 10 Cents An Acre, Son Relates

PASADENA, Cal., Jan. 10.—When Perrie Kewen's father purchased the land on which this city, South Pasadena, San Marino and Altadena now stand, for 15 cents an acre in 1859, and 25 years later sold it at a profit of 10 cents an acre, his family and neighbors thought he was the "smartest man alive." Kewen related this story of his father's business acumen at the "Fifty Years Ago" party of the Pasadena Historical society.

Although the district which the elder Kewen purchased at the rate of "three packages of gum" to the acre now has an approximate assessed valuation of \$875,000,000, the speaker said he "had so much fun living in this section that he doesn't feel badly his father sold too soon."

The story of the hidden treasure about the Old Mill in San Marino is no myth, Perrie Kewen declared. "Great quantities of gold and jewels intrusted to the keeping of Brother Allaman by the padres of San Gabriel Mission," he asserted, "were placed in water jars, wrapped with rawhide and buried in the old garden near the mill."

The Mexican war and the slaying of

Allaman interfered with the efforts of the padres to recover the San Gabriel Mission treasures, and to this day the whereabouts of the gold and jewels is unknown.

The pioneer days authority is the only son of Col. Edward J. C. Kewen, who occupied the Old Mill 70 years ago because it was the only available dwelling with the exception of a few brush shacks.

# Philippines Is Promised Land To China's Poor

Smuggling Aliens Into Island Possessions Is Ancient Custom

## NEW METHOD OF ENTRY EXPOSED

MANILA, R. I., Jan. 10.—Smuggling Chinese into the Philippines is an ancient and honorable pastime which has been practiced ever since the United States established its sovereignty here.

Recently, however, a new method of entry was exposed when it was discovered that two Chinese had come in on the same birth certificate, and they weren't Siamese twins either.

### The First Time

The birth certificate contained the name of Francisco Siodico, the son of a Chinese father and a Filipino mother. As one of the parents was a Filipino, the possessor of the certificate was entitled to make a permanent residence here.

In 1918 the certificate was presented to customs officials and the bearer was allowed to enter. A few months later the certificate bobbed up again, in the hands of another Chinaman, and he was allowed to take up his residence in the promised land of the Philippines.

# Says Wolves Are Wiping Out Deer

Reports Getting All But One Of Pack And Expect To Get Him Soon

SAULT STE. MARIE, Ont., Jan. 10.—Bob Beck, the Searchmont trapper, who says that in the last twenty years he has trapped so many wolves that he is unable to estimate the number, is in the city with the pelts of four large timber wolves, which he will register for the bounty. Bob had trapped seven timber wolves since the first of September and says that there is but one of the pack left, a big, husky brute. Two of the pelts were 6 feet, 8 inches long. "But I'll get him," says Bob. "He will get tired of traveling alone and will likely commit suicide by stepping into a trap. Then I'll have him."

Beck trapped three of the wolves early in the season and then found where the remainder of the pack had pulled down a deer. He set his traps near the carcass and got four of the animals. One of them had five pounds of venison, bones and hair in its stomach.  
"The wolves are laying havoc with the deer," Bob said. "I don't know where they get them, as the deer are getting scarce. It won't be long until a closed season on deer will have to be declared in Algoma unless the wolves are cleaned up. Just watch this fall and see how many young deer are taken by hunters. There won't be many. The wolves get all of them."

# Grove City's New Burgess Pleased

Believes Newly Appointed Police Officials Will Strictly Enforce Law

GROVE CITY, Jan. 10.—Burgess W. Van Eman has taken the duties of his office seriously and will within a few days move his office from the municipal building, which was occupied by the former burgess, to his private office over the J. C. Penny store. Burgess Van Eman was well pleased with the police appointments made by the council Monday evening and feels he will be able to enforce the laws in Grove City.

INTERNE TO LEAVE  
Dr. Earl Gedney, senior interne in the Osteopathic hospital, will leave soon to establish his practice in Philadelphia. Dr. Gedney has completed his three year course at the local hospital and left Thursday for Philadelphia. He will return to Grove City in two weeks and he and his family will move to that city.  
Dr. Gedney has many friends in Grove City who wish him success in his new location.

CIVIC CLUB MEETS  
The January meeting of the Woman's Community Civic club was held Thursday afternoon at 2:30 in the Penn Grove hotel.

The college public speaking class taught by Miss Franklin presented a play entitled "The Crook and the Lady". Prof. H. C. McBurrows, also of the college faculty, gave a short resume of "Hamlet". At the close of the meeting tea was served by the committee in charge.

TO ENTERTAIN CLUB  
Mrs. P. H. Elliott, Mrs. Harry Grossman and Mrs. W. M. Harrison will be co-hostesses to the ladies of the Coterie club at a 6 o'clock dinner this evening in the home of Mrs. Elliott, State street. Following the dinner the time will be spent socially.

CLASS TO MEET  
The members of the P. and A. Sabbath school class of the United Presbyterian church will meet this evening in the home of Mrs. Thomas F. Ritchey, Jr., on the Grove City-Mercer road. The meeting will be in charge of the social committee of the class.

SELECT FROM COMMITTEE  
The junior prom committee for the seniors and seniors of Grove City college has been selected. Work has already been started in order to make this affair one of the best in the history of the school.

The committee in charge is as follows: Alberta Doebe, Dorothy Wolford, Alice Burke, Jean Richards and Richard Bowen.

## SCHOOLGIRLS NEED HEALTH

Daughter of Mrs. Catherine Lamuth Box 72, Mohawk, Michigan

"After my daughter grew into womanhood she began to feel rundown and weak and a friend asked me to get her your medicine. She took Lydia E. Pinkham's Vegetable Compound and Lydia E. Pinkham's Herb Medicine. Her nerves are better, her appetite is good, she is in good spirits and able to work every day. We recommend the Vegetable Compound to other girls and to their mothers."—Mrs. Catherine Lamuth.

Daughter of Mrs. Eva Wood Howe 106 South H. Street, Danville, Ill.

"I praise Lydia E. Pinkham's Vegetable Compound for what it has done for my fourteen-year-old daughter as well as for me. It has helped her growth and her nerves and she has a good appetite now and sleeps well. She has gone to school every day since beginning the medicine. I will continue to give it to her at regular intervals and will recommend it to other mothers who have daughters with similar troubles."—Mrs. Eva Wood Howe.

## County Federation Of Women's Clubs

Nearly three months ago the president of our County Federation of Women's Clubs and her staff began their preparation for the January 1930 meeting which is to be an open meeting. Persistently they crept into their thought of this meeting the suggestion to bring forth our old McGuffey and Osgood readers and build the program for the day upon the contents of these and of other books that had a valued place beside these in the schools of an earlier day.

Imagine the surprise of these women when, very soon, there began to appear in a Pittsburgh paper, almost daily, an increasing number of communications from over Western Pennsylvania expressing appreciation of the unusual merit of these two sets of readers.

A few years ago this coincidence would have brought forth the expression that a mind reader's sensitive brain had caught the thought of these women and appreciating its uniqueness had passed the thought on to others of like reception until all Western Pennsylvania has contributed to a memory tablet to McGuffey and Osgood.

Science and its favorite child, the Radio, have been our teachers since McGuffey's and Osgood's time and so today we nonchalantly dub this coincidence as thought caught on a wave length and held ready for reception by all those who are so avariciously tuning in for all the sounds of the world and the universe.

There must have been some static or other interference, however, for they have not caught all that New Castle would broadcast.

Our appreciation is great for the influence that stepped out of those carefully compiled books into the lives of those who studied from them. This appreciation is matched in that for the men who understood so well the value of molding young life with character building thought impressions and beautifully expressed ideals.

Further than this there is an appreciation of the closer touch that New Castle has had with the life of these men. Lucius Osgood spent several years of his life in this city. Then when he chose his bride city. Then when he chose his bride city. Then when he chose his bride city.

Our January meeting of the county federation will have much of interest on its program wrought out of these books that are receiving, just now, so much of commendation from the western part of our state.

## Grist Mills Are Now Curiosities To Tourists, After Serving Man Faithfully For Over Half Century

In spite of the rapid modernization of this community, there remains throughout the county, some relics of former industries. Among these quaint reminders of other industrial days, which add greatly to the beauty of the natural scenery in Lawrence county, are the old grist mills.

Several of these old-fashioned grist mills still remain and some are even being used, today. McConnell's Mills has attracted attention from people from cities hundreds of miles from New Castle. It is a good example of how alluring a grist mill can be.

Whereas, not so long ago the grist mill was a center of commercial activity in this county, today, the mills that remain intact are sources of interest for tourists and local people who view with awe, the cumbersome and heavy machinery that ground the corn and wheat of our forefathers.

A grist mill is nearly always located along a well flowing stream of water. This location was necessary because all the machinery used in the mill was operated by water power. An even flow of water to the huge outside water wheel that turned all the machinery was assured by the erection of a dam across the stream furnishing the water.

This dam created a reserve supply of water which flowed to the large water wheel through a sluice. The speed and power of the wheel was

## Good Old Days Coming Back To American Folks

(International News Service) DENVER, Jan. 10.—The American people are in the dawn of a "sobering up" process that when completed will bring the return of the "good old days" to the family fireside.

That is the opinion expressed by Dr. Arthur H. Ruggles, former professor of psychiatry at Yale University, president of the American

Foundation for Mental Hygiene who delivered a series of lectures in Denver recently.

**Finance a Factor.** Tempestuous Wall street finance is one of the chief factors operating for the reorganization of the American home to a foundation of high ideals and an equal sharing of family and household responsibilities according to Dr. Ruggles.

"A nation gone 'get-rich-quick' mad with the fantasia of easy money is now plump up against realities and the ticker tape now is an informant of the necessity of immediate domestic and social readjustments," Dr. Ruggles said.

"Scores of families who yesterday were in possession of wealth will make their homes in the country and boy and father will get acquainted all over again."

**Mother and Daughter.** "Mother and daughter will knuckle

down to making the interior cozy and doing the work. The older boys and girls will seek positions and when they return to the cottage at night, there will be the family reunion, lots of talk about what happened and a return to the 'Great American Family'."

All this will bring a return to a household established on the old house and garden basis; the American mother assuming responsibility of rearing her children and helping to educate them; the father offering to share himself with his family instead of giving all of himself to business; youth finding fun and pleasure in household chores and reading as a substitute for gin and fast motor cars, displacement of jazz and "blues" by John Howard Payne's "Home Sweet Home."

Government railways of Japan now own 4,000 locomotives.

## Marriage Only Desperate Idea Says Novelist

By ALICE LANGLEIER  
International News Service Staff Correspondent

PARIS, Jan. 10.—Poets and novelists should never marry, says novelist Rose Macaulay, writing in the Paris edition of the "Daily Mail." The jars of the married state, she explains, will certainly injure the former's dreams and they will be far happier single, as will, probably, their spouses. As for doctors, they are too often called up in the night.

"Marriage," she continues, is really a desperate thing and the frogs in Aesop were extremely wise. They had a great mind to some water, but they would not leap into the well because they could not get out again."

However, the writer has decided that there is much to be said on both sides and that between marriage and celibacy, happiness works out about 30-50. The joy one gets out of marriage usually depends upon temperament, health, wealth and the rest of the human artery.

Marriage is undoubtedly suited to some dispositions and circumstances and not to others. The hasty and excitable of temper, she thinks, should by all means marry, in order to have always at hand an object on which to vent their exasperated feelings. And then on the whole, it is certainly more fun doing things with the right companion, than alone, provided that the companion, chosen perhaps, a little at random, does not always prove to be the companion with whom it is the most fun to do things.

That France is a real foe to alcoholism and sincere advocate of temperance, although she produces some of the finest wines in the world, is proved by a report recently published showing that she is fighting the peril with great success in her colonies. In French West Africa, for example, the consumption of alcoholic drinks in 1913 was 62 centilitres per person. By 1927 the figure had dropped to 17 centilitres. She is endeavoring to teach the natives of the tropics under her laws to sip their wine slowly as the Frenchman does in France.

Signs of American hurry and haste are to be seen in a little French cafe-bar near the Place de Clichy. Time means money for the waiters who no longer have the leisure to give the usual "merci, beaucoup" to their clients and the latter seldom have time for the three classic words. Thus, the proprietor has hit upon the scheme of printing the polite phrase upon the saucers served under the glass of beer, cup of coffee, chocolate, etc. "Merci beaucoup" is served to every patron, tip or no tip.

## Wagner Has Three Bills To Champion Unemployment Issue

(International News Service) WASHINGTON, Jan. 10.—Laying a legislative program designed to solve America's unemployment problem before congress, Senator Wagner (D) of New York Thursday introduced in the senate three bills which he said carried the approval of the foremost economists of the nation.

The bill embraced the setting up of a public works planning board to create a sort of Federal Reserve board for industry, active cooperation of the Federal government maintenance of state and municipal employment of fliers and the gathering of detailed employment statistics by the labor department.

## Magnesia Best For Gassy Stomach

Bisurated Magnesia Promptly Ends Gas, Sourness And Acid Indigestion.

If everything you eat turns to gas and your stomach is a constant ferment of sourness and Acid Indigestion, try taking a little pure Bisurated Magnesia after meals for a while and get the immediate relief this simple prescription so unflatteringly gives.

It is a serious mistake to seek relief from indigestion or a bad stomach by using pepsin or other artificial digestants. You get relief but weaken the stomach and do not reach the cause which, nine times in ten, is simply "too much acid" in the stomach. Bisurated Magnesia, taken after meals, dissolves or neutralizes this acid, sweetens and cleans up the stomach, drives out gas and bloating and lets the stomach digest your food as nature intended without a particle of trouble.

Reliable druggists everywhere supply genuine Bisurated Magnesia in both powder and tablets in sealed packages. Do not confuse with ordinary citrate, milk or lump magnesia. Be sure to get Bisurated, which is especially prepared for acid stomach trouble.

## New Bills Have Longer Span Of Life, Banker Says

Some Of The New Currency Issued Last July Is Found To Be Worn Out Now

(International News Service) PHILADELPHIA, Jan. 10.—Many of the new one-dollar bills of the tabloid currency issued on July 1, last, already are worn out and are being replaced according to C. A. McIlhenny, cashier of the Federal Reserve Bank here. The old one-dollar bills had an average life of nine months but the present returns of the new tabloid currency point to a bit longer span of life for the new bills.

Bills of larger denominations, especially the two's have a much longer span. It seems the two's never wear out. Approximately \$200,000,000 of the old money has been destroyed at the Federal Reserve here since new bills were first put into circulation. The process of destruction goes on daily in and day out with five men feeding the old bills into a huge slicer which cuts them in two lengthwise after a punching machine has punched four holes through each bill. The sliced money then is sent to Washington where it is recounted before being burned.

Since the new bills were put into circulation, about \$115,435,000 of the new currency has been issued here for Eastern Pennsylvania, Maryland, Delaware and South Jersey. More bills of the one-dollar denomination have been issued than of other denominations, although the total amount in dollars of the \$5's and \$10's just about equals the total amount of one-dollar bills issued.

## Inventor Of First Heavier-Than-Air Machine Is Dead

Claim Washington Man's Wierd Machine Was Forerunner Of Modern Airplane

(International News Service) WASHINGTON, Pa., Jan. 10.—Professor William Schick, claimed to be the first man to build and actually fly a heavier-than-air machine, died here recently in the Washington County home.

The machine flown by Prof. Schick employed internal combustion as the means for propulsion and destroyed in its first flight over a field at Monongahela, near here, on July 4, 1898. The Schick plane was a cylindrical tin body, 40 feet long and 16 inches in diameter, with canvas bags attached. Black powder caps contained in a tube were so arranged that they would drop one at a time into an explosion chamber and ignite. The gas thus produced was directed to inflame the bags, lift the machine, while the force of the explosions drove the machine forward.

## Sports Schooling For King Michael

(International News Service) BUCHAREST, Jan. 10.—The major portion of the education of King Michael, youthful monarch of Rumania, is devoted to sports and outdoor life.

Three days a week are spent in study and in the garnering of book knowledge under the new system of education adopted for the growing King, but the rest of the week is filled with games, from tennis to hand-ball, and riding on horse or bicycle. He has a special riding master and a special tennis instructor.

Colonel Schellert, of the Rumanian Cavalry, is Michael's instructor in horseriding. The Colonel is enthusiastic about the youthful monarch's "elegance and ease" in the saddle and declares he has seldom found a boy of eight so fine a rider. Michael's tennis partner is Colonel Jacobini, one of the best tennis players of Rumania. But sometimes the King makes his own rules in tennis. He drives the ball as high as he can hit it and lets his opponent worry about returning the smash.

## Wrecked Plane Is Taken From Ocean

(International News Service) SANTA MONICA, Cal., Jan. 10.—Charred and twisted wreckage of one of the two ill-fated motion picture planes that carried ten men to death in the ocean a week ago was brought to the surface by salvage tugs Thursday.

No more bodies were found. A diver at once went over the side of the trawler Salt and went exploring the bottom of the turbulent sea in search of bodies or more wreckage.

## Two Are Killed By Gas Fumes

(International News Service) DETROIT, Jan. 10.—Two persons are dead here and two are suffering the effects of gas when fumes escaped from a coal stove in the home of Mrs. Joseph Barker.

Those dead: Mrs. Joseph Barker, 56, and her three year old son, Cecil Barker. Harley Barker, 27, was overcome as was another man, so far unidentified who came to the Barker home as a roomer just Wednesday.

## Uncle Samuel's Army Men Must Study Cooking

Company Officers Are Ordered To Take 4 Months' Course At School

WILL ALSO LEARN  
HOW TO MARKET

(International News Service)  
BALTIMORE, Jan. 10.—If Fort George Meade doesn't supply several young women with experienced housekeeping husbands it will not be the fault of your Uncle Samuel. All order just issued at this army post requires all company officers of the Third Corps Area to take a month's training in a cook's and bakers school while all enlisted kitchen mechanics must study the culinary art for four months at least.

Uncle Sam of course isn't interested in revamping "shavetails" and "dog-robbers" into efficient cuisine experts for the benefit of a harassed marriage market but for purely fiscal motives.

Officers Also.  
Officers attending the school will discard their prized Sam Browne belts and for "the duration" will be rated as cooks assistants until they demonstrate their domestic abilities.

One of the first of their duties will be to master the art of baking bread and rolls, an accomplishment that will require them to "rise and shine" at 2 a. m. and continue until 7 when the enlisted personnel stalks into mess.

After 12 days in the bakers school the officers (still without Sam Browne belts) will come to the Baltimore markets and learn something of buying and preparing meats. With these preliminaries mastered the students will finally prepare entire menus conforming to the latest and best rules of dietetics.

Four Months Course.  
The course for the enlisted men Capt. A. B. Ames assistant commandant of the school said will be identical with that of the officers but will extend over a period of four months.

When the government increased the ration allowance from 30 to 50 cents' Captain Ames pointed out "it was realized most of the increase would be wasted unless competent cooks were obtained as well as officers capable of intelligent supervision."

In the old days many officers would walk through the messes and ask a few stock questions which soon became a joke. Today troop officers are required to know details of food preparation and are required to eat at least one meal a day with their men.

## 85 PER CENT OF BLONDES ARTIFICIALLY BLEACHED

(International News Service)  
BOSTON, Jan. 10.—That eighty-five per cent of the blondes now in circulation are artificially bleached, was what Andre Behns, director of the Wilfred Academy, told members of the Ladies' Hairdressers Association of New England in convention here. It is now possible for lady to have light hair and look natural despite any handicap Nature might put in the way, as long as she has hair, Mr. Behns said.

The demand for red hair has died out, continued Mr. Behns, and hairdressers now have few calls for the brass henna effects of a few years ago.

## Annual Tuberculosis Conference To Take Place In Erie Soon

Lawrence County Tuberculosis Society Will Be Represented  
At Erie, Tuesday And Wednesday

A number of people, connected with the Lawrence County Tuberculosis society, will attend the 38th Pennsylvania tuberculosis conference in Erie Tuesday and Wednesday, January 14 and 15.

It has not yet been decided who will be going from New Castle, but it is thought that the local society will be represented by at least three or four persons.

The increasing effort to save children from tuberculosis will be one of

the important health subjects discussed at the conference. The topic, Childhood Tuberculosis, will be considered on Wednesday morning. The speakers will include Dr. T. H. A. Stiles, medical director of the Creson state sanatorium; Dr. F. Maurice McPhedran of the Henry Phipps institute, Philadelphia; Dr. Henry D. Chadwick, tuberculosis controller, Detroit, and Dr. C. L. Hyde, East Akron, O.

The conference is under the auspices of the Pennsylvania Tuberculosis society. A complete program has been arranged for the two days. Tuesday evening's session will be devoted to the important present day matter of the Relationship Between Tuberculosis and Other Diseases in Preventive Work. Well known speakers will take part in all sessions of the conference.

More than 6,000 additional miles of tracks are to be laid by the Japanese government railways.

Turkey will establish an Air Force. England has shortage of rural nurses.

## Three Reasons For Feeding Breeding Ewes

A three-fold purpose is accomplished by the progressive shepherd in feeding his breeding ewes during their winter, says County Agent H. R. McCulloch.

Feeding a ration carrying a high percentage of protein, this flock owner seeks to maintain the ewe's body weight, to nourish the unborn lamb, and to produce a fleece of wool. If the protein requirement is not satisfied the ewe will draw on her own body structure to supply it. This means she will come to lambing time in a weakened condition and with very little milk. A small percentage and a high mortality in the ewe flock will result.

Lack of proper care and feeding during the winter is considered one of the greatest handicaps of Pennsylvania sheep husbandry by W. B. Connell, State College sheep and wool extension specialist. A number of difficulties which arise at lambing time may be prevented by proper attention to the flock now, he explains. Feed recommended for the breeding ewes includes good, clean corn silage and alfalfa, red clover, or soybean hay. As much as three pounds of silage a day may be fed. About six weeks before lambing time a half pound per head a day of the following grain mixture should be fed: 300 pounds of oats, 100 pounds of corn, and 50 pounds of bran. After the lambs are born the grain should be increased to one pound a day. Where mixed hay must be fed, 100 pounds of bran and 75 pounds of oil meal should be mixed with the oats and corn.

## MERCER NEWS

### SUITS FILED

Two important civil suits were filed here today by Greenville litigants. Jos. Fitzmartin sues Agnes Callahan for \$10,000 alleging permanent injuries as the result of an auto wreck at Conneaut Lake last summer on the date of July 13th. He alleges that the woman wrecked the car by hitting a tree the result of alleged reckless driving and that he has been a sufferer since.

C. E. and Lena Peabody sue Clyde Peabody for \$5,000. The suit is brought to recover for the death of their son, Douglas who was with Paul Nicklin a driver for the defendant when the boy met his death May 4, 1929. The truck of the defendant driven by Nicklin was hit at the Pennsylvania grade crossing in Greenville. The Peabody boy was also employed by the defendant Peabody and his death the plaintiffs claim is due to the carelessness of the employee of the defendant, Nicklin.

MINNEAPOLIS, Minn., Jan. 10.—When the average citizen slides up to a soda fountain and says "Gimme a bottle of Vimzest!" he thinks he is drinking a pleasant and highly nutritious beverage. He's wrong. He's taking medicine and liking it.

At least that is what is deduced from the fact that the "soft drink" started over a hundred years ago as a medicinal tonic.

## The Parent Problem

by GARRY C. MYERS, Ph.D.

Children Who Learn Enough Music  
Are In Touch With Real Culture

If Dante were writing his Inferno today he would add a scene of a child of about ten years of age, practicing under protest on the piano, the mother or father by torturing the child by scolding him for every error and the father with his nose buried in a magazine near by also playing the devil's part.

In the first place, there is nothing in the constitution of the United States, nor in the law of reason, that prescribes piano lessons for any other kind of music lessons for all children. Some children will not profit by any kind of music training. Most ought to have the opportunity to learn to play an instrument, not for the mere pride of their parents but for the children's own satisfaction.

When a child learns in childhood music to express, interpret and enjoy it, has acquired something which puts him in touch with a great deal of the culture of the age, gives him a language by which he can think and feel, commune with many others, and can, perhaps, contribute to their pleasures. The boy or girl who learns to play one or several instruments has rich resources for enjoyment. There will be times when such young folk will be able to use their musical talent to make themselves more comfortable, less self-conscious, make themselves feel they can do something and are somebody. Music ought to help a person to extend his own personality.

But all too many children have to pay such a terrific price to acquire music that in the acquisition of it, their personalities have well nigh been ruined.

Music which is designed to bring human happiness, has been a source of a great deal of human grief. "The half has never yet been told" about the suffering incident to learning

music. These heartaches come not from music but from the unwise dealing with children in relation to their learning music.

Here are a few suggestions for reducing suffering in respect to music and for furthering its pleasant mastery by more children.

Learn that there are more than one kind of musical instruments.

Excepting a few manifestly capable children, do not set them to a musical instrument until they are seven or eight years old.

Get back to the public school program which gives every child an opportunity in elementary music education. Boost the splendid work which school glee clubs and orchestras are doing.

Once you are sure you wish a child to begin instrumental music lessons, proceed as a school principal does. She does not ask the lad of eight whether he wishes to study grammar or spelling. He is assigned these subjects, and the teachers are expected to make them interesting to the child.

If possible, find a teacher who does not have the child practice outside the lesson period for six months or a year.

When the child begins home music practice see that the practice period is not long (not more than 20 minutes a day) but that it occurs daily, by the clock, without argument, and that the child learns responsibility for the practice.

If the child, after a year or two of instrumental lessons, fails to make reasonable progress and objects to continuing it, assuming that he has had a good teacher, perhaps he should be allowed to abandon it.

Tomorrow: Reading Aloud.

## The Way OF THE World

By GROVE PATTERSON

### THE HUNTER'S MILLIONS

The Izaak Walton League does well to remind the hunters of America that they are spending \$150,000,000 a year for firearms, ammunition, and equipment, and only \$10,000,000 in the maintenance of their sport. In other words they spend \$15 to take a deer for every dollar they spend to keep up the supply. And it is said there are 7,500,000 hunters in this country. Landowners and groups of interested people must engage in husbanding the game crop if there is to be a crop for sportsmen to harvest.

### NOTHING ABSOLUTELY FIXED

Harry F. Ward, well-known religious teacher in New York, says there is a real danger that religious ideals will become out of date and unimportant. There can be no absolutely fixed standard in religion or religious belief. There is such a thing as truth but so far nobody can be sure that he has all of truth within his understanding. What seems to be truth today may be somewhat changed by tomorrow's findings. Professor Ward is right. No matter how high or how plausible ideals may be, they may have to be changed. Thinking people will not fear change. Only the lazy minded do not change or desire to change.

### MANNERS

Too bad about manners. Youth today, moving so much faster, jumping at life so much more eagerly, seeking excitement and thrills so much more actively than young people of an older day, have little time or inclination for manners. Manners take time, seem to be unimportant. Youth prefers the short cut to what it wants. Courtesy is too slow. Writing in Harper's Magazine, Mary Borden says: "Do manners really matter any more? Is courtesy important? Elegance of demeanor, charm of gesture, grace of phrase, aren't these worn-out hypocrisies of an elaborate insincerity that we are glad to be rid of?"

"And the answer of youth seems to be: 'No more nonsense of that sort. No more humbug.' And the young women say: 'We've no time and no use for fine clothes, fine manners, fine phrases. If you want to be treated as men, so much the better. It'll save us time.'"

"And as most of what they say to one another is said on the telephone or to the accompaniment of a jazz band, what they do say and the way they say it do not really seem to matter at all."

### AS TO RESOLUTIONS

To try a little harder in 1930 to do what you hoped to do in 1929 is better than a list of spectacular resolutions that are lost in the first storm.

END CHEST COLDS AT ONCE WITH GOOD RED PEPPER HEAT RELIEVES ALMOST INSTANTLY

When noisy breathing and sharp pains in chest, dry cough or washed out feeling broadcast the presence of a chest cold, you can't afford to gamble on relief. You can't have to. For nature has provided a safe and sure remedy that relieves chest colds, and cures colds, rheumatism, neuritis and lunging almost instantly. It is the penetrating, healing heat of red peppers. Now this genuine red peppers' heat is contained in an ointment you simply rub on to get relief in less than 3 minutes. It is Rowles Red Pepper Rub. It will not blister, nor burn or harm tender skin and it does bring the relief you want. Get a small jar from your druggist.

Plant Christmas Trees—State College extension foresters recommend Norway spruce, balsam fir and Douglas fir, in the order named, for planting where Christmas tree markets are to be supplied.

Repair Garden Tools—Much time will be saved and inconvenience avoided if the garden tools are inspected and put in condition during the winter. Some will need to be cleaned of rust and sharpened or repaired. Missing tools and parts should be replaced now.

Farm Records Needed—A farm business without some kind of records is like a clock without hands. There is no way of telling whether it is gaining or losing, nor even where it stands at

any time. Now is the time to start. Ask your County Agent.

Feed Breeding Ewes—Maintaining the ewe's body weight, nourishing the unborn lamb, and producing a fleece of wool are the objectives reached in proper winter feeding of the breeding flock. Good, clean corn silage and a legume hay, such as alfalfa, red clover, or soybean, are recommended feeds.

Select Good Show Eggs—Good mangle and hatching eggs are excellent show eggs. They should be uniform in size, shape and color. To reach the show in good condition they should be packed carefully.

Attend State Meetings—Educational meetings at the State Farm Products Show will feature talks and discussions by prominent and able agricultural leaders. A fund of practical and scientific information will be available to all who attend.

Save Trees From Damage—Many evergreens are damaged each winter by wet snow. Shake the branches gently after every heavy storm, using a wooden rake.

Women Flier '86' Club Now Has 89 Members

(International News Service) NEW YORK, Jan. 10.—If enthusiasm is any criterion, the club recently organized by women fliers of the United States will be an outstanding success.

Already the "86" club, as it is called, numbers among its 89 charter members such prominent women pilots as Miss Amelia Earhart, Mrs. Walter Camp, Jr., Miss Marjorie Stinson, Mrs. Phoebe Omie and Miss Evelyn B. Trout.

It is said that almost every "lady bug" in the nation has applied for membership in the new organization. Predictions are that the total membership will be in excess of 100 when the first election is held.

STUDENTS VISIT HISTORICAL SPOTS

(International News Service) CAIRO, Jan. 10.—A large group of French students, under the leadership of archeological savants, will come to Egypt soon for a two months excursion to all the principal monuments and historical sites it has just been arranged. This is one step in the new movement to teach history on the very ground where the events took place.

Germany's purchases of American agricultural implements this year is expected to exceed \$2,500,000.

## Peter's Adventures

MRS. BY FLORENCE VINCENT

### UP ROSE THE BLACK BALL

Pinch Bug zi-zagged his way out of sight.

"At least he's made a start!" chuckled Peter.

"Yes," added Biffer. "And, though goodness knows where he'll end up, he's going somewhere." But it was out of sight, out of mind with Biffer.

In a second that restless little Gun-Beetle was tugging at Peter's coat.

"Look, boy! Something is moving over yonder. Let's run to the hummock and find out what it is!" With-

out waiting for Peter's reply, off scuttled the little Gun-Beetle, and in a moment Peter heard the report of Biffer's gun, but Biffer himself was nowhere to be seen.

"Where in the world has that fellow gone?" demanded Peter, speaking aloud in his great surprise. "Has the earth swallowed him up? I hope he hasn't gotten into trouble again."

"Biffer, Biffer, where are you?" Peter ran to the air of his comrade.

"I am coming. Have courage, young fellow!"

No answer! Peter reached the hummock and clambered up its steep sides. Hark, what was that he heard? A groan? Peter was almost certain it was. He climbed the faster. When he reached the hummock's top he was out of breath, and had to stand quite still for a moment. Then up the other side rolled a black ball. Up, up it came toward him.

"Good gracious, what's this?" he cried. "Suppose that black ball should knock me off my feet and I should tumble down this hill backward! The strange thing, whatever it is, might roll on and crush me. I wonder if this is what scared Biffer and set him to firing. Where is that fellow? Biffer, Biffer, if you hear me, answer! I want to help you, but right now I, too, am in danger!"

Next: "Rolling Down Hill."

## J. W. HUMPHREY RE-APPOINTED BOROUGH SOLICITOR AT MEETING

Appointment Of Police Chief  
And Night Lieutenant  
Still Under Discus-  
sion Of Offi-  
cials

Council Approves The Recom-  
mendation To Enlarge  
Storm Sewers In  
Borough

ELLWOOD CITY, Jan. 10.—At the  
meeting of the newly organized  
borough council which took place last  
night in the city building, J. W. Hum-  
phrey was re-appointed borough sol-  
icitor. The members of council failed  
to appoint a police chief or to name  
a successor to H. J. Chasey, night  
lieutenant of the force. Chief Morris-  
on will continue to serve until he is  
re-appointed or another appointee is  
named.

Members of the police committee,  
burgess and chairman of council had  
a meeting following the regular ses-  
sion last night, and it is presumed  
that the matter of the appointment  
of chief and lieutenant was under  
discussion. It is known that several  
applications have been made for a  
position on the force.

**Sewer Project Approved.**  
Council approved the recommenda-  
tion of the sewer committee and the  
borough manager that George B. Gas-  
coigne of Cleveland, O., be employed  
to design a storm sewer system from  
the creek along Sixth street to Chest-  
nut way and to make dry test holes  
near the railroad tracks in case a  
subway is ever built along Sixth street  
or Fourth street.

Another police matter brought to  
the attention of council was the bill  
for \$400 turned in by former Burgess  
Evans, which he paid out in expenses  
in a trial against H. J. Chasey, J. L.  
Boother and H. F. Bauder. This mat-  
ter, which had come up before at a  
previous meeting, was referred to the  
police and finance committees for a  
report back at their next meeting,  
when it is expected that action will  
be taken one way or another. The  
police report for the month stated  
that there were 30 arrests, nine dis-  
charged, nine fined and 11 forfeits.  
Total fines and forfeits amounted to  
\$572.

Council also passed the usual sa-  
lary ordinance fixing the remunera-  
tion of the various city employees. A  
recommendation made by M. A. Riley  
that borough electrician's pay be  
increased was turned down by council  
as the members felt that the finance  
committee had made up the budget  
and did not wish to change same.  
Mr. Riley felt that the services and  
loyalty of the electrician warranted a  
raise.

Council also authorized the city  
manager to sign an agreement with  
the Shelby Land company for the  
purchase of land in Ewing Park for  
park purposes. The agreement is in  
the form of an option expiring April  
1. It provides for the purchase of  
about 40 acres of land at an approxi-  
mate price of \$50,000. Council also  
decided to take bids on public liability  
and property damage insurance on all  
city motor equipment. It was also de-  
cided to send two members of council  
to the annual road show in Atlantic  
City, delegates to be named at a later  
date.

**HAPPY BUNCH CLUB**

home of Mr. and Mrs. Ralph Cross  
on the Ellwood-New Castle road.

## Composer-Director At Revivals Here

Choir, Under Direction Of Prof.  
Keller, Gives Splendid  
Performances

ELLWOOD CITY, Jan. 10.—Prof. A.  
A. Keller, who is guest-conductor of  
music at the Church of God for a  
revival campaign has an imposing  
musical past.

Although having been under the di-  
rection of Prof. R. A. A. Keller for  
less than a week, the choir at the  
First Church of God, North and Or-  
chard avenues, Ellwood City, is night-  
ly delighting the audiences with its  
beautiful renditions of the most popu-  
lar old and new gospel songs.

Being asked the secret of the beau-  
tiful effects obtained, Prof. Keller  
says, "First we use the voice, then the  
head, common-sense, and these two  
give us a beautiful reading. Ah, the  
inspiration of it all? That must come  
from the heart."

Splendid programmes are being pre-  
pared for the remainder of the series  
of meetings and special numbers com-  
prehending every ensemble are pre-  
sented nightly.

## Rotarians Hear Of Vocational Plans

ELLWOOD CITY, Jan. 10.—Prof.  
Hawk, head of the vocational train-  
ing department in the Lincoln school  
gave an address before the members  
of the Rotary club Thursday evening  
on the occasion of their weekly din-  
ner-meeting in the dining room of  
the First Presbyterian church.

From his wealth of experience along  
this line, he gave a fine talk, and  
quoted astounding figures regarding  
the many different vocations found  
in Ellwood City, as gleaned from a  
survey taken some time ago.

Many of the local members will at-  
tend the special meeting in Pittsburgh  
January 22, when the Pittsburgh Ro-  
tary club will entertain the president  
of Rotary International at the Wil-  
liam Penn hotel.

## Motta-DePaul Nuptials Thursday

ELLWOOD CITY, Jan. 10.—The  
wedding of Miss Adda Motta and  
Eugene DePaul, both of Glen avenue  
took place Thursday morning at the  
Italian Catholic church, with Father  
Galliano officiating.

The bride was attended by Miss  
Rose Sorreno as maid-of-honor, and  
John Minocci was best man. The  
ceremony was followed by a reception  
at the Hungarian hall yesterday  
afternoon and evening, after which  
the couple left on a post-nuptial trip  
to New York. Upon their return in  
about a week's time, they will reside  
on Glen avenue.

**HOSPITAL NOTES**  
ELLWOOD CITY, Jan. 10.—Admit-  
ted: Norma Jean Miller of Summit  
avenue; Mrs. Charles Schueinsburg of  
R. F. D. and Jessie Greenham of  
Lawrence avenue.

Discharged: Mike Christoff of  
Lawrence avenue; Norma Miller, Eve-  
lyn Wallace of Line avenue, and Mrs.  
Ray Ford and baby of Hazel avenue.

## Friends Surprise Derry Porter On Wednesday Night

ELLWOOD CITY, Jan. 10.—Honoring  
the anniversary of his birthday, 38  
friends gathered for a surprise  
visit at the home of Derry Porter on  
Fourth street Wednesday night.

A special guest was Grandmother  
Henderson who is 86 years old. Games,  
music and dancing caused the hours  
to pass pleasantly.

Later delicious refreshments were  
served at small tables by the hostess  
and the inevitable birthday cake  
made its appearance, concluding a  
pleasant event.

## Suggestions For New Air Tie-Up

Several Local Air Enthusiasts  
Favor Linking Local Air-  
port With Valley  
Port

ELLWOOD CITY, Jan. 10.—It has  
been suggested by various local air  
enthusiasts that along the lines of  
air activities that a small community  
like Ellwood City cannot adequately  
finance successfully a community air-  
port. They offer the suggestion that  
Ellwood City and Beaver Falls get to-  
gether and locate an airport along  
the Beaver river, such a spot being  
easily found from the air, with the  
river to guide the pilot.

It is a well known fact that the  
local airport is a difficult place to  
find, either from the air, in a car or  
on foot, and the project of combining  
the two cities into one airport might  
be worked out very satisfactorily.

## Elks Ladies Party Is Well Attended

ELLWOOD CITY, Jan. 10.—At  
the regular semi-monthly party of  
the Ladies of the Elks Club, which  
took place Thursday afternoon, there  
were 12 tables of bridge in play. Mrs.  
Leonard Silverblatt headed the com-  
mittee in charge.

At the conclusion of a pleasant af-  
ternoon, score honors went to Mrs.  
Charles Carbeau, Mrs. Theodore  
Markwort and Mrs. Harold Seidel  
captured the guest high score honor.  
Mrs. Markwort also won the door-  
prize.

Members of the committee assist-  
ing Mrs. Silverblatt were, Mesdames  
Charles Carbeau, Charles Taylor and  
Paul Cartwright. In two weeks there  
will be another party at the club with  
Mrs. Theodore Markwort heading the  
committee.

## Annual Prayer Week At Bell Memorial

ELLWOOD CITY, Jan. 10.—The an-  
nual Week of Prayer services each  
night this week in the Bell Memorial  
church have been well attended. Each  
night a member of the congregation  
has led the service. Tonight Clyde  
Hauk will officiate as leader.

**IN EVANS CITY**  
ELLWOOD CITY, Jan. 10.—Rev.  
John King of the Bell Memorial  
church is conducting preparatory ser-  
vices this evening in the Presbyterian  
church of Evans City, in place of Rev.  
W. L. McMillan.

## HIGH SCHOOL MISS FLIES PLANE

Arizona's youngest airplane pilot is a Phoenix schoolgirl, Miss Bertha Johnson, 17. She is taking a transport pilot's training and plans to become a licensed commercial pilot. Miss Johnson soloed after 11 hours and 30 minutes of preliminary training. She describes her first solo flight as "the biggest thrill of my life."

## School Nurse And Doctor Aid Health In Town

Health Officer Declares That The  
School Officials Aid In Pre-  
venting Epidemics

ELLWOOD CITY, Jan. 10.—That  
the school physician and the school  
nurse are doing much to keep this city  
free from epidemics, was brought out  
in a strong talk made by Health Of-  
ficer Young to the borough council  
Thursday night on the occasion of  
their monthly business session in the  
city building.

Mr. Young declares that these two  
health supervisors are able to catch  
contagious cases in the schools and  
isolate the infected children before  
the entire school and city is infected.  
He believed that this has done much  
to prevent the spread of communica-  
ble diseases in this city. In his re-  
port for last month he indicated that  
there were only five cases of contagious  
diseases in the city, one of scarlet  
fever, two of measles, one whooping  
cough and one chickenpox.

Incidentally Mr. Young's term as  
health officer has expired but he will  
continue to serve until such time as  
he is reappointed or a successor is  
named. His name was proposed to  
council for re-election to his present  
post along with recommendations  
from the board of health. The board  
recommended that Dr. H. E. Helling  
be reappointed from the third ward  
for a five-year term; Henry Eicholtz  
from the second ward, H. H. Reynolds  
from the fourth ward and H. D. Par-  
kinson, at large, for one year. This  
recommendation was approved by the  
board.

## Willing Workers Plan Valentine Party

ELLWOOD CITY, Jan. 10.—Four-  
teen members of the Willing Workers  
society of the Christian church en-  
joyed a meeting with Mrs. W. H.  
Howell of Fourth street Thursday  
night. They planned for a Valentine  
party Tuesday evening on February 13  
and each member is expected to  
bring one guest.

Last night's meeting was in the  
form of a resolutions party and a new  
game was introduced of solving Bible  
questions, which was both entertain-  
ing and educational. A special guest  
was Mrs. Ed Kelly.

Later delicious refreshments were  
served and the hostess was assisted by  
Mrs. Lulu Hines and Mrs. Anna Kelly.

## Success Attends Revival Service

ELLWOOD CITY, Jan. 10.—The re-  
vival now in progress at the First  
Church of God had its largest crowd  
last evening. As the altar call was  
given many men stepped forward and  
accepted Christ.

Rev. L. Earl Slacum, the pastor  
preached on the subject last evening,  
"The Drama of Life." He used for his  
scriptural foundation the prodigal son.  
Rev. Slacum will preach this even-  
ing on the subject, "The Forgiveness  
of Sins."

## INFANT SERVICES ON WEDNESDAY

ELLWOOD CITY, Jan. 10.—Ray  
Everett, six day old son of Mr. and  
Mrs. Lawrence Sumner of Second  
street, was buried Wednesday after-  
noon in Locust Grove. Interment was  
preceded by a short prayer service at  
the home. He was an only child and  
his short stay on earth is a source of  
deep grief to his parents.

In a recent month Japan's postal  
savings increased by nearly \$24,000-  
000.

## RUSSIA MAKES USE OF UNCLE SAM'S BUSINESS BRAINS

Even if Russia doesn't like Uncle Sam's diplomatic manners she is utilizing his mechanical and business ability to the utmost. Contracts amounting to millions of dollars have been let in the United States by the Soviet government. One of the most ambitious projects undertaken by the Russians is the construction of a town, 300 miles east of Moscow, near Nishni Novgorod, for a population of approximately 35,000. The town is to be the seat of an automobile plant which is to turn out 100,000 Ford cars yearly. Actual designing is being done by engineers of a Cleveland company, but the construction will be done by Russian labor. Above, a map showing location (X) of the town, the signing of the contract by G. A. Bryant, Jr., of Cleveland, and Soviet officials (note the costumes of the Russians), and, inset of H. F. Miter, of Cleveland, in charge of the work.

## Fifty Fires In Ellwood During Year Of 1929

ELLWOOD CITY, Jan. 10.—There  
were exactly one-half hundred fires  
in Ellwood City and vicinity last year,  
with a loss of \$43,664, according to the  
monthly and annual report presented  
at last night's meeting of the borough  
council by Fire Chief Plante. Forty-  
three of these fires were in the bor-  
ough and four hundred feet of hose  
line was laid and 370 gallons of  
chemicals used and 328 feet of ladder  
strung in fighting the above mention-  
ed fires.

There were only three fires in the  
borough last month, according to the  
fire chief's report.

## Americans Win Praise In Paris For Generosity

French Biologist Pleads For  
Philanthropy In Inter-  
est Of Science

SAYS HORN RIMS  
CAME FROM FRANCE

By ALICE LANGELIER  
International News Service Staff  
Correspondent

PARIS, Jan. 10—Americans are ex-  
tolling for their individual generosity  
by Leon Binet, one of France's finest  
biologists in a recent article ap-  
pearing in "La Presse Medicale."

"Urging his countrymen to bring  
the same aid to the advancement of  
science, through the creation of la-  
boratories and education institutions,  
Monsieur Binet said.

In the greatest universities in the  
United States, in those which are the  
principal hives of scientific activity,  
budgets are constituted by private  
liberality, whereas in France, rare are  
the private funds to further the re-  
alization of scientific work although  
men of science and full of faith in  
their work are more numerous."

Frenchmen want to look like Am-  
ericans, and so they affect horn rim-  
med spectacles.

No sooner had this charge been  
made by a writer in a local maga-  
zine than a champion of the French  
stepped forward to deny the insinua-  
tion.

Horn rimmed spectacles are, in fact,  
a French invention, say the afore-  
mentioned champion.

It seems that the French began to  
wear the horn rimmed kind, outward  
sign of prosperity, brains, age and so-  
cial position, way back in the Na-  
poleonic age.

"But they give us just as little cred-

## Prayer In Congress

The house met at 12 o'clock noon.  
Rabbi Louis R. Newman, Temple  
Emanu-El, San Francisco, Calif., of-  
fered the following prayer:

O Lord God of the nations, in  
whose sight all the peoples are as  
grains of dust in the balance, we pe-  
tition Thee that Thou turn Thy bene-  
diction upon us and be gracious unto  
us.

We ask Thee, O Lord, that Thou  
vouchsafe unto us light and life; that  
we have power of intuition into the  
common will; that there be upon our  
lips words of judgment and counsel  
whereby we can make the will of the  
many translated into actions of serv-  
ice.

We petition Thee, O Lord, that  
Thou grant unto us a knowledge of  
the ways of justice, for though the  
pendulum swing this way and that,  
though right may seem to fail and  
wrong may seem to conquer, even as  
the steady pull of gravitation is to-  
ward the center of the earth, so is  
the eternal pull of the law of jus-  
tice toward the throne of God.

Make us to know, O Lord, that though  
the rock be strong and iron-cleaving,  
that iron be strong and fire melting,  
that water quench fire, that the clouds  
gather up the water, that the winds  
dispel the clouds, that man is stronger  
than sleep, loving-kindness and  
justice are stronger than death.

We ask Thee, O Lord, to make us to  
know that though right is more pre-  
cious than peace, yet peace is pre-  
cious indeed. Vouchsafe unto us the  
spirit of common counsel, of mutuality,  
and of understanding, and establish  
Thou, O Lord, for this blessed Re-  
public, the work of our hands, yea,  
the work of our hands, establish Thou  
it.

Make us conscious of our mission

## TEN HERBS HAS NO EQUAL FOR CERTAIN ILLS

Says New Castle Lady, After New  
Medicine Restored Her  
Health.

When sick, discouraged men and  
women use Ten Herbs, the famous  
new natural medicine, and gain free-  
dom from such health troubles as  
stomach, liver, kidney and bowel dis-  
orders, nervousness, rheumatism and  
neuritis, they want to help others, so

MRS. LAURA SHAFFER

they tell the public about the remark-  
able merits of this successful com-  
pound. That is why so many people  
are endorsing Ten Herbs in the daily  
newspapers. No wonder there is such  
a great demand for Ten Herbs at  
Eckerd's of New Castle, Inc., 30 East  
Washington Street, this city, where  
this popular preparation is being in-  
troduced.

"There is no other medicine so good  
as Ten Herbs for a weak, nervous,  
run-down condition, or stomach trou-  
ble," was the recent statement of Mrs.  
Laura Shaffer, 130 1/2 Quest Street,  
New Castle. "I speak from experi-  
ence as your medicine caused a great  
improvement in my health. I felt  
worn-out all the time, and there were  
pains in my arms and head. My  
stomach was so badly disordered that  
certain kinds of food caused great dis-  
tress. My appetite was poor, and I  
was so nervous that I could not sleep  
well. I was also troubled with con-  
stipation."

"I read about Ten Herbs in the pa-  
per, and started using your medicine.  
Before long that worn-out feeling,  
headaches, and pains in my arms and  
head disappeared. My stomach got  
in such good condition that I could  
eat anything without having distress  
afterwards. My nerves were bene-  
fited, and then I could get sound,  
restful sleep. Constipation was cor-  
rected. I gladly endorse Ten Herbs  
to the public because of the way it  
ended my ailments."

Ten Herbs consists of ten wonderful  
herbal ingredients, which cleanse the  
system of old poisons, waste matter,  
impurities and troublesome gas, and  
bring feelings of new health and  
strength over the body in general. Re-  
member, every claim made for Ten  
Herbs is backed by a mass of evi-  
dence on file, including signed state-  
ments of many men and women of  
this section.

Ten Herbs is being introduced at  
Eckerd's of New Castle, Inc., 30 East  
Washington Street, this city, and is  
sold at all drug and medicine stores  
throughout this entire section.

### AGAIN!

*A&P Slashes Prices of Its Quality Coffees*

Again A&P Leads the Way with Further Sharp Reductions in the Regular Prices of Its Three Nationally Advertised Brands of Fine Coffees!

Not in five years have coffee values been as great as these now announced by A&P Food Stores. Further declines in the coffee market have made it possible for A&P to again reduce the prices of its three famous nationally advertised brands and offer them at the amazingly low prices shown here.

These three coffees are purchased by A&P's own buyers in Columbia and Brazil, expertly roasted by A&P, then rushed fresh to A&P Food Stores from nearby roasting plants. Coffee to be good must be fresh. In these three famous brands you are assured of fresh-roasted coffee. And now—at the lowest prices in five years!

### 8 o'Clock

Largest selling, high-grade coffee in the world. More pounds sold than that of any other brand. Its quality won the Gold Medal at the Sesqui-Centennial Exposition. A distinctive coffee... mellow and full-flavored. Amazing value at this new, low, regular price. This same coffee sold at 37c a pound less than six weeks ago.

## Army Will Get Small Calibre Semi-Automatic

Many New Types Of Small  
Arms Being Tested  
By U. S.

### NEW TYPE AIR CRAFT GUN SHOWN

(International News Service)  
WASHINGTON, Jan. 10.—The Ordnance department of the army is going forward with its development of a semi-automatic rifle within the limit of weight of the old doughboy's service rifle, and of a reduced calibre. It will ultimately replace the present Springfield magazine rifle, according to Maj. Gen. C. C. Williams, Chief of Ordnance, in his annual report made public today. The new calibre will be .276 instead of the famous .30 and will be adopted if tests now being conducted bear out present promise.

Gen. Williams also disclosed in his report that progress is being made in developing a new anti-aircraft machine gun, and that type of 30 calibre has been completed by the Ordnance department and the air corps with satisfactory results. The new type is described as being much lighter than the 30 calibre anti-aircraft machine gun of synchronized and flexible types now in use.

#### Ordnance Tests

Other tests and developments conducted by the Ordnance department during the last fiscal year follows: "A new type of tripod for the caliber 50 anti-aircraft machine gun, recently standardized, has been supplied to anti-aircraft units.

"A wheeled gun mount, designed to carry the caliber 30 infantry machine gun and tripod, has been tested by the Infantry, with satisfactory results, and this item has been standardized. It will enable the Infantry machine gun to be transported in such manner as to be instantly available against aircraft at all times.

"A battery of 3-inch anti-aircraft gun mounts, and one 3-inch anti-aircraft mount were tested during the 1928 anti-aircraft exercises. The performance of the battery was on the whole very satisfactory, and little need for further improvement was indicated.

#### Developing Tank Work

"Design and development on tank work during the year has been centered upon the light tank T1E2 and the medium tank T1. The design of the medium tank has been approved and contract has been entered into for the manufacture of one pilot. This tank is of greatly increased power. Shop test at the manufacturer's plant has been initiated, and it is expected that the vehicle will shortly be ready for shipment to the Tank Board at Fort George G. Meade, Maryland, for service test.

"Efforts, in cooperation with commercial industry, to develop a satisfactory tank compass have not been successful. Work on this problem is being continued.

"Four medium and two light armored cars, employing commercial automobile chassis, have been completed and have undergone an extended test with the mechanized force at Fort George G. Meade, Maryland. These cars were then transferred, under their own power, to the First Cavalry Division at Fort Bliss, Texas. Reports indicate that the medium cars have given highly satisfactory service, but that the light cars are not sufficiently rugged to withstand the severe service met with over that terrain."

## Laugh And Grow Young Version Of Old Saying

(International News Service)  
DETROIT, Mich., Jan. 10.—The popular adage "Laugh and Grow Fat" received a competitive tone here recently when Dr. Charles F. Kuhn, director of a clinic here, modified it somewhat and rendered the message "Laugh and Grow Young."

"Every smile is better than a pill and every laugh means more than a visit to the doctor. Anger is the worst poison that attacks the body. Its continued attack may cause death."

"A sense of humor, preventing anger will do more for your health than any other single thing. When your sense of humor tells you, your death warrant has been signed," Kuhn declared.

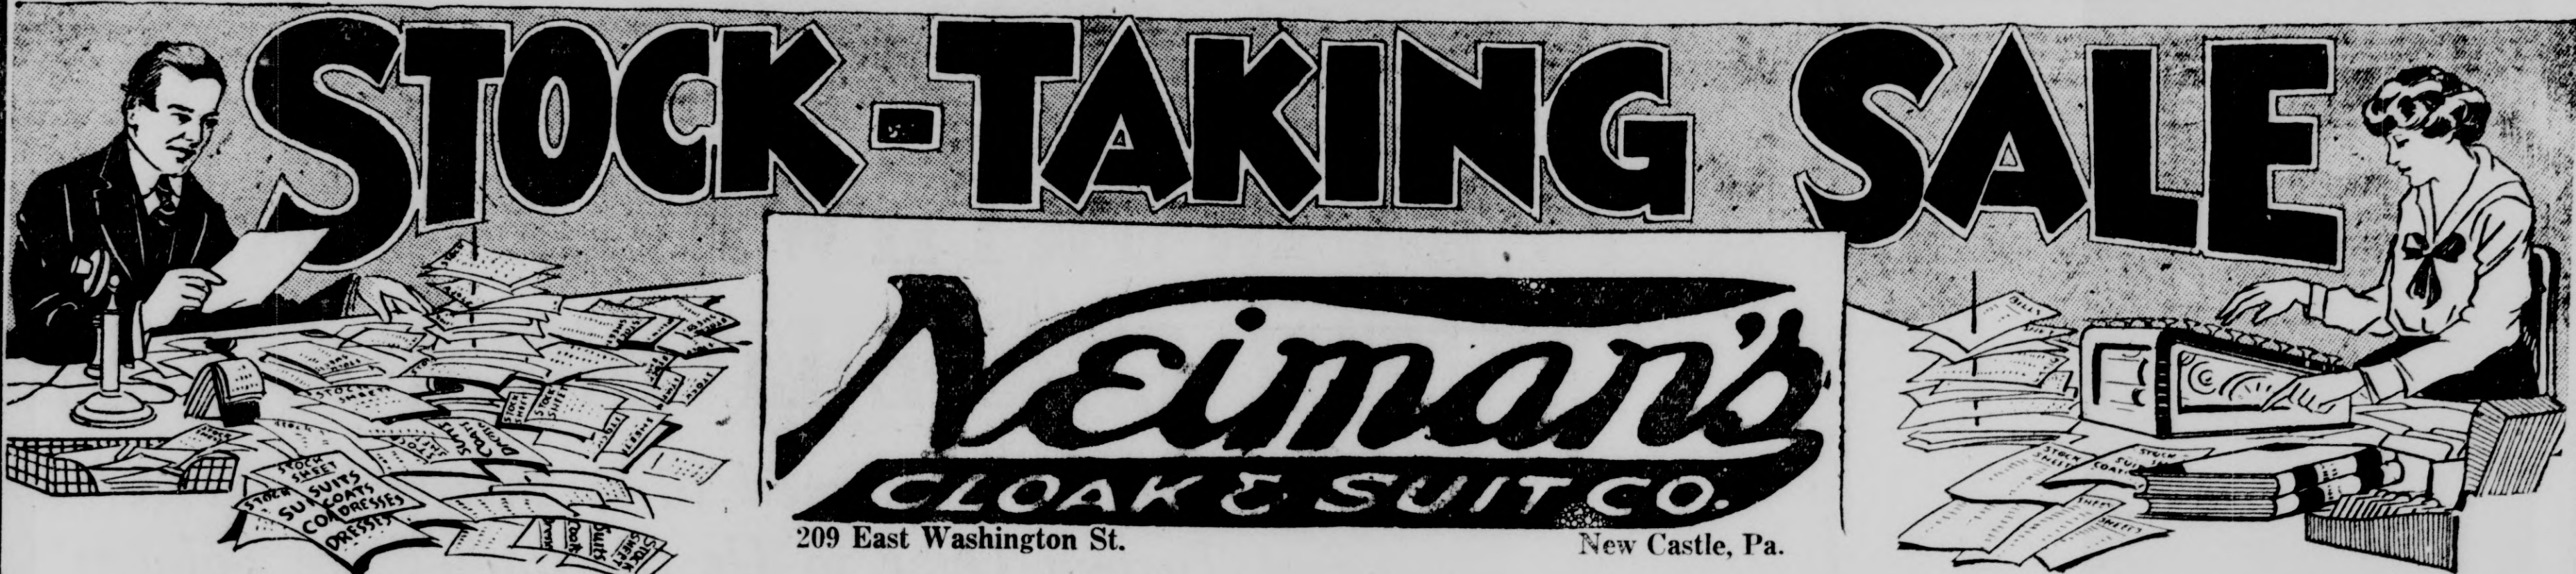

AMERICANISM: Wishing you made money enough to save a little, doubling your income and wishing you made enough to get rid of impudent collectors.

## Bo Broadway by JOSEPH VAN RAALTE

By Central Press  
NEW YORK, Jan. 10.—George Cohan is going to begin a trans-continental tour soon as far as the West Coast. He hasn't played the other side of Chi for some years, and since he's signed up with the Squawkees the movie men feel it would be the thing for Broadway Jones to let the folks for "Mitcheagan" boulevard and Hollywood get a squirt at him "in pussion."

"The Governor's Son" has one of those magnetic personalities. Make close contact with him once and the memory lingers.

THE RETORT SNAPPY  
An elderly woman stood at the desk of the St. Regis hotel the other morning. On a bench she had one of those infinitesimal things that for want of another name is called a dog. It was maneuvered, massaged, crimped, perfumed and curled within an inch of its life.

At that minute out of the elevator swept Mme. Jeritza, Metropolitan Opera House soprano, beautifully frocked and hatted and smartly gloved and shod as well. Yielding to a human impulse she stopped to pet the dog.

But the owner of The Thing saw her first. "Don't you dare touch that dog," she commanded, and reaching down she snatched Fido out of the sphere of the Grand Opera influence.

Turning to Jeritza she added by way of explanation: "He is still suffering because someone touched him with soiled hands or gloves!"

Everyone present except the dog owner knew Jeritza and gasped at the insult. The soprano drew herself to her full height and with the hauteur she displays in the title role of La Tosca bent upon the dog's owner a look of withering scorn. Snapping her fingers in the other's direction, she said: "That for your dog!" and swept majestically out to her waiting motor.

Lady Astor herself couldn't have mustered a snappier comeback, eh wot?

#### BULLET PROOF GLASS

When the Dowager Queen Mother of Roumania; King George-Lor love him!—and Ciro Terranova, of Pelham Manor, ruler of artichokedom, roll down the rue in their Rolls Royces, they loil back in cushioned ease and peer out at Hoi Polloi through bullet-proof windows.

Mussolini, Italy's Big Ben, also uses bullet proof glass on all his cars. It's popular with Central and South American presidents, but in New York, except for military and business purposes, its use is limited to motorists who have good reasons to believe that they may be shot at. And while the demand for bullet-proof glass in cars is increasing, its cost—\$2,000 per car—will confine the trade for some time to rulers and racketeers.

#### STARS AND STOCKS

Evangeline Adams, New York's leading star gazer, said over the radio the other evening that the late J. P. Morgan "had the world before him"

because he had the stars behind him." According to The Lady in the Starry Smock, it was through the stars that J. P. determined whether and when to enter the stock market and whether and when to assume the alternating roles of bull and bear.

Morgan wasn't the only financier to seek her aid, and through her the aid of the stars, Miss Adams revealed. Among others who went to her for advice and assistance she named the late Seymour Crowell, former president of the New York Stock Exchange.

SNUBBED FIRST  
Ciro Terranova, artichoke racketeer of Tammany Town's underworld, recently invaded Pelham Manor, an exclusive Westchester corner, and paid \$52,000 cash for a Spanish-Miami villa.

Terranova, with his gang of pecu-

liar friends, felt that the residents of Pelham might not take kindly to him. He didn't give Pelham a chance to snub him. He snubbed Pelham first. His favorite pastime is to haul a vintage rocking chair out on the front lawn and sit there in his shirt sleeves, with a copy of Emily Post on his lap, snapping his red suspenders at his swank neighbors as they chug past him in their \$22,000 Hispano Suzuks.

### GARDNER

Mrs. William VanEman of the old Pittsburgh road spent a little while with friends at Gardner last Saturday night.

The time for the Gardner Sunday school is now 9:45 and next Sunday there will be preaching at 11 o'clock by Rev. C. R. Heckathorne, who is a local preacher in the Nazarene church in New Castle.

Miss Isabel Zehner, daughter of Mr. and Mrs. William Zehner of the New Castle-Ellwood highway was for several years a popular teacher in the music department of the senior high school in New Castle. Since her marriage to Harold Infield, the young people have taken up their residence in Akron where Mr. Infield is a student in the law school. Mrs. Infield's charming personality and her musical gifts and accomplishments, make her absence deeply felt at the school, the Center United Presbyterian church and in the home circle. The best wishes of many friends follow these young people to their new home.

Tourists might profit by observing that working people who live on \$30 a week, get the full benefit of the climate

### Mystery Doctor Drawing Crowds

(International News Service)  
GALLSPACH, Austria, Jan. 10.—Thousands are flocking to this little town in Upper Austria which is rapidly becoming famous of a second "Lourdes." The fame of the marvelous healing powers of the "mystery doctor," Valentine Zeileis, 60-year-old physician, is spreading all over Europe, even to America, where thousands flocked to a priest's grave in Malden, Mass., recently.

Dr. Zeileis disclaims any "miracles" and says he relies only on modern scientific employment of electrical and radium rays. He subjects patients suffering from widely varying diseases to a few seconds exposure to these rays three times daily for one month with reported astounding success.

As a result of his work, the little town, which slumbered through the centuries, has become a "boom" town with modern hotels and villas being erected to take care of the thousands of visitors.

### New Wilmington

William E. Runkle of Oil City is visiting his sister, Mrs. Samuel J. Thompson.

Mr. and Mrs. James Davis and sons left recent for a several months' visit in California.

Dr. and Mrs. J. E. Clark have returned from Uniontown where they spent the holidays with their son, Dr.

Bruce Clark. Miss Lucille Clark accompanied them.

Miss Marlene McElwee has left for Philadelphia to resume her studies after spending the holidays with her parents here.

Miss Dorothy Gilchrist has returned to school at Wiloughby, O., after spending a part of her vacation with her aunt, Mrs. S. J. Thompson.

C. W. Beerbower is teaching Fayette school during the absence of the teacher, Mrs. Frances Seley, who has been called home because of the serious illness of her mother, Mrs. C. W. Cox.

Mrs. Margaret C. Mitchell is visiting her daughter, Mrs. T. G. Thompson of Cleveland. Last week Mrs. Mitchell and her daughter attended the celebration of the 50th anniversary of the marriage of Mrs. Mitchell's brother and his wife, Mr. and J. B. Criswell, of Pittsburgh.

Now Mussolini is jailing spend-thrifts. About the only human weakness still tolerated over there is swell head.

## JURIST SCORES AMERICAN LAWS AS OBSOLETE

ST. PAUL, Jan. 10.—Federal laws and state statutes of the United States are antiquated and protect the guilty rather than the innocent, in the opinion of Judge Clayton Parks, eminent midwest jurist who charged here that police of most American cities are corrupted by politics.

"The United States is the most lawless nation in the world, except perhaps Mexico," Judge Parks declared in an interview. "Most of our criminal laws come from England and are now so out of date that Great Britain abandoned them 30 years ago."

"You cannot enforce laws with a police force corrupted by politics and most of our city police departments depend for their existence upon shrewd and unethical politicians."

Judge Parks declined to recommend any specific laws, but recommended that the following alterations in court procedure be made by legislative bodies:

Permit the prosecutor to have the last argument to the jury with only limited rebuttal by the defendant's counsel.

Equalize the peremptory challenges between the state and defendant.

Change or abolish the rule that the defendant cannot be convicted on the uncorroborated testimony of an accomplice.

Give the state the right to move for a new trial on questions of law and questions of fact involving misconduct of court officers.

Prohibit publication of names of petit jurors and grand jurors.

Deny the right of separate trial where the court is convinced that the crime was committed in the company of another person.

The judge quoted figures on crime during the past decade and said criminal activities cost the United States more than \$13,000,000 each year.

## Coal Miner Actor In Stage Death

(International News Service)  
MOSCOW, Jan. 10.—A coal miner and amateur actor, Vassily Michaelovsky, gave up his life in an attempt to move to tears his booze-fighting, coal-heaving comrades who sneered at culture and laughed at him for being effeminate.

Vassily was a member of the dramatic circle in the workers' club which the Soviet government established for the miners at Stalino. For weeks he dreamed that as the hero in a pretty little revolutionary play which the club was putting on, he would show the hard-boiled savages what real art could do for the human soul. And he decided that to be realistic and moving he must use a real revolver loaded with a real cartridge when committing suicide before the eyes of the sweetheart who spurned him in the final scene of the last act.

Vassily drew rounds of applause throughout the play. The crowd went wild when he put the revolver to his heart, pressed the trigger and fell to the floor. But when he failed to take curtain calls and the actors screamed, the tough miners realized what had happened and wept.

## Prof. Phelps Of Yale Defends Yale Magazine

(International News Service)  
NEW HAVEN, Conn., Jan. 8.—William Lyon Phelps, Yale's famous professor of English, has come to the defense of "the oldest monthly magazine in the United States" in an effort to rescue it from dire straits because of the apathy of Yale students.

The publication is Yale Literary Magazine or "The Lit" on which many famous writers have gladly labored. Professor Phelps himself was once editor and admits that in his day "five editors each received \$120 as our share of the profits."

The discussion over "The Lit" is wide spread among Yale men some feeling it should be thrown over and others that it should be kept alive.

## Legion Of Honor To Meet Tonight

Members of the Legion of Honor of the New Castle Consistory will hold their regular monthly meeting in the Cathedral this evening.

A special feature of the meeting will be the formal installation of officers. A number of important business matters will be discussed during the evening. Arrangements for a feed have been completed by the entertainment committee.

## Fall Proves Fatal To Woman, Aged 91

ST. CLAIRSVILLE, O., Jan. 10.—The last of a family of nine children, Miss Mary C. Adams, 91, of St. Clairsville's oldest resident, died today from injuries sustained in a fall, pneumonia having developed. Miss Adams was a native of Baltimore, coming to Ohio at the start of the Civil War.

## HIGHLIGHTS OF HISTORY

By J. Carroll Mansfield

The Capture Of Aguinaldo (Part Five).

SEGOVIA AND HILARIO ON ENTERING AGUINALDO'S HOUSE FOUND HIM ATTENDED BY SEVEN INSURGENT OFFICERS ARMED WITH REVOLVERS. WHILE HILARIO ENTERTAINED THE REBEL CHIEF WITH STORIES OF THE LONG MARCH FROM THE SOUTH, SEGOVIA POSTED HIMSELF AT A WINDOW.

A FEW MOMENTS LATER, FUNSTON'S NATIVES WITH THE AMERICAN "PRISONERS" ENTERED THE VILLAGE. AT SEGOVIA'S SIGNAL, THEY AT ONCE OPENED FIRE ON THE ARMED INSURGENTS DRAWN UP BEFORE AGUINALDO'S HOUSE.

PUZZLED BY THE SHOTS, AGUINALDO MOVED TOWARD THE WINDOW TO INVESTIGATE. THE TIME FOR ACTION HAD COME! HILARIO SUD- DENLY FLUNG HIMSELF UPON AGUINALDO, WHILE SEGOVIA DREW HIS REVOLVER AND BEGAN SHOOT- ING AT THE INSURGENT OFFICERS.

AT THE SAME TIME GEN. FUNSTON AND THE OTHER SUPPOSED "PRISONERS" RUSHED IN AND OVERPOWERED THE STARTLED INSURGENTS. EMILIO AGUINALDO, THE "FOX OF LUZON", WAS BAGGED AT LAST! TOMORROW—THE CAPTURE OF AGUINALDO, CONCLUDED.

## Von Porat-Paulino To Battle Tonight In Madison Square

Paulino Has Never Been Knocked Out, Otto May Turn Trick This Evening

GARDEN DIRECTORS PLAINLY WORRIED

(International News Service) NEW YORK, Jan. 10.—A lot of perfect gentlemen, who ordinarily don't believe in parlor games without a chapter, will be sitting with their fingers crossed tonight right up there in the dean's pew at Madison Square Garden while Otto Von Porat and Paulino, the human Simian, serve ten rounds or less on the old sock (correct) pile. It won't be more than ten rounds but it may be less and that is why the Wall street directorate of the Garden will be holding hands right out in public. They fear that something may happen whereby this pair will get off for good behavior.

What they fear is that good old Otto will pop the other clown on the potato before the schedule finish and so make a nice round hole in their \$250,000 investment in the Sharkey-Scott show at Miami. A knockout of Paulino would mark the first time that par has been broken on this course, meaning that the Simian has been popped often but never permanently. Therefore, the man who does it—and it won't be long now—will look all too good in comparison with the others.

Schmeling Couldn't. Nearly all of them, except Sharkey, have had their shot at the man's chin. Schmeling couldn't knock him off in 15 rounds. As for Scott, he went as far as the sixth with Paulino and then was forced to stop because of a pain in his stomach. It was only a coincidence that Paulino had just hit him there.

In view of this circumstance, among others, it would do the Miami show no good in a big way if Paulino doesn't finish on his own feet for the first time in his career, for then the customers would become inquisitive about Scott's selection for Miami. Unfortunately, an inquisitive customer is seldom a buyer.

Unfortunately, too, the Garden couldn't take each querulous gent out on some windy corner and explain carefully that the knockout wasn't such a much because Paulino was all washed and ready for the ironing. The customers won't want post mortems; they will want to know why, if Paulino was so nicely laundered, somebody didn't iron him long ago. You usually answer that kind by courteously changing the subject.

Otto Gets Breaks. Anyhow, Otto gets the break of a life time in coming back to the Garden only a month after his fiasco with Scott. Paulino may not go out for the first time, particularly in a fight limited to ten short heats, but the chance is there and Von Porat can ask no more than that, after the Scott business.

The odds, at that, favor Paulino and the Garden crowd is hoping that the boys aren't in error on this point. As a matter of fact, if Paulino and Von Porat never show up tonight, it will be premature, as far as the Garden is concerned. That's the kind of a match they have made for themselves this time.

## Union High Girls Trim Mt. Jackson

Union High Girls Varsity Team Takes Close Victory 16 To 14 At Mt. Jackson

The Union High girls varsity basketball team defeated Mt. Jackson High in a close game, played last night at the Mt. Jackson floor. The final score was 16 to 14. It was an interesting and hard fought battle all the way.

Miss Patton was the star for the Union High team, caging six field goals and two fouls for a total of 14 of the 16 points garnered by her team. Miss Frank with two fouls supplied the other two points. The fine guarding of Captain Eleanor Winters was a feature of the game. The work of Miss Daugherty, Miss Snyder, and Miss Douglas featured for Mt. Jackson. Miss Edith Dille is coach of the Union girls, and Miss Sowash is the coach of the Mt. Jackson girls.

The summary: Union High 16. Mt. Jackson 14. Patton 6, Frank 2, Daugherty 2, Snyder 2, C. 1, Kimball 1, Winters 2, Lannovich 1, Campbell 1, G. 1, Fullerton 1. Subst.—Union: Donley, Kennedy. Field goals: Patton 6, Daugherty 3, Douglas 2, Foul: Patton 2 out of 6, Frank 2 out of 4, Daugherty 3 out of 5, Douglas 1 out of 2. Referee: Miss Gilkey, New Castle High.

## Shires Through After Tonight

Art Shires Says His Fight Tonight With Boston Catcher To Be His Last

(International News Service) DETROIT, Jan. 10.—While Charles "Art The Great" Shires is preparing to participate in his final boxing bout in Boston tonight, three fight promoters and managers are today seeking other tasks as a result of their indefinite suspension set by the Michigan boxing commission yesterday.

The suspended men are: Benny Ray and John Strachan, two principals in the alleged attempt to fix the fight between Shires and Nelsie Blumenthal, manager of Shires. Blumenthal has said that he will sue the Michigan boxing commission for \$50,000 for alleged defilement of Shires' character.

Shires was exonerated from all charges in the alleged participation in fixing the fight. He announced at the hearing conducted in Lansing that after tonight's match was over, he would quit the ring for good, and probably travel with a basketball team or go on the stage.

When the transcripts of the testimony offered at yesterday's hearing are ready they will be presented to Attorney General Wilbur Brucker and the commission will act on his report in regards to possible criminal proceedings against Ray and Strachan, according to Commissioner James M. Brown. The penalty for violating the law prohibiting the fixing of sporting events is a maximum fine of \$5,000 or five years in jail, or both.

Brown also says that if the investigating that is going on brings out anything against Shires, the Chicago White Sox first-sacker will be recalled by the commission.

The hearing yesterday was both definite and indefinite, but the rulers of the boxing game have another week to make up their minds and decide exactly what they are going to do about the whole thing.

## Evans Denies His Team Was Beaten

Bert Evans manager of the Central Christian team of the New Castle Church league was hot under the collar yesterday when he read where the Wampum Ex-High Stars had downed the Central Christians in a game at Wampum and penned the following letter:

"Bugs" Walther, Editor, New Castle News:

Dear Sir—I noticed in your issue of The News where the Wampum Ex-High Stars had defeated the Central Christians by a healthy score in a game played at Wampum. I wish to deny this fact and also to state that we have not played the Ex-High Stars or have we even scheduled them for a game this year. We do not mind being defeated in a regular game but we do object to being beaten in this manner and if some team is taking the liberty of using the name of the Central Christians or representing us on the basketball floor, we wish that they would discontinue this practice one and for all. Thanking you for the space in your valuable paper.

BERT EVANS, Manager Central Christians.

## Last Nights Fights

(International News Service) AT NEW YORK.—Larry Bello, New York, won a four-round decision over Jack Murphy, California.  
At Todisco, Jersey City, and Teddy Deidman, Rockaway, fought four rounds to a draw.  
Joe Kelley and Joe Marino fought to a ten-round draw.  
AT NEW HAVEN.—Bat Battalino, world's featherweight champion, knocked out Phil Verde, Rochester, in the third round (10), of a non-titular fight.  
AT MIAMI.—Eddie Speaks, Louisville, won a ten-round decision over Harry Forbes, Chicago.  
AT HOT SPRINGS.—Johnny Mason, Cincinnati, knocked out Jack Matlock, Dallas, in the fourth round.

## Golfers Start At Los Angeles

One Hundred And Thirty Four Golfers Entered In Annual Los Angeles Open

By E. W. KRAUCH International News Service Special Correspondent RIVIERA COUNTRY CLUB, LOS ANGELES, Cal., Jan. 10.—Chick Fraser of Los Angeles, Eddie Gayer of Chicago and Waldo Crowder of New York today were the first scheduled to tee off in the Fifth Annual Los Angeles Open Golf Tournament.

One hundred and thirty four players including a number of scratch and low handicap amateurs made up the field.

All were playing 18 holes today. Another 18 holes will be run off tomorrow and the 50 low scorers for the first two rounds will continue in the final and deciding 36 holes scheduled for Sunday.

Fairways Water-Logged. Water-logged fairways and thoroughly soaked greens, the result of yesterday's heavy rain, greeted the early starters and indications were that par scores would be far and few between.

The two Smiths, Joplin's famous Horton and New York's equally famous "Mac" appeared two rank as almost even favorites to lead their brother professional stars to the final wire.

MacDonald Smith has won the Los Angeles open for the past two years running and has hopes of making it three in a row by Sunday night.

Mac Smith was paired with Horton and Henry Clui for the first round today. It was this threesome that drew the biggest gallery of the opening day.

Walker Hagen, who was paired with Johnny Golden and Fred Morrison also drew his usual large quota of links fans as did Leo Diegel, the P. G. A. champion who was paired with Bobby Cruckshank and Al Espinosa.

The only way they'll be able to put teeth in the dry law is to hire dentists says Cricket Wymer, the Shenango river wisecrackers.

We heard a chap say yesterday to a blonde: "What, take you for a ride and be stopped along the road? Not me!"

Monday night will be "lodge night" for a lot of men in New Castle. The session will be held at Jolly bowl.

You may not believe it but Tiger Jack West of the West Indies is as fierce looking as an Apache Indian and in the ring he is a relentless 160 pound fury. He is tall, rangy, has a nice reach, his body ripples with muscles and according to a photograph his hair hangs like that of a sheik.

To which Henry Firpo will say: "He must be tough." And to be frank Mac Jones West of the West Indies is tough, rather ambidextrous with hand and foot and Monday night Sir Henree isn't going to be in a pink tea party. Jack wants to pull a Willie Davies and make his reputation here.

By the way what has become of Willie Davies, Midget Wolgast, Johnny McCoy, Frisco Grande, Ernie Peters and some more of the 'frys' who put the crowd in pugilistic delight. They collected a lot of money here, went to Madison Square Garden and Toronto and its seems as though flyweights have expired in popularity.

They say that Paul McCullough, the pitcher will hurl for Minneapolis in '30.

Jewis Coen will return to Massillon. It looks as though Sank McCullough and Huff will also return. Sankie is still the property of the Giants we hear.

What about a crackerjack baseball team for Centennial field next season? The time is ripe to organize. According to predictions the present year will be a big one for sports of all kinds. The prosperity wave in athletics however may not reach momentum until the summer breezes blow.

George Perotta hopes to lay a hairy paw on the chin of Joe Midway and Joe has a similar hope. This augurs well for a spectacular slambang semi-final.

## West Has Scored 34 Kayoes In 61 Fights

By ED FRITZ

Fistic lovers wit ha been penchant for a real drama in punch should see a grand finale long to be remembered when Indian Tiger West and Henry Firpo meet Monday night at Jolly Bowl. The Tiger has collected 34 knockouts of 61 battles and Firpo has administered 20 sleep potions in approximately 50 engagements and when the middleweights snap into action we expect to see many of the dyed-in-the-wool fans to lose their self control.

According to what Larry Gent, deputy boxing commissioner and a number of others versed in boxing have told us, this West Indian is nobody's sap and is actually one of the best middleweights in the world. So far as we have been able to learn Firpo has yet to be defeated by a legitimate middleweight—that is a fighter who has not weighed more than 160 pounds on the day of contest.

Firpo took on Johnny Burns and Harry Fuller. When they weighed in they tipped the scales at a poundage more than 160 which automatically placed them in the light heavyweight division and as yet the theory that "a good little man" cannot beat a good big man has not been disproved. But there is one thing certain, Mr. Firpo has always gave the fans a real run for their money.

Prepared To Claw

The Tiger is comin', prepared to go! He knows he is good and that typifies confidence. He holds a victory over Joe Anderson, Cincinnati, who beat Ace Hickins. Harry Williams who fights at Pittsburgh is one of West's knockout victims. Roy Williams, Battling Hill, Bert Paxton and Pedlar Palmer are among those defeated by the Indian who recently chalked up victories over Harry Fuller at Oil City and K. O. Kelly at Franklin.

He put Fuller down on the canvas and gave him a real lacing according to Broadway Johnny Cox who handled him at Oil City. Firpo did not put Fuller down here but he did at Erie. While West holds one victory over Fuller Firpo has won two of three fights. In addition Firpo has drawn with Jack McVey and recently won a fight at Louisville. The Indian and Louisvillian are well matched in weight, height, ability and both are cunning.

And now something more about this West Indian. He is a real bonafide West Indian and his real name is Fighting Moon War Eagle. He is a descendant of some of the inhabitants that Columbus first gazed upon in 1492. Being a West Indian and somewhat unacquainted with our ways he had a tough time breaking into the fight game and has only reached his present position through ability, rather than an exploitation agent and publicity.

Scintillating Semi-Final Firpo is a German-American. His correct last name is Heintleman. When Llus Firpo came to the United States with his rubber collar and collected a broadside of publicity and money for the punches he gave and received this young chap, Heintleman wanted to be a "bruiser" any when he first entered the ring asked to be called "Young Firpo." After a successful run he asked the "newspaper boys" to call him Henry, so Henry it is.

George Perotta and Joe Midway, middleweights, are keyed up for their brilliant bout listed for six rounds. Some fans believe that the rivals will be so anxious to finish each other they'll stand in the middle and slug it out in a couple of minutes. Maybe they will and perhaps they won't. Perotta is a more experienced middleweight than Midway but he lacks the youth of Midway.

Jimmie Dime, who once shouted the praises of Perotta will second Midway while Jimmie Dunn who advised Firpo the night Henry put Perotta away will be in George's corner. There's lots of rivalry in this bout and don't forget that. Dime doesn't like to see any Dunn fighter beat a Dime protegee and Dunn doesn't relish the sight of a Dime battler winning over one of his boys.

Perotta Dangerous Perotta has been training for three weeks. Midway never stops training. Perotta and Midway are what can be termed right hand punchers. Perotta's left hook is better than that of Midway but whether George's chin is stronger than Midway's remains to be seen. His legs may also lack the strength that Joe has. At any rate there'll be a fight—one which will mean more battles for Perotta or his demise as a semi-finalist hereabouts.

Meanwhile Mickie Solomon will be sitting close by licking his chops. Mickie has been going 'good guns' and the winner, after a few more bouts if fought successfully will no doubt dust a meeting with Solomon. No

one has ever accused Mickie of turning down fights and what would be more natural than a Perotta-Solomon or Midway-Solomon fight, providing they progressed and collected sufficient ability to meet the Dutchman?

Must Secure Licenses Busy Buz Hardy of Beaver Falls and Al Farone of Pittsburgh, featherweights and Eddie Lawrence of Akron goes against Marshal Crochette of Utica in six round battles. There ought to be enough slam in these two six rounders to whet the appetite of fans for the semi-final and main battles and if conjecture proves right the fans ought to witness action and punch galore Monday night.

## Industrial League Ends First Half

The Industrial Duckpin bowling league ended the first half of the season last night. The New Castle Tin Mill team leads the league with 35 victories and only 8 defeats. The Shenango Tin team is in second place with 27 wins and 15 defeats.

The second half of the season gets under way next week. The winners of the second half to play the New Castle Works for the title. The winners of the title to enter the Penn-Ohio championship tourney in the spring.

## Four Games In Church League

Four games will be played in the New Castle Church League tonight. The games start at 8 o'clock.

The Croton M. E. and Wesley teams tangle in the first tilt, the others follow in order—Mahoning M. E. vs Central Presbyterians; Temple Israel vs Highland U. P.; First M. E. vs Central Christians.

Saturday night two games will be played as follows in conjunction with the City League game. The church league games will be played first tomorrow night, starting at 7:30 o'clock. The Third U. P. team tangles with the St. Johns Lutheran team, and the Croton M. E. and Epworth teams battle in the second game.

The City League offers tomorrow night the following game—Tody Five vs the "Y" Senior Class team, this game follows the two church league contests.

## "Dukes" Announce Football Card

Duquesne University today announced the 1930 football program. Several new schools are added to the list, by Coach Elmer Layden and Graduate Manager Holohan. The program for 1930: Sept. 20—West Virginia. Sept. 27—Slippery Rock. Oct. 4—Detroit Tech. Oct. 11—At Loyola U. (Chicago). Oct. 18—Howard College. Oct. 24—Catholic U. Oct. 31 or Nov. 1—W. Va. Wesleyan. Nov. 7 or 8—North Dakota U. Nov. 15—At Geneva. Nov. 22—Providence College.

## Geneva-Allegheny Win Floor Games

Geneva College basketball team opened the home season last night on the Beaver Falls High school floor by downing Canisius College 27 to 16. Fredman and Ransom were the "big shots" in the Geneva lineup with three baskets apiece.

Allegheny College floor team sounded a warning to the district teams last night by socking Waynesburg for a row of collar buttons, 35 to 23, in a game played at Waynesburg. Dennison, Bair and Avery seemed to have a corner on the field goal market with thirteen buckets between them. Allegheny on the previous evening dusted off W. & J. by a 40 to 20 count.

## UNION DEFEATED BY MT. JACKSON

Township Boys On Short End Of Score Throughout Game; Score 20 To 12

A capacity crowd was on hand to see the Mt. Jackson high basketball team take over the Union high quintet by the score of 20 to 12, in a game played last night on the Mt. Jackson school floor.

Union failed to score one basket during the first period of play, which created a handicap that could not be overcome during the remaining three quarters of play. The victory of Mt. Jackson was well earned.

At half time Union was trailing 14-4 and at the opening of the closing stanza the score stood against them 16 to 10. In the final period Union scored two double-deckers while the blue and white clad players of Union found the basket only once.

The lineup and summary: Union 12. Augustyn 2, F. 1, Daugherty 2, Critchlow 1, F. 1, St. Clair 1, White 1, C. 1, Casto 1, Campbell 1, G. 1, Pitzer 1, Jaworski 1, G. 1, Gilchrist 1. Substitutes—Union: Zereema for Augustyn; Mt. Jackson: Gilmore for Casto. Field goals: Daugherty 3, St.

## Carnegie Team Adds Two More Victories

Opposes Strong And Undefeated Wampum High Stars At Auditorium Monday

The Carnegie Midgets gave the Pontiac Midgets a royal trouncing last night when they defeated them by the score of 47-13. The entire team shared in the honors, each having over two field goals. Meider and Caven starred for the losers.

Last Wednesday the Carnegie boys defeated the Trojans at the Auditorium to the tune of 37 to 9. In this game Ross and Gallagher played best for the winners while Reider and Dell were outstanding for the losing team.

Next Monday evening the undefeated Wampum High Stars will be opposed at the Auditorium.

Being good won't make you rich. Bootleggers still thrive, thus indicating that people who lost all in Wall street were dry.

## Art Shires Given Clean Bill From Michigan Solons

Michigan State Boxing Commission Rules Shires Had No Part In Alleged Fixing

(International News Service) DETROIT, Jan. 10.—Charles Arthur Shires Thursday was exonerated by the Michigan Boxing Commission after a hearing conducted in Lansing.

Shires was thereby given a clean slate and was freed of all blame in the alleged attempt to fix a fight in which he was scheduled to appear in Detroit.

The hearing, however, has not been completed and will be continued in Detroit a week from today. Benny Ray, Detroit fight manager and promoter John Strachan, charged with the attempt to fix the fight, may face criminal prosecution and the possibility of five years in prison and \$5,000 fine as a result of the hearing.

May Prosecute The transcript of the testimony taken here will be turned over to the attorney general and the may ask warrants for Ray and Strachan and prosecute them criminally under the statute.

Nessie Blumenthal, manager of Shires, said that he would bring suit for \$50,000 against the State Boxing Commission for defaming Shires and his character.

Stanley M. Issacs of Cincinnati, president of the National Boxing Association, who was present at the hearing, said his association would abide by the Michigan commission's action in determining whether Shires should be barred or re-instated in those states under the N. B. A.'s jurisdiction.

Shires said that after his fight with Sphorter in Boston he would quit boxing for good.

## New Castle To Play Zelienople Tonight

Local Quintet Has Average Of 26 Points Per Game; New Castle Is Undeclared

Red And Black Cagers Have Won Four Games; High Girls In Preliminary

An overflowing crowd is expected at senior high gym tonight to watch New Castle basketball quintet battle it out with Zelienople in the fifth floor contest of the year. This will mark the second league game of the W. P. I. A. L. The game will start promptly at 8:15. A preliminary game between the New Castle high girls and the Alumni will take place at 7:15.

**Locals Have Good Average.**  
To date the red and black cohorts, aside from winning four games, have an average of 26 points per game. New Castle's opponents have scored a little better than 15 points a game. This shows that the defense which Coach Bridenbaugh has developed is hard to penetrate.

A good crowd is expected to attend the fracas which is predicted to be fast. The fans should greet the boys following their three games with schools in different sections of western Pennsylvania. First Wilkinsburg high was played and at the end of the game the locals came through with a 28-16 victory. The first W. P. I. A. L. game found the locals at Mars. The game turned out to be one of the best ever seen at Mars. The locals won by one point, 19-18. Following this game the local cagers played at Washington, Pa., on Wednesday night and at the end of the game had piled up a 38-13 score.

The New Castle high girls will start their season this evening by playing the Alumni at 7:15. A good game is anticipated.

Coach Bridenbaugh will probably use Francis Wanig, Russell Hannon or Luther Rowe at the forwards, Arthur Alexander at the center position and Nick Uram and "Red" McAuley at the guard posts.

**Hog Caller On Radio Recognized By Porker**

STEAMBOAT SPRINGS, Colo., Jan. 10.—A hog caller's voice over the radio brought a hog from his pen here the other day.

Mrs. Thomas Wheeler and a number of friends were listening to a radio hog calling contest being broadcast from Prairie View, Kan.

As the third contestant was going at his best, a hog in the rear of the house left the pen and traveled at a rapid pace 100 feet to the kitchen.

**Party Is Planned By Vets Auxiliary**

Arrangements have been completed by the Ladies Auxiliary of Harry L. McBride Post Veterans of Foreign Wars for a card party to be held Thursday evening, January 16 in the post rooms in the Legion home building.

All members of the McBride Post and the public at large is invited to attend and take part in the activities of the evening. A good program is being arranged by the committee in charge.

**Sure Way to Get Rid of Dandruff**

There is one sure way that never fails to remove dandruff completely and that is to dissolve it. Then you destroy it entirely.

To do this, just get about four ounces of plain, ordinary liquid arvon; apply it at night when retiring; use enough to moisten the scalp and rub it in gently with the finger tips.

By morning, most, if not all, of your dandruff will be gone, and two or three more applications will completely dissolve and entirely destroy every single sign and trace of it, no matter how much dandruff you may have.

You will find, too, that all itching and digging of the scalp will stop instantly, and your hair will be lustrous, glossy, silky and soft, and

## Get Post Cards After 20 Years

JEANNETTE, Pa., Jan. 10.—Two post cards were received in the home of William C. Donaldson of Penn last Thursday that were mailed almost 20 years ago. One was mailed in Greensburg, July 14, 1910, by Miss Annette Terill and was addressed to Mrs. W. C. Donaldson, Penn. In addition to the Greensburg stamp, which shows the card mailed July 14, 1910, at 8 a. m., the card bore the Shanghai, China, postmark of September 12, 1929.

The other card was received in Penn in the same mail bore the East Liberty postmark of May 23, 1910, and was written by Miss Bessie Donaldson of East Liberty.

## Dentist's Bill In Mail Three Years

RENSSELAER, Ind., Jan. 10.—Edward Ranton of the Trust & Savings Bank here, Kicked his natural teeth, showed his hat far down on his head and fairly ran to the Harry Wild Automobile Agency.

"What does this mean?" he demanded, showing an envelope under Mr. Wild's nose.

The envelope contained a statement from the Wild Automobile Agency. "I owe you nothing," Ranton declared. "Paid it long ago."

Wild glanced at the statement and saw it was dated January.

"We haven't sent out our January statements yet," he said perplexed.

Further investigation showed that the envelope in which the statement arrived was postmarked February 4, 1927.

Then both agreed that the post-office department had created a speed record for handling this piece of mail.

They journeyed to see Postmaster News about the matter.

"Quick service," they chorused, "delivering a letter nearly three years after it was mailed."

The postmaster denied the imputation against the postoffice and countercharged that the sender of the statement probably carried it in his pocket for nearly three years.

## Rural Mailman Rigs Treads, Skis To Car

MOCCASIN, Mont., Jan. 10.—Seldom is it that human ingenuity can not prove superior to the elements. For instance, rural mail carriers of this district were faced this winter with the problem of delivering mail to farmers on remote and snowbound routes.

Ben Skages set the winter transportation style by attaching caterpillar snow treads and skis to his coupe. Depth of snow holds no fear to him now; he skims over the snow crust like a jack rabbit and delivers mail promptly to isolated farmers.

## Hockey's Most Colorful Star

Eddie SHORE - FAMOUS ACE OF THE CHAMPION BRUINS - THE BIGGEST BOX-OFFICE MAGNET IN ICE HISTORY.

The zippiest and most popular of cold winter sports is hockey, and the very same adjectives justly can be applied to that game's famous Eddie Shore, right defense of the world's champion Boston Bruins.

Shore is verging on thirty, having played important amateur and professional hockey for a little more than ten years. He did not become a pro until he was twenty-four, as thoroughly seasoned a player as ever entered a big league.

A decade ago when starring with St. John's College of Canada, Shore was called "The Galloping Cobweb." He later featured with the Melville Millionaires and the Indian Head Tigers. Eddie became a pro with the Regina Capitals, later joining Edmonton in the old Western League.

Boston bought Shore for the proverbial song in 1925. It soon became clear that Eddie deserved the sobriquet of "The Galloping Wonder," for, while he spent hours in penalty cages, he played a wov of a hard-hitting game from the start.

With the merciless might of a Nagurski or Parkinson crashing a football line, "Shatter 'em" Shore is wont to rip through both offenses and defenses—a Thor and Mercury combined

on skates; with all the devastating dash of a Dempsey in his prime and all the punch of Babe Ruth just as he "rides" a homer into distant bleachers.

Yes, "The Galloping Cobweb" savors both of Dempsey and of Ruth when it comes to what sport bugs call color.

And it's color that brings the coin to the box office and to the star with it. Shore is reported to be the highest paid hockey player—getting about \$15,000 for the five-month 1929-1930 season.

## Presbyterians To Have Conferences

A meeting of rare interest to Presbyterians of this section will be held in the West Middlesex Presbyterian church Wednesday January 15 beginning at 2:15 p. m. and continuing through the evening. Supper will be served by the ladies of the church.

A team of speakers from the Board of Christian Education will make the addresses. The churches interested in this conference at West Middlesex are Neshannock, at New Wilmington; Pullaski, New Bedford, Sharon, Sharpville, Transfer, Clarksville, Farrell

and Unity at Greenfield and West Middlesex.

A similar conference will be held Thursday January 16 at New Castle in the Central Presbyterian church.

**Progressives Win From Comrades 17-14**

The Progressive basketball team added the Mahoning Comrades to the list of victims on Thursday evening at the Seventh Ward floor. The score was 17 to 14.

The half found the Progressives ahead 16 to 8. The comrades rallied in the final half and nearly upset the Progressives. Johns and Stewart played best for the winners, with Ungant and Holliday the best for the losers.

#### Insurance Men Hear Coolidge Broadcast

#### Ex-President Has Life Insurance Subject For Talk From Florida Station

Members of the New Castle branch of the Pittsburgh Life Underwriters' association heard ex-President Calvin Coolidge's address on "The Economics of Life Insurance," broadcast from Florida last night, at their regular meeting at The Castleton. A radio was furnished for the evening through the courtesy of a local firm.

Present for the evening was Mr. Golden, Pittsburgh life insurance man who gave a scholarly address on "Insurance From the Investment Standpoint." Mr. Golden is a former coach of the Penn State football team and is known by many throughout western Pennsylvania.

S. S. Myers, secretary of the organization, also presented a selling demonstration that was instructive.

#### Hearing Is Held In Cialella Case

Testimony was taken before Alderman L. C. Mantz this forenoon on a charge of involuntary manslaughter made against Kirk De Lorenzo in connection with the death of Clementino Cialella, who was killed by a Wilder and Conover truck at the corner of Home and Mercer streets.

The accident happened on December 6, 1928, and a coroner's jury at the time found that the death of the little girl was due to an accident. It appears, however, that the family of the girl has not been satisfied with the finding and recently brought an involuntary manslaughter charge against the driver of the truck.

Considerable testimony was taken this morning after the case was continued until next Tuesday when additional testimony will be taken.

#### Heroin Addicts In N. Y. Drug Victims

(International News Service)  
NEW YORK, Jan. 10.—Although the legal manufacture and importation of heroin was discontinued five years ago, heroin addiction comprised 60 per cent of the 550 cases studied in the past year by the New York Narcotic Survey committee. The findings of the committee were recently made public here and filed with President Hoover's commission on law enforcement and observation.

Morphine was the drug addiction of 26 per cent of the cases studied, opium of 15 per cent and cocaine of less than one per cent. Sixty-five per cent of the addicts confessed to the use of drugs for from five to 25 years.

Twenty-two per cent were addicts for less than five years. Only five of the 550 were under 25 years of age, the majority being between 25 and 35. Bad associations were responsible for 24 per cent of the cases. Three hundred and twenty-four patients had taken previous treatment for drug addiction.

#### Crop Output Of 1929 Matches Average

(International News Service)  
WASHINGTON, Jan. 10.—The Department of Agriculture reports producers of potatoes, dairy products, cattle and poultry are turning out a "relatively strong production and marketing position which forms a substantial element of stability to the general business situation."

The total crop output for 1929, however, was short of that of the previous year but only slightly below the ten-year average.

Hogs slaughtered between July and September were 20 per cent greater in number than those marketed in corresponding months in 1928, while 10,889,314 bales of cotton were ginned up to November 1 against 10,162,482 ginned up until the same month last year, the department said.

## NEW YORK STOCKS

## Steel And Utilities Stocks Are Leaders

(International News Service)  
NEW YORK, Jan. 10.—The steel stocks and the utilities were the leaders this morning in a moderate upturn of prices, which carried prices of a dozen or more of the favorites a point or more above Thursday's final levels.

United States Steel and Bethlehem forged ahead behind a strong buying demand, accompanying the reports of higher operations in the mills of these giant corporations. From a low of 4 per cent of capacity operations in last December, Bethlehem has expanded to 71 per cent of mill capacity and U. S. Steel Mills are now functioning 65 per cent of capacity, according to reports received today. This is the most favorable news of the business revival since the break in the market last October.

Bethlehem sold up 97½ for a new

gain of 2½ points and a recovery of 11½ points from the low of last week. United States Steel at 173 showed a recovery of 15 points by the latter comparison. Central Alloy Steel, Vanadium and Crucible rose about a point each. The steel tonnage report due at noon, was expected to show an increase of 200,000 tons in the December incoming orders.

The utilities sold at slightly higher price levels than in yesterday's market, but new advances were comparatively small. The coppers and motors were under profit-taking and the oils slumped off on the renewed price cutting in the industry.

Gold Dust continued its confident upward move and reached a new high at 42½.

Call money was unchanged at 4½ per cent.

HOUSTON, Tex., Jan. 10.—Justice court was jammed as usual and the magistrate was dismissing cases or assessing penalties as fast as they came before him.

One portly man fell victim to after-luncheon drowsiness, dis-

regarding the court, he slumbered on. The case of a negro charge with petty theft was called. The assistant district attorney almost finished with the first witness when the negro defendant, his face a perfect picture of something wrong, leaned over and asked the deputy sheriff: "Mistuh sheriff, wud y'all min wake up dat man—he's mah lawyer." The case was dismissed.

PEAR AND TOMATO SALAD  
Sliced chilled tomatoes and lay one slice in each of eight individual nests of lettuce. Place a pear half on top of each, cut side up. Mix one cream cheese with three tablespoons of chili sauce, and pile in the pear cavities. Garnish with strips of pimiento and serve with either mayonnaise or French dressing.

LESS VICIOUS RESULTS  
"One of the most vicious results of liquor law enforcement has been its wholesale corruption of the police forces of the country."

"I know of no one in this country more competent to testify as to the advantages to the community of the absence of law that breeds corruption than Governor Ritchie, for he talks facts, and that is what the people want."

## Ritchie Takes Liquor Speech To Bostonians

Will Tell New Englanders How Law Is Observed In Maryland

### STATE NEVER HAD PROHIBITION LAW

(International News Service)  
BOSTON, Jan. 10.—Merely to tell the people of Massachusetts the facts concerning the liquor situation in Maryland, which never had a State Prohibition Act, was the purpose of the visit here on December 10, of Governor Albert C. Ritchie, who accepted the invitation of the Liberal Civic League of Boston.

William H. Mitchell, chairman of the League in making the announcement of the Governor's visit to Boston, explained that Governor Ritchie was not coming here to inject himself into Massachusetts politics, "or tell the people of this state how to vote."

"He comes on the invitation of a group of Massachusetts citizens, and as governor of a great state, to explain the experience of Maryland without an enforcement act, to describe conditions there and to give such practical information as the people of this state and all others may desire to take into account in deciding for themselves what they would like to do with the problem of liquor law enforcement," Chairman Mitchell stated.

The great question which the voters of Massachusetts will face next year should not be taken to the polls until every phase of it has been examined and the people of Massachusetts, we believe, will welcome whatever contributions Governor Ritchie can make on the subject.

Less Vicious Results

### Says Trains Will Run At Higher Speed

(International News Service)  
ST. LOUIS, Jan. 10.—Within the next few years, passenger trains will operate on roller bearings at speeds up to 100 miles per hour—this was the prediction of Major Walter C. Sanders, general manager of the railway division of the Tinkler Roller Bearing Company, of Canton, Ohio.

Mr. Sanders' prediction was made before the Car Foremen's Association of St. Louis recently.

Man Is Freed While His Lawyer Sleeps  
HOUSTON, Tex., Jan. 10.—Justice court was jammed as usual and the magistrate was dismissing cases or assessing penalties as fast as they came before him.

One portly man fell victim to after-luncheon drowsiness, dis-

regarding the court, he slumbered on. The case of a negro charge with petty theft was called. The assistant district attorney almost finished with the first witness when the negro defendant, his face a perfect picture of something wrong, leaned over and asked the deputy sheriff: "Mistuh sheriff, wud y'all min wake up dat man—he's mah lawyer." The case was dismissed.

PEAR AND TOMATO SALAD  
Sliced chilled tomatoes and lay one slice in each of eight individual nests of lettuce. Place a pear half on top of each, cut side up. Mix one cream cheese with three tablespoons of chili sauce, and pile in the pear cavities. Garnish with strips of pimiento and serve with either mayonnaise or French dressing.

## Old Chimney Is Blackbird Trap

LATROBE, Pa., Jan. 10.—Deputy Game Warden Dieters of Derry has discovered an unusual trap which proved responsible for the death of some 200 blackbirds. Game Protector Ralph McKissick of Latrobe Dieters found an old, abandoned house near Derry. The birds gained entrance to the house through a chimney, but were unable to find their way back. Closed windows and doors prevented their escape and they died from starvation. In order to save other birds which might travel the same route while migrating, the game protectors broke out several windows.

# Steel Stock Is Forged Ahead On Tonnage Report

Industrial Stocks Able To Make Headway Today Against Heavy Load

By W. S. COUSINS  
International News Service Financial Editor  
NEW YORK, Jan. 10.—The leading industrial stocks were able to make considerable headway today against a heavy load of speculative selling and profit-taking, which appeared whenever favorable industrial news was issued.

The formation of a new \$500,000,000 pool, with \$250,000,000 already paid in, was reported to have started operations in key stocks, like Anaconda, Copper and Bethlehem, and to have already accumulated thousands of shares of representative stocks.

**Steel Stock Up**  
Strength and activity of the steel stocks preceded the publication of the steel corporation's December unfilled tonnage report, showing an increase of 291,848 tons in incoming orders for the month. Bethlehem forged ahead to 97 1/2 and U. S. Steel to 173, but a burst of profit-taking forced them back to lower levels.

The food stocks continued the forward move which has been in progress since Monday. Gold Dust and standard brands in the low-price division, an National Biscuit in the high-priced group made the best market records. Gold Dust advancing to 43 and standard brands to above 28. Market gossip linked Gold Dust in a merger with National Biscuit, to form a combination that would control a large portion of the trade-marked food goods sold in local and British markets.

## Negro Confesses To Being Member Of Holdup Gang

Confession Made By Negro That He Was One Of Three Hold-up Men To Kill Policeman

(International News Service)  
PITTSBURGH, Jan. 10.—Phillip Fears, 17, a negro elevator operator, confessed today, according to police, that he was one of three bandits who killed Patrolman James E. Hughes following a holdup here December 27. Police say that Fears, who was arrested in Canonsburg, Pa., charged with stealing an automobile, has named his two companions and that the search for them is underway.

**Confession Signed**  
In his four page signed confession which followed 12 hours of grilling, police say, Fears is alleged to have told that he stood outside the store while his companions robbed the grocery of Morris Pechersky, a clerk and a customer of \$117.

After the robbery, the bandits fled to Center avenue where they saw a plainclothesman alight from an automobile. When he approached, according to the alleged confession, the bandits ran. One of them stopped behind a telephone pole and fired. Fears is alleged to have said he did not receive his share of the money.

Hughes, a negro, was one of the oldest members in point of service, on the east end police staff. He died with his gun in hand, in an effort to shoot down his assailants even after he was fatally wounded.

## Preaching Mission Plans Are Maturing

Various churches participating in the preaching mission which will be held in the First Methodist church January 20-26, are fast completing their plans to help make this a week of great interest and power in church life.

The churches taking part in this preaching mission are all of the Methodist churches in New Castle, East Brook, Edinburg, Greenwood, New Bedford, New Wilmington, Pulaski, Savannah, Volant, Wampum and Hillsville. There are 17 pastors and about 4,800 laymen connected with this group of churches. Representatives from other churches in New Castle district will attend some of the services.

The definite purpose of this week of unusual services is to deepen the spiritual life of the church members and to challenge their loyalty to Christ as his representatives in the world.

When you walk into the barber shop don't mind it if the barber keeps a suspicious eye on you until he gets the bib tucked under your chin and your face covered with lather. And if his eye keeps running back and forth between you and the tonic bottles don't feel affronted. He is merely trying to protect his property.

Those jokes about drinking hair tonic aren't such jokes after all if some of the barbers are to be believed. They have plenty of difficulty keeping some of the confirmed scoundrels from coming in and licking up the stuff that grows hair on bald heads (that's what the advertisement says.)

In one of the down town shops a chap would be a good night to watch just as he was coming out of a bend. Bloodshot eyes, twitching muscles and the rest of the sad story and he wanted something to hold him. Walking over to one of the hair tonic bottles he drank about the amount you would get in four treatments and walked out of the shop improved.

Lilac, bay rum, witch hazel or what flavor do you prefer? And I was just wondering what effect that stuff has on the stomach lining when the application of it to the scalp sometimes feels as though a bonfire had been started just at the roots of the hair.

With Westminster's basketball away in a cloud of dust seems like tonight would be a good night to watch them cage a few Thiel is the opposition and it still should be worth watching. Opening of the regular season and all that sort of things.

Andy McDonald really should get out his hard boiled shirt and trick clothes for an event of this nature. Seeing Andy in full evening dress is worth the price of admission even if the game isn't so hot.

Seems as though the women read this column also. Some mention was made the other day about a lady in the city who cleaned up on the Pittsburgh Southern California football game and after reading it his wife insisted upon a fifty-fifty split. He insisted that the figures quoted here were high but this is one time the young lady believes what she sees in the paper.

He is endeavoring to match up the school teachers' team with the News editorial, but thus far the match making effort has been in vain. The feeling of the News household seems to be this: if we win the public would say it was no credit and if we lose Wes Davy would never get over it.

## Ten Below Zero In Midwest For New Low Record

Arkansas, Kansas Reports Coldest Weather In Past Ten Years; Mercury Real Low

(International News Service)  
ARKANSAS CITY, Kas., Jan. 10.—Another weather record was on the books today. The mercury last night went down to 10 degrees below zero, the coldest in this section in ten years.

Ten inches of snow was reported. Livestock was hit hard by the extreme cold.

## College Student First Worked Way In 1653

WASHINGTON, Jan. 10.—Entering Harvard at sixteen, and graduating at eighteen, Zachariah Bridger was the first student in North America who worked his way through college, according to information given out by the Bureau of Education today.

One of many payments to him recorded in the steward's books show there was "given him by ringing the bell and wayting \$1.25, 6d" the first known case of an American student earning part of his expenses by ringing the college bell and waiting on table in the commons.

## Psychologists Suggest Help For Flaming Youth

(International News Service)  
CHICAGO, Jan. 10.—The spiritual sickness of flaming youth was proffered the following remedy by various sociologists and psychologists who spoke here this week:

Guide youth, don't goad it. Slip religion surreptitiously. Give it responsibility to lessen its indifference.

Do away with the shams, superstitions and the old hocus pocus and give it stark reality.

Give it beauty, intellectual respectability and vital religious contacts with genuine personalities.

Funny man! It took him five million years to develop a house to keep the cold out and then he opened the windows.

## Four Known Dead In Southwest As Result Of Snow

Southwest Digging Out From Under Heaviest Snowfall In Past Several Years

## KANSAS CITY HAS FIFTEEN INCHES

(International News Service)  
KANSAS CITY, Mo., Jan. 10.—The southwest was today digging out of one of the worst snow and sleet storms that has visited this section in years.

Four deaths have been attributed to the fury of the blizzard, two in Missouri, one in Oklahoma and one in Kansas.

Mrs. Elgie Brown, 24, Fordland, Mo., was killed when two motor cars, their drivers blinded by snow and sleet, collided near her home. Miss Maud C. Andrews, 40, Kansas City, Mo., died from a heart attack after she had struggled through heavy snow drifts on her way to work.

Edward Hensy, 61, retired farmer, of Arkansas City, Kas., died from over exertion clearing snow from his sidewalk.

James Akeridge, 10, was killed when

his sled was struck by a skidding motor car at Elk City, Okla.

It is believed the death list resulting from the storm will even go higher as reports come in.

Telephone service has been greatly hampered by the snow and sleet. Hundreds of extra men have been put to work repairing damaged lines. Buses are running behind schedule as are trains. Traffic is paralyzed.

Approximately a 15-inch blanket of snow covered Kansas City. Six hundred men are laboring to clear the snow away.

Texas was in the grip of icy weather accompanied by snow and sleet. Traffic was disrupted and intense suffering to stock was reported. The mercury hovered far below the freezing point.

Many sections in Missouri reported a snow fall of more than a foot in depth.

Sections in Kansas reported a fall of from seven to twelve inches.

Oklahoma also reported that a heavy mantle covered the ground.

Heavy snow and sleet fall was reported in Arkansas.

Despite the fact the storm caused much suffering, farmers are benefitting it with joy as the snow will banish crops.

Zero and near zero weather was the prediction of the southwest today. No snow was predicted for Kansas City by the weather bureau.

A family bulletin board is a most convenient asset to a home. Here directions may be written, reminders jotted down, etc. If a bulletin board is not feasible in your family, then set aside a certain place where notes may be left for each other. At home we always left them on the music rack of the piano.

## 74 Bottles Is 'Home Sweet Home,' 75 Is Merely 'Beer Flat'

CHICAGO, Jan. 10.—The legal dividing line between a home and a beer flat, was set by Judge Joseph W. Schulman today at 75 bottles of brew.

Mrs. Emily D. Dean was on trail because Sergeant Clarence Sweeney found 75 bottles in her apartment last week. She insisted they were for home use in connection with a forthcoming party.

"Madam," Judge Schulman said, "no home can have 75 bottles of beer and not be a beer flat. There is a beer capacity for homes, and that is reached at 75 bottles."

But Mrs. Dean was freed anyhow. The police, it was found, had entered without a search warrant.

## What Chances Has Poor Bear?

BUTTE, Mont., Jan. 10.—An axe, car and airplane have been employed recently to capture and kill Montana bears.

Born Sheeps, Deer Lodge sheep herder, took issue with an angry wounded bear and killed it with an axe. The beast had been carrying off sheep.

A swimming bear in Seely Lake was overtaken in a boat by Louis Wolfe, Corvallis. Vigorous blows on the head with an oar stunned the animal. It was dragged to shore,

where Wolfe administered the "coup de grace."

On the air tour of the state, Ray Fisher, Anaconda pilot, spied a mother bear with two cubs. He landed, killed the mother, captured one of the cubs and brought it home in his plane.

## School Directors Hold Convention

Twenty-Seventh Annual Convention Is Being Held By Mercer County School Heads

The 27th annual convention of the school directors of Mercer county opened Thursday in the court house assembly room and closes this evening.

The program as arranged is the most entertaining of years and offers the opportunity to hear such well known educators as Dr. T. S. Lowden of Ohio State university, Dr. D. H. Kline superintendent of the Perry county schools; Dr. C. A. Platt of the faculty of Grove City college; M. B. Orr of the Springfield board; A. M. Corryea of New Wilmington and Mrs. D. G. Baker of Wolf Creek.

## CLUB CASE UP

An echo of the raids of last spring on nine county social clubs is carded for hearing before Judge J. A. McLaughlin soon. The court will set a time to take testimony in the Sharon Eagles case where the trustees are held for contempt of court.

It is held by the district attorney's office that a number of bottles with a small quantity of liquor in them was found in the club rooms.

## Colored Quintet Will Be Heard At Alliance Tabernacle

The colored quintet that sang in "Everybody's Tabernacle" with Rev. O. H. Erickson last winter in this city, will be heard here Monday evening, January 13, at 7:30 at the Alliance Gospel Tabernacle, 210 Pearson street, for one performance only.

The quintet is now singing at the Franklin Gospel Tabernacle, Franklin, Pa., and arrangements have been made to have them appear here one evening and the entire program will be given over to them. No admission will be charged but a free will offering will be lifted to aid in paying their expenses.

Charged with committing a fraud of 5,000 francs in Switzerland, twenty-year-old Willie Lindemann was recently arrested in Sydney, N. S. W., just as he was landing.

## Two Hundred Men Membership Aim Of Bible Class

Baptist Church Class Anticipates Large Attendance During Year

Two hundred members every Sunday is the 1930 goal for the Men's Bible class of the First Baptist church of which Rev. G. M. Landis is teacher. It is the ambition of the class members to have at least 100 in attendance, but an attempt will be made to get 200.

The study of the Book of Exodus will be continued next Sunday.
